Final Review Criteria for Grants for the Minority Faculty Fellowship Program for Fiscal Year 1995

The Health Resources and Services Administration (HRSA) announces the final review criteria for Grants for the Minority Faculty Fellowship Program (MFFP) under the authority of section 738(b), title VII of the Public Health Service Act, as amended by the Health Professions Education Extension Amendments of 1992, Pub. L. 102-408, dated October 13, 1992.

Purpose

The purpose of the MFFP is to increase the number of underrepresented minority faculty members in health professions schools, i.e., schools of medicine, osteopathic medicine, dentistry, veterinary medicine, optometry, podiatric medicine, pharmacy, public health, health administration, clinical psychology, and other public or private nonprofit health or educational entities.

Specifically, these grant awards are intended to allow institutions an opportunity to provide a fellowship to individuals who have the potential for teaching, administering programs, or conducting research as faculty members. Institutions must demonstrate a commitment and ability to identify, recruit, and select underrepresented minorities in health professions. The institutions' training programs provide the fellows with the techniques and skills needed to secure an academic career including competence in: Pedagogical skills, research methodology, development of research grant proposals, writing and publication skills, and the ability to work with minority populations and provide health services to medically underserved communities. In addition, the fellows must work under the direct supervision of a senior level faculty member engaged in the disciplines mentioned above, and upon successful completion of the program would be assured a teaching position at the institution.

Final Review Criteria

The program announcement published in the **Federal Register** at 60 FR 28619 on June 1, 1995, proposed four review criteria for this program. No comments were received within the 30 day comment period. Therefore, the following review criteria remain as proposed.

1. The extent to which the institution demonstrates that it has the commitment and ability to identify, recruit, and select underrepresented minority faculty, and its ability to provide health services to rural or medically underserved populations;

2. The extent to which the institution's training program will provide the fellow with the preparation, training and skills needed to secure an academic career. Training may include: pedagogical skills, program administration, grant writing and publication skills, research methodology and development of research grant proposals, and community service abilities;

3. The degree to which the institution's senior faculty are involved in the training and preparation of fellows pursuing an academic career, and the potential of the institution to continue the program without Federal support beyond the approved project period; and

4. The extent to which the institution meets the eligibility requirements set forth in section 738(b) of the Public Health Service Act.

In determining awards, the Secretary will also take into consideration equitable distribution among health disciplines and geographic areas.
