POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Information contained in this system is stored manually on index cards, in files, and in various ADP storage media.

RETRIEVABILITY:

Information is retrieved from the Text Management System alphabetically by the name of an individual, by case number, or by subject matter. Information in the paper files backing up the Text Management System and older cases closed by 1989 is retrieved by subject matter and/or case number, not by individual identifier. Information

is retrieved from index card files for cases closed before 1989 by the name or numerical identifier of the individual or entity under investigation or by subject matter. Information in the Allegations Tracking System is retrieved by allegation number, case number, or name.

SAFEGUARDS:

The automated Text Management System is accessible only on one terminal in the OIG, is password protected, and is accessible only to OIG investigative personnel. Paper files backing up the Text Management System and older case reports and work papers are maintained in approved security containers and locked filing cabinets in a locked room; associated indices, records, diskettes, tapes, etc., are stored in locked metal filing cabinets, safes, storage rooms, or similar secure facilities. Index card files for older cases (1970–1989) are under visual control during working hours and are available only to authorized investigative personnel who have a need to know and whose duties require access to the information. The Allegations Tracking System is double-password-protected and is available to a limited number of OIG investigative employees on only one terminal in a locked room.

RETENTION AND DISPOSAL:

a. *Investigative Case Files.*

1. Files containing information or allegations that are of an investigative nature but do not relate to a specific investigation—Destroy when 5 years old.

2. All other investigative files, except those that are unusually significant—Place in inactive file when case is closed. Cut off inactive file at end of fiscal year. Destroy 10 years after a cutoff.

3. Significant cases (those that result in national media attention, congressional investigation, or substantive changes in agency policy or procedures)—To be determined by the National Archives and Records Administration on a case-by-case basis.

b. *Index/Indices.* Destroy or delete with the related records or sooner if no longer needed.

c. *Text Management System.* Delete after 10 years or when no longer needed, whichever is later.

d. *Allegation Tracking System.* Destroy when no longer needed.
