[FR Doc. 95-18416 Filed 7-26-95; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. CP95-623-000]

**Northern Natural Gas Company; Notice of Request Under Blanket Authorization**

July 21, 1995.

Take notice that on July 17, 1995, Northern Natural Gas Company (Northern), 1111 South 103rd Street, Omaha, Nebraska 68124-1000, filed in Docket No. CP95-623-000 a request pursuant to §§ 157.205 and 157.212 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205, 157.212) for authorization to upgrade facilities at an existing delivery point in Columbia County, Wisconsin, under Northern's blanket certificate issued in Docket No. CP82-401-000 pursuant to Section 7 of the Natural Gas Act, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

Northern proposes to upgrade the Portage Town Border Station #1 in order to accommodate increased deliveries Wisconsin Power & Light Company (WP&L) under Northern's currently effective throughout service agreements. It is stated that WP&L has requested the upgrade of the delivery point to accommodate growth of gas requirements in the area. It is asserted that Northern would use the upgraded delivery point for the delivery of up to 9,613 MMBtu equivalent of natural gas on a peak day and 1,956,013 MMBtu equivalent on an annual basis. It is further asserted that Northern is presently using the delivery point for the delivery of up to 6,113 MMBtu equivalent on a peak day and 678,513 MMBtu equivalent on an annual basis. It is explained that the proposed increase would be 3,500 MMBtu equivalent on a peak day and 1,277,500 on an annual basis. It is stated that the volumes to be delivered would not exceed the total volumes presently delivered to WP&L. The construction cost is estimated at \$166,898. It is stated that WP&L will reimburse Northern in the amount of \$154,159. Northern states that it has sufficient capacity to render the proposed service without detriment or disadvantage to its other existing customers and that its tariff does not prohibit the proposed upgrade of a delivery point.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to section 7 of the Natural Gas Act.

**Linwood A. Watson, Jr.,**

*Acting Secretary.*

BILLING CODE 6717-01-M

**FEDERAL COMMUNICATIONS COMMISSION**

**FCC Clarification of Manual and Electronic Filing Process for the Broadband PCS "C Block" Auction; Improved Software and Instructions Provided—Electronic Signatures Are Acceptable**

July 14, 1995.

**Information for All Filers**

By Public Notice, released June 13, 1995, the Commission announced it was suspending the June 15, 1995 filing deadline for the FCC Form 175 applications for the broadband personal communications services (PCS) C Block auction and would return any applications filed prior to the announcement of a new filing deadline. The Commission established a new, July 28, 1995 filing deadline by Public Notice on June 23, 1995. By this Public Notice, the Commission clarifies that it will continue to accept any short form applications that are filed up to the July 28 filing deadline. We remind bidders, however, that we have a pending rule making proceeding that proposes changes to the competitive bidding rules for the C Block auction. See Further Notice of Proposed Rule Making, FCC 95-263, 60 FR 34,201 (June 30, 1995). Bidders may want to wait until that proceeding is resolved before submitting their FCC Form 175 applications.

**Electronic Filing Instructions**

The FCC urges applicants for the upcoming broadband Personal Communications Services (PCS) "C

block" auction to file their FCC Form 175 applications electronically and emphasizes that the electronic transmission of a name in place of a handwritten signature is permitted.

In an Order released April 21, 1995 (April 21 Order), electronic filing of applications was announced. See *Order*, DA 95-805. The April 21 Order stated that "handwritten signatures will continue to be required on all applications unless and until specific procedures are established for electronic filing of such applications. Such procedures will be implemented by future Public Notices in the **Federal Register**, modified application forms, and other published procedures." *Id.* at ¶ 3.

The specific procedures for electronically filing applications for the C Block were set forth previously in the Bidder Information Package for the FCC Entrepreneurs' Block auction on Block C, which was released to the public in May 1995. The Commission, however, is republishing these procedures, as updated, in an attachment to this Public Notice, which will be printed in the **Federal Register** in its entirety. See Attachment A. By so doing, the agency is responding to concerns that electronic signatures may not be officially recognized according to the terms of the April 21 Order. The Commission will accept the electronic transmission of a name as a valid signature on all electronically filed FCC Form 175 applications as specified in Attachment A to the Public Notice.

Also, in an effort to make it easier for applicants to file electronically, the Commission has improved its software to facilitate the electronic filing process. Today, in re-releasing electronic filing procedures, the Commission offers new and improved instructions on how to down-load the software and on electronic filing generally. The new software will be available starting Saturday, July 15, 1995. Anyone interested in filing electronically must down-load the new software package since the old one will no longer be recognized by the Commission's computer system. Any information previously submitted to the electronic filing system has been purged. Therefore, on July 15, 1995, electronic filing will be available to the public. Electronically filed applications may be modified by the applicant up until the filing deadline, 5:30 p.m. E.D.T. on Friday, July 28, 1995, when the information submitted by the applicant will be considered a formally filed application. All applicants are encouraged to file electronically. Applicants are also encouraged to watch

for Public Notices which will keep them apprised of any important dates or rule changes involving the C Block PCS auction.

Federal Communications Commission.

**LaVera F. Marshall,**

*Acting Secretary.*

### **Attachment A—Electronic Filing Information and Instructions**

In order to be eligible to bid in the FCC action, applicants must submit an FCC Form 175 application to the Commission. The Commission recently implemented a remote access system to allow applicants to submit their FCC Form application electronically. Auction applicants will have the opportunity to file their applications either electronically or manually (via hard copy). Electronic filing will enable the applicant to: (1) Receive interactive feedback while completing the application, and (2) receive immediate acknowledgment that the FCC Form 175 has been submitted for filing.

A new version of the Remote FCC Form 175 application software will be available for downloading beginning Saturday, July 15, 1995. The old version of the Remote FCC Form 175 application software will not work. That is, all application software downloaded prior to Saturday, July 15, 1995 will not run properly. The FCC encourages applicants to file electronically. The remote access system for initial filing of the FCC Form 175 applications will generally be available 24 hours per day.

The old version of the Remote FCC Form 175 application software will not work. You must download the new version of the Remote FCC Form 175 application software to file electronically. If you had previously downloaded and installed the FCC Form 175 application, then you should delete the existing FCC Form 175 directory (usually installed as c:/auction) and all files within it. However, if you do not delete the directory before installation, then during installation the setup program will prompt you to update any existing files. You MUST update all the existing files. New instructions for downloading the application as well as revised instruction for filing electronically are attached.

All FCC Form 175 applications submitted to the FCC previously have been DELETED from the system.

The electronic filing process consists of an initial filing period and a resubmission period to make minor corrections.

Applicants who file FCC Form 175 application electronically will NOT be required to transmit an original or electronic signature. However, by submitting the form electronically the certifying official has made representation that they are an authorized representative of the applicant for the license(s) selected, and that they have read the instructions and the certifications and all matters and things stated in the application and attachments including exhibits, are true and correct.

Late applications (*i.e.*, any applications filed after 5:30 p.m. E.D.T. on Friday, July 28, 1995) or unconfirmed submissions of electronic data will not be accepted.

The following provides a general description of the electronic filing software.

**Note:** All ownership documentation (for electronic filing) must be formatted as ASCII Text (.TXT) file(s), so be prepared and have the file(s) ready prior to accessing the remote FCC Form 175.

The remote FCC Form 175 submission software will prompt the applicant for an FCC Account Number. The FCC Account number that is required to log in to the software is the same as what is required in Item 7 of the FCC Form 175 application. This number will be used to identify and track applications. Applicants must create this number using their Taxpayer Identification Number (TIN) with a prefix of "0", *i.e.*, 0123456789. If, and only if, an applicant does not have a Taxpayer Identification Number, the applicant may use its ten digit area code and telephone number (*i.e.*, 5552345678).

In addition, the applicant will be required to enter a self-assigned password. This password must be entered in both the password and the verify password fields. Be careful when entering the passwords since the data entry is case sensitive. The applicant will need to remember the exact spelling of the password and keep it secure. In the event that an applicant loses its password to the remote electronic filing system, the applicant must notify the FCC Technical Support Hotline at (202) 414-1260 and will be required to obtain a replacement code in person at the auction site located at 2 Massachusetts Avenue, NE in Washington, D.C. Only the certifying official or one of the authorized bidders will be able to obtain a replacement password and two forms of

identification will be required (at least one of which must be a photo identification). To ensure the security of the filed applications, replacement passwords will not be provided over the telephone.

Further, if an applicant exits the FCC Form 175 without ever submitting the application, the password associated with the FCC Account Number and any data entered will NOT be saved.

The FCC Form 175 submission software contains seven main screens. The first screen is the "Profile" screen which is used to capture the general FCC Form 175 information. The second screen is the "Licenses" screen which is used to select the licenses for which the applicant wishes to apply. The third screen provides the "Required Certifications" prior to submitting their application. The fourth and fifth screens are used to submit the required "Ownership" information. Applicants must provide their ownership documentation in an ASCII Text (.TXT) file format. The sixth screen allows the applicant to enter a free-form waiver request. The last screen provides the instructions for filing the FCC Form 175.

If the applicant exits the remote access system prior to submitting their FCC Form 175, the information that they entered during the session will not be saved.

The electronic filing method will capture all of the information required on the FCC Form 175 and will electronically submit the application to the FCC when the Form 175 has been properly completed and the applicant presses the submit button. The system will provide interactive error messages to help ensure the application contains the required information. Applicants that file their FCC Form 175 applications electronically through the FCC remote access system will be able to print their completed application.

The Commission will prohibit submission of FCC Form 175 applications after the deadline and encourages applicants to file their applications early in order to ensure that their applications are submitted and confirmed.

After the FCC Form 175 has been successfully submitted, the option to generate and complete the FCC Form 159 (FCC Remittance Advice Form) will be offered. The FCC Form 159 screen allows the applicant to prepare and print its FCC Form 159 which must accompany its upfront payment to participate in the auction. Certain information will automatically appear on the screen based on the information entered on the applicant's FCC Form 175 application (*i.e.*, the name and

address of the applicant, the payment type code, the FCC Code 1 (auction number), etc.). The FCC Form 159 should be completed, submitted and printed. The printed copy must accompany an applicant's upfront payment if the applicant is paying by cashier's check or must be faxed to Mellon Bank at (412) 236-5702 if the applicant wishes to submit its upfront payment by wire transfer.

After the initial submission period deadline, the Commission will issue a Public Notice which will identify accepted, incomplete and rejected applications and the markets in which each applicant has applied. All applications are still subject to FCC approval. Applicants who submit their FCC Form 175 electronically will need to check the Public Notices to verify acceptance of their application.

During the resubmission period, applicants can make minor corrections to their FCC Form 175 application electronically. Applicants will not be permitted to modify their license selection(s), change their certifying official, or change control of the applicant. If the FCC Form 175 is initially submitted electronically, then any modifications to the form must also be submitted electronically. Further, minor modifications to FCC Form 175 applications, intended to correct applications initially determined to be incomplete, must be submitted prior to the deadline for resubmissions stated in the Public Notice that identifies the accepted, incomplete and rejected applications.

Once the Public Notice is released which identifies the accepted, incomplete, and rejected applications, remote access system users will be allowed to review other applicants' FCC Form 175 applications online.

The FCC Form 175 review software may be used to review and print other applicants' FCC Form 175s. It also provides the ability to download other applicants' FCC Form 175s once the FCC Form 175 resubmission period has started.

The remote access system for initial filing of the FCC Form 175 applications will generally be available 24 hours per day. Once the Public Notice that identifies the accepted, incomplete and rejected applications has been released by the Commission, the remote access system will generally be available on a 24 hour basis for resubmission of FCC Form 175 applications to make minor corrections and for the public to access other FCC Form 175 filings. During certain FCC required timeframes the system may not be available due to internal maintenance and process

requirements or other unforeseen technical difficulties. A message will be provided when access is denied.

Those applicants who wish to file their FCC Form 175 electronically or review other FCC Form 175 applications online will need to carefully review the Bidder's Information Package and all subsequent Public Notices. For technical assistance in downloading, extracting or installing the FCC application software contact the FCC Technical Support Hotline at (202) 414-1260.

After the deadline for resubmitting corrected applications, the Commission will release another Public Notice announcing all applications that have been accepted for filing.

There is no application fee required when filing an FCC Form 175. However, to be eligible to bid, an applicant will have to submit an upfront payment. In a pending rulemaking proceeding, the Commission is considering charging fees for software and on-line computer services associated with bidding and viewing other applications. 900 Number Fee Schedule Notice of Proposed Rulemaking, WTB Docket No. 95-69, 10 FCC Rcd 7066 (1995).

The following provides information about electronic filing and remote access. It is divided into three functional and technical parts:

- Part 1: Hardware and Software Requirements and Instructions for Installing Electronic Filing Software
- Part 2: Instructions for using the remote FCC Form 175 Submission Program
- Part 3: Instructions for using the remote FCC Form 175 Review Program.

#### **Part 1—Hardware and Software Requirements and Instructions for Installing Electronic Filing Software**

##### *About Your Software*

The FCC Form 175, bid submission and round results viewer all require ppp software that is Winsock v1.1 compliant to access the FCC system. Configuration parameters for Trumpet v2.0b, NetManage Chameleon v4.1 and Wollongong Pathway Access for Windows v3.2 software are included in the appendix.

##### *Recommended Hardware and Software Requirements to Access the FCC Auction System*

You will need at minimum the following hardware:

- CPU: Intel® 80386 or above (80486 or faster recommended).
- RAM: 8MB RAM (more recommended if you have multiple applications open).
- Hard Disk: 10MB available disk space.

- 1.44MB Floppy Drive (to install the FCC Form 175).

- Three blank MS-DOS® formatted 1.44MB floppy disks.

- Modem: v.32bis 14.4bps Hayes® compatible modem.

- Monitor: VGA or above.

- Mouse or other pointing device.

- Microsoft® Windows™ 3.1 or above, or Microsoft® Windows for WorkGroups™ v3.11 or above.

- PPP asynchronous communications package Winsock v1.1 compliant.

The FCC Form 175 has not been tested on a Macintosh or OS/2 environment. Therefore the FCC will not provide assistance to those who cannot run Microsoft Windows 3.1 or above, or Windows for Workgroups v3.11 or above in an enhanced mode. This includes any other emulated Windows environments.

If your Windows is in a networked environment, you should check with your local network administrator for any potential conflicts with the ppp software package you will use to connect to the FCC network. This usually includes any TCP/IP installed network protocol.

##### *Phone Numbers*

The FCC Auction Network phone number for your ppp communications package is 202-408-7835. Technical support for installing or using the FCC Form 175 application can be reached at 202-414-1260. The FCC Auction BBS number is 202-682-5851. The general FCC Auction Hotline number is 202-418-1400.

##### *Various Programs on the Internet*

The following is a list of various programs that can be found on the Internet. These files can be downloaded via ftp (be sure to download in binary mode).

Trumpet v2.0b can be found at oak.oakland.edu in the following directory /simtel/win3/winsoc as twsk20b.zip. The newest version, Trumpet v2.1c, can be found at ftp.trumpet.com.au in the directory /winsoc as twsk21c.zip. You will need PKWare's v2.04g pkunzip.exe to uncompress these files.

PKWare v2.04g can be found at oak.oakland.edu in the following directory /simtel/msdos/zip as pkz204g.exe. This is a self-extracting file. Type pkz204g.exe to extract the file pkunzip.exe.

Please be aware of any licensing issues for these shareware products. The information is included in the respective package.

### Installing Your PPP Software

Before you can use the FCC Form 175, you will need to install the ppp software. The ppp software should include documentation sufficient to install their product. Please see the appendix for various ppp software hints and configuration parameters.

### Where to Get Form 175

On the Internet, you can connect via anonymous ftp at fcc.gov. Login using the account name anonymous and use your Internet e-mail address as the password. The file F175V2.EXE can be found in the following dir: /pub/Auctions/PCS/Broadband/BTA. Set to binary before you download the file.

If you wish to use the FCC Auctions BBS, dial 202-682-5851 (set your modem to 8 databits, no parity and 1 stop). To download the FCC Form 175 application, you will need a communications program that can handle at least xmodem protocol and preferably zmodem protocol.

### Detailed Internet Instruction

To access the FCC ftp server, you will need to have access to the Internet and ftp client software. The following are instructions for the command line version of ftp. Graphical ftp interfaces may differ; please check with your local computer specialist. Connect to the FCC ftp server, usually by typing ftp fcc.gov.

- At the user name prompt, type anonymous and press [Enter].
- At the password prompt, type your Internet e-mail address and press [Enter].
- Type binary so you can download binary files and press [Enter].
- Change your current directory to the BTA directory by typing: cd/pub/Auctions/PCS/Broadband/BTA and press [Enter].
- Type get F175V2.EXE and press [Enter].
- To exit, type bye and press [Enter].

### Detailed BBS Instructions

To access the FCC Auctions BBS, you will need a PC with a modem and a communications package that can handle at least xmodem protocol. Use the communications package to dial in to 202-682-5851. Use the settings of 8 data bits, no parity and 1 stop bit (8,n,1). New users follow steps 1-6, otherwise go to step 7:

1. Type New and press [Enter]. If the word ANSI is blinking, type Y for Yes. If the word ANSI is not blinking, type N for No.
2. Type in your first and last name and press [Enter]. This will be your login name.

3. Type in your Telephone number and press [Enter].

4. Type in your Fax number and press [Enter].

5. Type in what you want your password to be and press [Enter].

6. Retype the password for verification and press [Enter].

After the account is generated:

7. Type B for Broadband Auction and press [Enter].

8. Type B for BTA Auction and press [Enter].

9. Type P to download program files.

10. Move the cursor to the file F175V2.EXE, type [Control-D] (hold the Ctrl key down and press the D key) for Download and press [Enter].

11. Type the letter representing the transfer protocol you want to use and press [Enter]. How the file is downloaded and where it gets downloaded depends on the package being used.

12. When the file has finished downloading, press [Enter].

Repeat steps 9 through 12 to download another file or press X and [Enter] to exit the screen.

To Exit:

Type X to exit and press [Enter] and continue to press [Enter] until asked if you want to exit the BBS. Answer Y for Yes when asked to verify that you want to exit.

### Creating Installation Disks From Downloaded Files

After you download the file F175V2.EXE, create the FCC Form 175 installation disks. You will need to have three (3) blank MS-DOS® formatted 3.5" 1.44MB disks. To create the installation disks, type at the MS-DOS prompt: F175V2/!

The F175V2 program will first decompress several files and then run a batch file to create the installation disks. Please follow the instructions on the screen.

### Installing FCC Form 175 Disks

If you had previously downloaded and installed the FCC Form 175 application then you should delete the existing FCC Form 175 directory (usually installed as c:\auction) and all files within it. However, if you do not delete the directory before installation, then during installation the setup program will prompt you to update any existing files. You MUST update all the existing files.

After you create the installation disks, restart Windows and run SETUP.EXE from installation Disk 1 of 3 and follow the instructions on the screen. Before running the installed FCC Form 175, be sure you have started and successfully connected using your ppp software.

### Running FCC Form 175

After the FCC Form 175 installation completes, you will have a new Program Manager group called FCC Auction with two icons: Remote FCC Form 175 Submit and Remote FCC Form 175 Review. You must start the ppp software and be connected before you start either the Remote FCC Form 175 Review or Remote FCC Form 175 Submit. To start up either the Remote FCC Form 175 Submit or the Remote FCC Form 175 Review, you double click the respective icon. When you are finished with either FCC Form 175 program, be sure to disconnect from the FCC Network via your ppp software.

### Appendix—Installing Trumpet v2.0b or Higher

If you already have some kind of TCP/IP networking package installed, the Trumpet Winsock program may not run. Contact your LAN administrator for assistance. Trumpet versions 2.0b and 2.1c have successfully been tested to work with the FCC network.

Copy the files winsock.dll, tcpman.exe, hosts, services, login.cmd, bye.cmd, setup.cmd, sendreg.exe, and protocol to a suitable directory. e.g., c:\trumpet

The essential files are:  
 winsock.dll the core of the Trumpet TCP/IP driver  
 tepman.exe controlling program for the Winsock  
 sendreg.exe registration program  
 hosts list of host names  
 services list of Internet services  
 protocol list of Internet protocols  
 login.cmd Trumpet script file to connect to the FCC Network  
 bye.cmd Trumpet script file to disconnect from the FCC Network  
 setup.cmd Trumpet setup file to connect to the FCC Network

Modify the path line in your autoexec.bat to contain a reference to that directory.

e.g., path c:/trumpet;c:/dos;c:/windows

Make sure it is active by rebooting your computer. Now you are ready to start windows.

From windows, start up tcpman by selecting File | Run from the file manager, then type tcpman. If this fails, the path is probably not set up correctly. Please fix it before proceeding. Later, you can set up tcpman as an icon so it can be started directly.

Assuming you are a first time user, a setup screen will appear giving you a number of options to fill in. You will need to fill in the following details to enable the TCP package to function. If you are unclear on any of them, try to

seek some help from qualified Internet support staff—it will save you a lot of time.

First click on Internal PPP. Some of the parameters will be grayed and others ungrayed.

#### Name server

- Enter name server IP address 165.135.22.249 for DNS searches.

#### Domain suffix

- Enter domain suffix fcc.gov

#### MTU

- Maximum Transmission Unit, set to 1500. Related to TCP MSS usually TCP MSS + 40 (Numeric)

#### TCP RWIN

- TCP Receive Window, set to 4096. It is recommended that this value be roughly 3 to 4 times the value of TCP MSS (Numeric).

#### TCP MSS

- Maximum Segment Size, set to 1460.

#### SLIP port

- your modem port number 1=com1, 2=com2 etc., (numeric).

#### Baud rate

- The speed you wish to run at (numeric), set to the maximum modem DTE speed or 57600. Up to 115200 is supported although speeds greater than 19200 require suitable hardware.

#### Hardware

- Handshake Should be checked. The rest of the details should be grayed out and you need not try to fill them in. When you are done, click on [OK].

#### Under the Dialler | 1. setup.cmd:

- Set the telephone number to: 202-408-7835. You may need to add a dialing prefix.
- Leave the login username blank (i.e., no username)
- Leave the login password blank (i.e., no password)

#### Under the file | PPP Options

- Do not enable PAP. If you decide to use the login script login.cmd, you will need to use a text editor and modify the following lines by using the pound symbol (#) at the beginning of the line. The line number is the approximate location:

Lines 71 and 72

```
# input 30 $userprompt
# output $username/13
```

Lines 76 and 77

```
# input 30 $password
```

```
# output $password/13
```

Line 81

```
# input 30 $prompt
```

Line 86

```
# output $pppcmd/13
```

Line 88

```
# input 30/n
```

If all goes well, the Trumpet Winsock will be initialized. You are now ready to start using the Winsock.

Remember, before you use the FCC Form 175, you will need to be connected. To connect, select Dialler | Login on the menu bar. After finishing the FCC Form 175, you should disconnect from the FCC network by selecting Dialler | Bye.

#### Detailed Configuration Information Using NetManage Chameleon v4.1

Install the software as instructed by the NetManage installation routine. Activate the Custom—Connect Here icon in the Program Manager Internet Chameleon group. Setup Chameleon's parameters with the following:

Under the Custom menu Interface | Add:

- Set the Name to FCC.
- Set the Type to PPP.

Under the Custom menu Setup | Port:

- Set the Baud Rate to the maximum DTE speed of your modem, usually 57600 bps for 14.4 kbps modems.
- Set the Data Bits to 8.
- Set the Stop Bits to 1.
- Set the Parity to none.
- Set the Flow Control to Hardware.
- Set the Connector to match your modem comm port.

Under the Custom menu Setup | Modem:

- Select the modem that most closely matches your modem. Hayes© is the most common choice.

Under the Custom menu Setup | Dial:

- Type in the dial edit box: 202-408-7835. You may need to add a dialing prefix.

Under the Custom menu Setup | Login:

- Leave User Name blank.
- Leave User Password blank.

Under the Services | Domain Servers:

- Set the IP address to the number 165.135.22.249

Remember, before you use the FCC Form 175, you will need to be connected. To connect, click on Connect on the menu bar. After finishing the FCC Form 175, you should disconnect from the FCC network by clicking on Disconnect.

#### Configuration Information For Using Wollongong Pathway for Windows v3.2

Install the Pathway Runtime for Windows v4.0 software using the Wollongong installation routine. During setup, you will be required to provide the following parameters: (you may enter anything for information not listed):

- Set the Adapter to SLIP/CSLIP/PPP connection.
- Set the Domain Name to fcc.gov.
- Set the IP Address to 0.0.0.0.
- Set the Subnet Mask to 255.255.0.0.
- Set the DNS Server to the number 165.135.22.249.

After the installation, start Dialer found in the Pathway Access Program Manger group. Enter a new profile (File | New) and supply the following relevant information:

- Set the Telephone Number to: 202-408-7835. You may need to add a dialing prefix.
- Set the Port to match your modem comm port
- Set the Baud Rate to the maximum DTE speed of your modem
- Check Driver Parameters' Flow Control
- Under Protocol, select PPP
- In the script text box, have only the following command:

SEND:

When you are finished, click on [Save] and provide a filename for your new profile.

Before you use the FCC Form 175 programs, you must be connected. To connect, click on Dial on the tool bar. After you are connected, Dial will gray out and Disconnect will be made available. After finishing the FCC Form 175 programs, you should disconnect from the FCC Network by clicking on Disconnect.

#### General Setup for Unsupported or Unlisted PPP Software

It is possible to use ppp software that we have not tested. The following information should provide enough information to make your software work. However, if your software cannot confirm/establish the following parameters, you will need to get one of the tested ppp software. The FCC will not provide support for any untested software product.

1. Set the ppp software to ppp mode (do not set for slip).
2. Set the domain name server to 165.135.22.249.
3. Set the domain suffix to fcc.gov.
4. Set the phone number to: 202-408-7835. You may need to add a dialing prefix.
5. Be sure to set the Baud Rate to the maximum DTE modem speed. This is

usually 57600 bps for 14.4 kbps modems.

6. Set the modem parameters to 8 data bits, no parity and 1 stop (if needed, set flow control to hardware).

Note: Spry's Internet-in-a-Box failed our testing procedures.

## Part 2—Instructions For Using The Remote FCC Form 175 Submission

The Remote FCC Form 175 Submission program must first be installed. You MUST start the ppp software and be connected to the FCC Remote Electronic Auction System before you start the FCC Form 175 program. If you have not successfully connected to the System, you will receive an error message after the Account Verification Login Screen stating that you were unable to connect to the server.

Once you have successfully connected, double-click on the Remote FCC Form 175 Submission icon to load the application.

Use the TAB key or the mouse to redirect the cursor so the data may be entered. The data entry for this application is case sensitive, therefore be careful to type using either lower case and/or upper case exactly as you want.

In the lower right corner of the FCC Form 175 program is an icon with a question mark representing the Help facility. Click on the Help facility for definitions and additional instructions on how to use the FCC Form 175.

**Please Note:** If you exit the FCC Form 175 without ever submitting the application, then the information that was entered and the password associated with that FCC Account Number will NOT be saved.

After you have finished using the Remote FCC Form 175 Submission program, you should disconnect from the FCC System.

The first screen to appear will be the Welcome Screen.

### Welcome Screen

Select the appropriate auction number (in this case auction '5') by using the mouse to advance to the arrow just below the word Auction.

Click on Ok to continue the submission process. The next screen to appear will be the Account Verification Login Screen.

To exit the remote FCC Form 175 application, click on the Exit button and enter either a 'Y' or click on 'Yes' in response to the message box that asks 'Are you sure you want to exit the application?'.

### Account Verification Login Screen

**Please Note:** The data entry for this application is case sensitive, therefore be careful to type using either lower case and/or upper case exactly as you want.

Enter your ten digit FCC Account Number. This is your Taxpayer Identification Number (TIN) with a prefix of '0' or your ten digit telephone number (if you do not have a TIN).

Use the TAB key or the mouse to advance to the password. On the initial entry of this screen, you will be defining your confidential password. The password must be a minimum of five characters and a maximum of ten characters. It must be entered in BOTH the password and the verify password fields. Please be careful when typing the passwords since the data entry is case sensitive. You will need to remember the exact spelling of your password and keep it secure.

Click on Ok to continue the FCC Form 175 submission process. The next screen to appear will be the Profile Screen.

Click on the Cancel button to exit the Account Verification Login Screen.

### Entering Data on the Profile Screen

**Please Note:** After entering the Profile information, you will need to click on each tab at the top of the screen to navigate through the entire FCC Form 175.

Click on the Instructions tab (at the top of the screen) to review the instructions for filing the FCC Form 175.

The Profile Screen is used to capture the general FCC Form 175 information. The FCC Form 175 will be displayed with your FCC Account Number and the auction number prefilled. The filing phase appears in the lower left corner of the screen in red.

Enter the applicant name.

Enter the applicant address, city, state, and zip code.

Click on the applicable applicant classification box. Click on the box again to reset the box.

If you are eligible to bid on entrepreneurial block licenses, then click on the appropriate entrepreneurial block box(es). Click on the box again to reset the box.

Click on all applicable designated entity boxes. Click on the box again to reset the box.

Enter the person(s) authorized to submit and withdraw a bid. Enter the name in First Name, Middle Initial, Last Name order.

Click on the Required Certifications tab (at the top of the screen) to review the certification requirements. This screen provides the certification

requirements for filing the FCC Form 175. Applicants should read the 'Certifications' listed on the FCC Form 175 carefully before submitting the application. These certifications help to ensure a fair and competitive auction and require, among other things, disclosure to the Commission of certain information on applicant ownership and agreements or arrangements concerning the auction. Submission of a false certification to the Commission may result in penalties, including monetary forfeitures, license forfeitures, and ineligibility to participate in future auctions, and/or criminal prosecution.

Click on the Profile tab (at the top of the screen) to return to the FCC Form 175 profile information and reposition the cursor to the box labeled 'Name of Person Certifying'.

Enter the person certifying the application. Enter the name in First Name, Middle Initial, Last Name order.

Enter the title of the person certifying the application.

Enter the contact person. Enter the name in First Name, Middle Initial, Last Name order.

Enter the contact person's telephone number and fax number.

Click on the Licenses tab (at the top of the screen) to select the licenses for which you wish to apply.

### Entering Data on the Licenses Screen

**Please Note:** This information will not be available for update after the initial FCC Form 175 filing period has ended.

The Licenses Screen is used to capture the licenses for which you wish to apply.

The licenses that are offered in the specified auction will be displayed in the 'Available Licenses' box.

If you wish to apply for all markets, then click on the box next to the words 'Markets All'. Click again on the box to reset.

If you wish to apply for all frequency block(s), then click on the box next to the words 'Freq Blks All'. Click again on the box to reset.

If you wish to apply for selected licenses, then click on the markets that you want. Click on the available frequency block(s) that you want.

Click on the 'Copy>>' button to move the license(s) you selected into the 'Selected Licenses' box.

If you wish to delete a license that is in the 'Selected licenses' box, then click on the selected license(s) and then click on the '<<Remove' button to move the license back into the 'Available Licenses' box.

Click on the Ownership Documentation tab (at the top of the

screen) to enter the required free-form ownership information.

#### **Entering Data on the Ownership Documentation Screen**

The Ownership Documentation Screen is used to upload and/or view the required free-form ownership information.

Click on the exhibit you wish to upload. You may upload only one exhibit at a time, however, you may upload and view all exhibits if you wish to do so. Click on the 'Upload' button to upload a file containing the ownership information. The file format must be ASCII Text (.TXT).

Click on the exhibit you wish to view. Click on the 'View' button to review the ownership file that was uploaded. If a message box appears asking whether you wish to convert the file to a Write format, you may select either Convert, No Conversion, or Cancel.

Click on the Ownership Worksheet tab (at the top of the screen) to enter the formatted ownership information.

#### **Entering Data on the Ownership Worksheet Screen**

The Ownership Worksheet Screen is used to enter the formatted ownership information. Two separate worksheets are displayed, one for Direct Ownership and one for Indirect Ownership.

A separate row for each direct interest holder that has at least a 5% equity ownership in the applicant must be entered on the Direct Ownership Worksheet. A separate row for each indirect interest holder should be entered on the Indirect Ownership Worksheet. Use the Add and Delete buttons to add or delete rows to/from the appropriate worksheet.

Enter the Taxpayer Identification Number (TIN) (or the Social Security Number (SSN), if an individual) of each interest holder.

Enter the familial relationship. It should reflect whether the direct holder is related to any other direct interest holder by blood or marriage (e.g., brother, mother, spouse, etc.).

Enter the appropriate selection for alien ('Y' for yes or 'N' for no).

Enter the appropriate selection for each interest holder's principal business.

Click on all applicable qualifying entity boxes (M=Minority Owned, S=Small Business, W=Woman Owned, and R=Rural Telephone). Click again on the box to reset the box.

Enter the appropriate selection for control group which reflects whether the interest holder is a member of the applicants' control group ('Y' for yes or 'N' for no).

Enter the interest holder's voting interest percentage of the applicant.

Enter the percentage equity held in the applicant.

**Please Note:** The Direct Ownership Worksheet has the following requirements: The equity held percentage must be 5% or greater. The sum of the equity held percentage may not exceed 100%

The system will calculate the difference of 100% and the sum of all equity held percentages and prefill the difference in the 'Other' category.

Click on the Waiver tab (at the top of the screen) or enter a free-form waiver request.

#### **Entering Data on the Waiver Screen**

The Waiver Screen is used to enter a free-form waiver request.

Click on the free-form text area and enter the waiver request information as you wish. Use the arrows on the right to scroll up and down through the text.

Click on the Submit button to submit the FCC Form 175. If any error messages appear, make appropriate corrections and click on Submit until no further error messages appear.

#### **Bid Method Screen**

The Bid Method screen captures the desired method(s) you wish to use for the bid submission/withdrawal process. The methods may include telephonic and remote.

The Bid Method screen will appear as your FCC Form 175 is being submitted.

You will receive a message stating your application was successfully submitted. The system will then ask if you want to generate the FCC Form 159.

#### **Entering Data on the FCC Form 159 Screen**

The FCC Form 159 screen is used to capture the information that needs to accompany the upfront payment. A copy of this screen needs to be either mailed with a cashier's check or faxed when paying by wire transfer.

This option will only be available after the FCC Form 175 has been initially submitted.

If you have used an FCC Account Number other than the one pre-filled on the screen previously with the FCC, enter it in the box that is labeled 'Did you have a number prior to this? Enter it.'

Enter the total amount paid (in dollars and cents).

Enter the payor name.

Enter the payor address, city, state, and zip code.

Enter the payor daytime telephone number.

Enter the payor country code when the country code is not U.S.A.

Click on the Ok button to save the FCC Form 159 information. Once the FCC Form 159 information has been saved the following instructions will appear.

#### **Making Auction Payments by Cashier's Check**

Each cashier's check and corresponding FCC Remittance Advice, FCC Form 159, must be in an individual envelope and specifically addressed to: Mellon Bank, Attention: Auction Payment, P.O. Box 358850, Pittsburgh, PA 15251-5850.

If delivering an auction payment in person or by courier, the check and FCC Remittance Advice, FCC Form 159, must be delivered to: Mellon Bank, Attention: Wholesale Lockbox Shift Supervisor, 27th Floor (153-2713), 3 Mellon Bank Center, 525 William Penn Way, Pittsburgh, PA 15259-0001.

**Note:** Please indicate on the inside of the envelope 'Lockbox No. 358850'.

#### **Making Auction Payments by Wire Transfer**

If making an auction payment by wire transfer, you must fax a completed FCC Remittance Advice, FCC Form 159, to Mellon Bank at (412) 236-5702 at least one hour prior to placing the order for the wire transfer (but on the same business day).

Click on the Print button to print the FCC Form 159. The Cancel button on the FCC Form 159 screen will return you to the FCC Form 175 screen.

Click on the Print button to print the FCC Form 175.

Click on the Backup Data button (in the upper right corner) to save the FCC Form 175 information to a text file(s).

The FCC Form 159 button will be enabled once the FCC Form 175 has been initially submitted. Once enabled, click on the FCC Form 159 button to enter the remittance advice information. This form must accompany the upfront payment.

Click on the Cancel button to exit the FCC Form 175 screen.

After you have finished using the Remote FCC Form 175 Submission program, you should disconnect from the FCC.

#### **Part 3—Instructions For Using The Remote FCC Form 175 Review**

The Remote FCC Form 175 Review program must first be installed. You must start the ppp software and be connected before you start the FCC Form 175 program. If you have not successfully connected, you will receive an error message stating that you were unable to connect to the server.

Once you have successfully connected, click on the Remote FCC Form 175 Review icon to load the application.

#### **Use the TAB Key or the Mouse to Redirect the Cursor**

In the lower right corner of the FCC Form 175 program is an icon with a question mark representing the Help facility. Refer to the Help facility for definitions and additional instructions on how to use the FCC Form 175 program.

After you have finished using the Remote FCC Form 175 Review program, you should disconnect from the FCC.

The first screen to appear will be the Welcome Screen.

#### **Welcome Screen**

Select the appropriate auction number (in this case auction '5') by using the mouse to advance to the arrow just below the word Auction.

Click on OK to continue the review process. The next screen to appear will be the Available Applicants Screen.

To exit the remote FCC 175 application, click on the Exit button and enter either a 'Y' or click on 'Yes' in response to the message box that asks 'Are you sure you want to exit the application?'

#### **Available Applicants Screen**

**Please Note:** The ability to review other applicants FCC Form 175(s) will not be available during the initial FCC Form 175 filing period. After the initial filing phase, all FCC Form 175(s) will be available for review.

**Please Note:** The applications may be subject to certain minor amendments during the resubmission period.

The available applicants screen will display all applicants (in FCC Account Number order) that submitted FCC Form 175 for the specified auction. If more than one page of applicants exist, then use the arrows at the corner of the table to scroll up and down through the list of applicants.

The date last changed column reflects the date and time of the last modification to the FCC Form 175.

The status of the FCC Form 175 will appear in the status column. The following values may be displayed during the resubmission period: A=Accepted, I=Incomplete, R=Rejected, U=Unknown. After the Upfront Payments have been applied, then the following values will be displayed: N=Non-Qualified, Q=Qualified.

The Upfront Payment received for an applicant will appear in the upfront payment column after the upfront payments have been processed.

To review the applicants' FCC Form 175, select the applicant by clicking on the specific applicant line.

Click on Ok. The next screen to appear will be the profile Screen.

To print a copy of the FCC Form 175 for that applicant, press the Print button on any of the screens (i.e., Profile, Licenses, Required Certifications, Ownership Documentation, Ownership Worksheet, Waiver, Instructions).

The ability to download either selected records or all records may be limited to specified timeframes established by the FCC.

If you wish to download only specific records then click on the box labeled "Select records for download", click on each applicant line you desire, and then click on the Download button. If you wish to reset this option, then click again on the "Select records for download" box.

If you wish to download all records, then click on the box labeled "Download all records" and then click on the Download button. If you wish to reset this option, click again on the "Download all records box".

Click on the Cancel button to exit the Available Applicants screen.

#### **Profile Screen**

**Please Note:** After reviewing the Profile information, you will need to click on each tab at the top of the screen to navigate through the entire FCC Form 175.

The Profile Screen will display the general FCC Form 175 information. The filing phase appears in the lower left corner of the screen.

Click on the licenses tab (at the top of the screen) to review the licenses that were selected.

#### **Licenses Screen**

The Licenses Screen provides a listing of the licenses that were selected.

If the FCC Form 175 contained invalid market or frequency block information, then "Invalid License Data was selected" will appear below the "Selected Licenses" box.

Click on the Required Certifications tab (at the top of the screen) to review the certification requirements.

#### **Required Certifications Screen**

This screen provides the certification requirements for filing the FCC Form 175. These certifications help to ensure a fair and competitive auction and require, among other things, disclosure to the Commission of certain information on applicant ownership and agreements or arrangements concerning the auction.

Submission of a false certification to the Commission may result in penalties,

including monetary forfeitures, license forfeitures, and ineligibility to participate in future auctions, and/or criminal prosecution.

Click on the Ownership Documentation tab (at the top of the screen) to review the free-form ownership information.

#### **Ownership Documentation Screen**

The Ownership Documentation Screen provides the ownership information for review.

Click on the exhibit you wish to view. You may view only one exhibit at a time, however, you may view all exhibits if you wish to do so. Click on the "View" button to review the free-form ownership information.

Click on the Ownership Worksheet tab to review the formatted ownership information.

#### **Ownership Worksheet Screen**

The Ownership Worksheet Screen provides the formatted ownership information for review.

Click on the Waiver tab (at the top of the screen) to review the free-form waiver request.

#### **Waiver Screen**

The Waiver Screen provides the free-form waiver request for review.

Click on the Instructions tab (at the top of the screen) to review the instructions for filing the FCC Form 175.

#### **Instructions Screen**

This screen provides the instructions for filing the FCC Form 175.

Click on the Print button to print the FCC Form 175.

Click on the Cancel button to exit the FCC Form 175 screen.
