

Applications and Amendments to Operating Licenses Involving No Significant Hazards Consideration; Correction to Biweekly Notice

On June 21, 1995, the **Federal Register** published the Biweekly Notice of Applications and Amendments to Operating Licenses Involving No Significant Hazards Consideration. On page 32374, Column 1, the third paragraph should read as follows:

The second proposed change which is applicable to all MODES of operation, allows 48 hours to restore diesel generator fuel oil inventory to the seven-day level as long as the inventory does not fall below the six-day level. The probability of a LOOP during this period is low. The 6-day fuel oil supply is calculated with adequate margin similar to the calculation of 7-day fuel oil inventory. In spite of the potential that there may be slightly less fuel available in inventory at the time of an event, actions would have been initiated to obtain replenishment within this brief period. Based on this and the low probability of an event during this brief period, it is considered that this change request does not involve a significant reduction in a margin of safety.

[Docket No. 50-458]

Energy Operations, Inc.; Notice of Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (Commission) has issued Amendment No. 81 to Facility Operating License No. NPF-47 issued to Entergy Operations, Inc. (the licensee), which revised the Technical Specifications for operation of the River Bend Station, Unit 1, located in West Feliciana Parish, Louisiana. The amendment is effective as of the date of issuance.

The amendment modified the technical specifications by replacing the existing technical specifications in their entirety with a new set of technical specifications based on NUREG-1434, "Improving BWR-6 Technical Specifications," dated September 1992. This amendment was based on the licensee's submittal of November 30, 1993, as supplemented by letters dated

January 18, June 6, June 30, and July 14, 1995.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment.

Notice of Consideration of Issuance of Amendment and Opportunity for Hearing in connection with this action was published in the **Federal Register** on April 21, 1994 (59 FR 19030). No request for a hearing or petition for leave to intervene was filed following this notice.

The Commission has prepared an Environmental Assessment related to the action and has determined not to prepare an environmental impact statement. Based upon the environmental assessment, the Commission has concluded that the issuance of this amendment will not have a significant effect on the quality of the human environment (60 FR 29867, dated June 6, 1995).

For further details with respect to the action see (1) The application for amendment dated November 30, 1993, and supplemented by letters dated January 18, June 6, June 30, and July 14, 1995, (2) Amendment No. 81 to License No. NPF-47, (3) the Commission's related Safety Evaluation, and (4) the Commission's Environmental Assessment. All of these items are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street NW., Washington, DC 20555, and at the local public document room located at the Government Documents Department, Louisiana State University, Baton Rouge, LA 70803.

Dated at Rockville, Maryland, this 20th day of July 1995.

Rule 17Ad-7—File No. 270-152

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission has submitted for extension of OMB approval the following rules under the Securities Exchange Act of 1934:

Rule 15a-4 permits a natural person member of a securities exchange who terminates its association with a registered broker-dealer to continue to do business on the exchange while the Commission reviews his application for registration as a broker-dealer, if the exchange files a statement indicating that there does not appear to be any ground for disapproving the application. The total annual burden is 400 hours, based on approximately 50 submissions, each requiring 8 hours to complete.

Rule 15b6-1 provides that a notice of withdrawal from registration as a broker-dealer is to be filed on Form BDW. Approximately 850 respondents file 1 response per year, with each response requiring approximately half an hour, resulting in a total average annual burden of 425 hours.

Rule 15Bc3-1 and Form MSDW provide that a notice of withdrawal from registration as a bank municipal securities dealer is to be filed on Form MSDW. Approximately 20 respondents file 1 response each per year, with each response requiring approximately half an hour, resulting in a total average annual burden of 10 hours.

Rule 17a-1 requires that all national securities exchanges, national securities associations, registered clearing agencies, and the Municipal Securities Rulemaking Board keep on file for a period of five years, two years in an accessible place, all documents which it makes or receives respecting its self-regulatory activities, and that such documents be made available for examination by the Commission. The average number of hours necessary for compliance with the requirements of

Rule 17a-1 is 50 hours per year. There are 25 entities required to comply with the rule: 8 national securities exchanges, 1 national securities association, 15 registered clearing agencies, and the Municipal Securities Rulemaking Board. The total number of hours required for all respondents to comply with the rule is thus 1,250 hours annually.

Rule 17a-2 requires the manager of an underwriting syndicate to retain, in a separate file, certain information relating to stabilizing purchases of a security being distributed. The rule enables the Commission to monitor compliance with Rule 10b-6 and 10b-7. Approximately 500 recordkeepers will spend 1 hour per year complying with the rule, for a total average annual burden of 500 hours.

Rule 17a-3 requires that certain records be made by exchange members, brokers, and dealers. There are approximately 6,000 exchange members, brokers, and dealers subject to the rule. Each spends an average of 1 hour per day, or 249 hours per year, complying with the rule. Therefore, the total average annual burden is $6,000 \times 249$ hours, or 1,494,000 hours.

Rule 17a-7 requires foreign broker-dealers registered with the Commission to retain copies of their books and records in the United States or file an undertaking agreeing to make them available upon request. It is estimated that the three foreign broker-dealers registered with the Commission will spend an average of one hour per year complying with the rule, for an annual average total burden of three hours per year.

Rule 17f-1(g) requires reporting institutions to retain all documents that are necessary for purposes of monitoring compliance with the registration, reporting, and inquiry requirements of the rule. It is estimated that there are 24,518 respondents and, on average, each respondent would need to retain 33 records annually, with each retention requiring approximately 1 minute (33 minutes or .55 hours). The total estimated annual burden is thus 13,484.9 hours.

Rule 17Ad-6 is needed to (1) assure that registered transfer agents are maintaining minimum records to monitor and control adequately their performance; and (2) to permit the appropriate regulatory agencies ("ARAs") to examine those transfer agents for compliance with the Commission's rules. It is estimated that approximately 480 hours per year are used to make and keep current these records. The total burden on the estimated 1576 respondents is thus 756,480 hours per year.

Rule 17Ad-7 requires entities to retain information to (1) assure that registered transfer agents are maintaining records to monitor and control adequately their performance and (2) to permit ARAs to examine those transfer agents for compliance with the Commission's rules. It is estimated that approximately 2.2 hours per week are used to retain these records, or 114 hours per year. The total burden on the estimated 1576 respondents is thus 179,664 hours per year.

Direct general comments to the Clearance Officer for the Securities and Exchange Commission at the address below. Direct any comments concerning the accuracy of the estimated average burden hours for compliance with the Commission rules and forms to Michael E. Bartell, Associate Executive Director, Office of Information Technology, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549 and the Clearance Officer for the Securities and Exchange Commission, Office of Management and Budget, Room 3208, New Executive Office Building, Washington, DC 20503.

Applicant's Representations

1. Applicant is a diversified open-end management investment company organized as a trust under New York law. On November 5, 1990, applicant registered under section 8(a) of the Act on Form N-8A, and filed a registration statement on Form N-1A under section 8(b) of the Act. Applicant did not register its securities under the Securities Act of 1933 and did not make any public offerings of its securities. While in operation, applicant issued beneficial interests only to other investment companies. Applicant formerly was named the Short Duration Government Portfolio.

2. On August 2, 1993, 99.99% of applicant's total interests was held by Hyperion Institutional Short Duration Government Fund ("Hyperion"). A \$100 interest in applicant was held by applicant's investment adviser, Hyperion Capital Management, Inc. (the "Adviser"), as organizational seed money. Hyperion is a series of Hyperion Government Mortgage Trust, a diversified, open-end registered investment company organized as a Massachusetts business trust. Hyperion invested in applicant through a two-tier, master-feeder fund structure.

3. On August 3, 1993, Hyperion redeemed for cash its interest in applicant at net asset value. At a meeting held on October 5, 1993, applicant's board of trustees determined that it would terminate applicant and deregister under the Act. The trustees based their decision on the fact that Hyperion withdrew its interest in
