Notice of Intent To Amend Plan

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Intent to Prepare a Proposed Plan Amendment to the Virgin River Management Framework Plan (MFP).

SUMMARY: This notice is to advise the public that the Bureau of Land Management proposes to amend the Virgin River MFP to allow for land tenure adjustments not previously identified in the MFP.

DATES: The comment period for issues and criteria associated with the proposed plan amendment will commence with publication of this notice. Comments are due within 30 days from the date of publication of this notice.

FOR FURTHER INFORMATION CONTACT: Jim Crisp, Area Manager, Dixie Resource Area, 345 E. Riverside Drive, St. George, Utah 84770, 801-674-4654.

SUPPLEMENTARY INFORMATION: The purpose of the Proposed Plan Amendment is to add additional land exchange criteria under which lands could be disposed of, or acquired through the exchange process, if certain goals or objectives are met. Specifically, the land exchange criteria to be addressed are as follows: (1) Land tenure adjustments would be considered where such adjustments are in the public interest and accommodate the needs of local and State people, including needs for the economy, and community growth and expansion and are in accordance with other land exchange goals and objectives; (2) The land tenure adjustment results in a net gain of important and manageable resource values on public land such as crucial wildlife habitat, significant cultural sites, high quality riparian areas, live water, Threatened & Endangered species habitat, or areas key to the maintenance of productive ecosystems; (3) The land tenure adjustment ensures the accessibility of public lands in areas where access is needed and cannot otherwise be obtained; (4) The land tenure adjustment is essential to allow effective management of public lands in areas where consolidation of ownership is

necessary to meet resource management objectives; (5) The land tenure adjustment results in acquisition of lands which serve a national priority as identified in national policy directives. Issues to be addressed in this proposed amendment/Environmental Assessment (EA) include the impacts of disposal or acquisition of lands to the local communities, social and economic values and impacts on natural resources. This amendment will also examine the impacts to the existing land use plan. The present land use plan for the majority of the Dixie Resource Area is the Virgin River MFP approved in 1981. This land use plan is being revised and updated through preparation of a newer and more comprehensive Dixie Resource Management Plan but the completion date is still uncertain at this time. The planning amendment now being initiated will amend either the Virgin River MFP or the Dixie RAMP, whichever is the current document at the time.

Mat Millenbach,

State Director.
