#### Legends Manufacturing, Inc., A/K/A Linden Dress, Throop, Pennsylvania; Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 USC 2273) the Department of Labor issued a Notice of Certification Regarding Eligibility to Apply for Worker Adjustment Assistance on June 14, 1995, applicable to all workers of Legends Manufacturing, Incorporated, Throop, Pennsylvania. The notice was published in the **Federal Register** on June 27, 1995 (60 FR 33235).

New information received from the State Agency show that some of the workers at Legends Manufacturing, Incorporated had their unemployment

insurance (UI) taxes paid to Linden Dress.

Accordingly, the Department is amending the certification to properly reflect this matter.

The intent of the Department's certification is to include all workers of Legends Manufacturing, Incorporated who were adversely affected by increased imports.

The amended notice applicable to TA-W-31,024 is hereby issued as follows:

"All workers of Legends Manufacturing, Incorporated, a/k/a Linden Dress, Throop, Pennsylvania who became totally or partially separated from employment on or after April 20, 1994 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974."

#### General Electric Co., Rome, Georgia; Notice of Revised Determination on Reopening

On July 5, 1995, the Department, at the request of the petitioners, reopened its investigation for workers producing medium transformers at the subject facility. The initial investigation resulted in a negative determination. The notice was published in the **Federal Register** on May 25, 1995 (60 FR 27794).

The Department had issued a negative determination in the subject case because criteria (3) and (4) of the group eligibility requirements in paragraph (a)(1) of Section 250 of the Trade Act of 1974, as amended, were not met. Imports of medium transformers from Mexico or Canada did not contribute importantly to worker separations at the General Electric Company, Rome, Georgia facility, and there was no shift in production to Mexico or Canada.

The petitioners had alleged a shift in production by the subject firm to Mexico. An intent to outsource some production had been announced, but a final decision had not yet been made. New findings on reopening show that on June 12, 1995, General Electric Company ratified an agreement to shift some production of transformers to Mexico.

Other findings show that sales, production and employment decreased

during the relevant time periods of the investigation.

**Conclusion**

After careful consideration of the new facts obtained on reopening, it is concluded that increased imports of articles like or directly competitive with medium transformers produced by the subject firm contributed importantly to the decline in production and to the total or partial separation of workers at the subject firm. In accordance with the provisions of the Trade Act of 1974, I make the following revised determination:

“All workers of General Electric Company, Rome, Georgia who became totally or partially separated from employment on or after March 30, 1994 are eligible to apply for NAFTA-TAA Section 250 of the Trade Act of 1974.”

Signed at Washington, D.C. this 13th day of July 1995.
