Approval and Promulgation of Air Quality Implementation Plans; Tennessee; Basic Motor Vehicle Inspection and Maintenance Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The EPA proposes to approve three state implementation plan (SIP) revisions submitted on March 17, July 8 and July 13, 1994, by the State of Tennessee, through the Tennessee Air Pollution Control Division. These revisions modify an existing basic vehicle inspection and maintenance (I/M) program in Davidson County as well as establishing and implementing a similar program in the four middle Tennessee counties of Rutherford, Sumner, Williamson, and Wilson. In the final rules section of this **Federal Register**, the EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision amendment and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this proposed rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this document. Any parties

interested in commenting on this document should do so at this time.

DATES: To be considered, comments must be received by August 28, 1995.
