Approval and Promulgation of Air Quality Implementation Plans; Delaware: "Bulk Gasoline Marine Tank Vessel Loading Facilities"

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the State of Delaware on August 26, 1994 for the purpose of establishing and requiring the control of volatile organic compound (VOC) emissions from marine vessel transfer operations. The revision pertains to Regulation 24, "Control of VOC Emissions", by renumbering existing Section 43, "Other Facilities that Emit VOCs", to Section 50, and adding a new Section 43, "Bulk Gasoline Marine Tank Vessel Loading Facilities". In the Final Rules section of this **Federal Register**, EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial SIP revision and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time.

DATES: Comments must be submitted in writing by August 28, 1995.

ADDRESSES: Comments may be mailed to Marcia L. Spink, Associate Director, Air Programs, Mailcode 3AT00, U.S. Environmental Protection Agency, Region III, 841 Chestnut Building, Philadelphia, Pennsylvania 19107.
