#### Designation of Area for Air Quality Planning Purposes; Utah; Designation of Ogden City PM<sub>10</sub> Nonattainment Area

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** In this document, EPA is proposing to revise the PM<sub>10</sub> (particles with an aerodynamic diameter less than or equal to a nominal 10 micrometers) National Ambient Air Quality Standards (NAAQS) designation for a portion of Weber County, Utah. Previously, consistent with section 107(d)(3)(A) of the Act, EPA notified the Governor of Utah that Weber County, Utah should be redesignated from unclassifiable to nonattainment for PM<sub>10</sub>. The redesignation is based upon violations of the PM<sub>10</sub> NAAQS which were monitored between January 1991 and January 1993.

In the final rules section of this **Federal Register**, EPA is revising the designation of a portion of Weber County, Utah as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision amendment and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are

received in response to this proposed rule, no further activity is contemplated in relation to this rule. If EPA receives adverse comments, the direct final will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time.

**DATES:** Comments on this proposed rule must be received in writing by August 28, 1995.

**ADDRESSES:** All written comments should be addressed to: Douglas M. Skie, Chief, Air Programs Branch, EPA Region VIII, at the address listed below. #### Trifluralin; Revocation of Food Additive Tolerances

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** EPA is proposing to revoke tolerances for residues of the herbicide trifluralin in or on peppermint oil and spearmint oil, and to withdraw a prior final rule revoking those tolerances. EPA is taking this action because peppermint oil and spearmint oil are not ready-to-eat commodities, and residues of trifluralin are not likely to concentrate in ready-to-eat forms of peppermint and spearmint oil. Therefore, food additive tolerances are not required. In addition, after the

tolerances are revoked pursuant to this action, the basis for the prior revocation will be eliminated.
