#### Superfund Program; Revised Model CERCLA RD/RA Consent Decree

**AGENCY:** Environmental Protection Agency.

**ACTION:** Notice.

**SUMMARY:** The Agency is today publishing a revised version of the Model CERCLA RD/RA Consent Decree. The revised Model, which will supersede the 1991 interim Model, has been jointly modified by EPA and the Department of Justice on the basis of experience to date. The principal impetus behind the important substantive changes contained in the revised Model has been a desire to enhance the fairness and increase the number of settlements in which potentially responsible parties agree to implement government-selected remedies at Superfund sites. By publishing the revised Model EPA seeks to broadly inform affected members of the public of changes in the federal government's policy with respect to settlements for the performance of remedial design/remedial action (RD/RA).

**FOR FURTHER INFORMATION CONTACT:** Steve Botts, Mail Code 2272, Office of Enforcement and Compliance Assurance, U.S. Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460, (202) 260-5787.

**Steven A. Herman,**

*Assistant Administrator, Office of Enforcement and Compliance Assurance.*

#### Memorandum

Subject: Final Revised Model CERCLA RD/RA Consent Decree From:

Steven A. Herman, Assistant Administrator for Enforcement, and Compliance Assurance  
Lois Schiffer, Assistant Attorney General for Environment and Natural Resources, U.S. Department of Justice

To: Regional Administrators, Regions I-X

Attached is the final version of the revised Model CERCLA RD/RA Consent Decree. This document supplants the Interim Model CERCLA RD/RA Consent Decree published in the July 8, 1991 **Federal Register** (56 FR 30996).

#### Summary

The Model has been successful in achieving, as one of its main goals, a reduction in the amount of time spent on drafting and negotiating individual consent decrees, allowing settlements to be reached more quickly and with fewer transaction costs. The Model also has been effective in ensuring that consent decrees for remedial design/remedial action protect the interests of the public and assure the accomplishment of the important cleanup objectives of the Superfund program.

However, there have been persistent complaints from potentially responsible
