

B. Publishing command and mailing address.

C. Printing arrangement:

1. Government equipment.

2. Government contract with commercial printer.

3. CE contract with commercial publisher (give name, mailing address, and phone number of commercial publisher).

D. Automation capabilities (desktop publishing, computer bulletin board, etc.)

E. Frequency and number of issues per year.

F. Number of copies printed and estimated readership.

G. Paper size (metro, tabloid, or magazine/newsletter) and average number of pages per issue.

H. Size of newspaper staff, listed as full time, part time, and contractor-provided.

Appendix F to Part 247—Deputy Secretary of Defense Policy Memorandum

The Deputy Secretary of Defense

Washington, D.C. 20301

December 9, 1994.

Memorandum for Secretaries of the Military Departments, Chairman of the Joint Chiefs of Staff, Under Secretaries of Defense Director, Defense Research and Engineering, Assistant Secretaries of Defense, General Counsel of the Department of Defense, Inspector General of the Department of Defense, Director, Operational Test and Evaluation, Assistants to the Secretary of Defense, Director, Administration and Management, Directors of the Defense Agencies, Directors of DOD Field Activities

Subject: Alteration of Official Photographic and Video Imagery

Photographic and video imagery has become an essential tool of decision makers at every level of command and in every theater of military operations. Mission success and ultimately the lives of our men and women in uniform depend on this imagery being complete, timely, and, above all, highly accurate. Anything that weakens or casts doubt on the credibility of this imagery within or outside the Department of Defense will not be tolerated.

The emergence of digital technology has significantly increased the capability of altering photographic and video imagery. This capability represents a potential threat to the credibility of Defense imagery. Since current Federal Regulations and DoD Directives do not specifically address the deliberate alteration of official photographic records, I believe guidance is required. I am providing this guidance by establishing the following as Department of Defense policy on the alteration of official photographic and video imagery:

a. The alteration of official Defense imagery by persons acting for or on behalf of the Department of Defense is prohibited except as outlined below:

(1) Photographic techniques common to traditional darkrooms and digital imaging stations such as dodging, burning, color balancing, spotting, and contrast adjustment that are used to achieve the accurate

recording of an event or object are not considered alterations.

(2) Photographic and video image enhancement, exploitation, and simulation techniques used in support of unique cartography, geodesy, intelligence, medical, RDT&E, scientific, and training requirements are authorized if they do not misrepresent the subject to the original image.

(3) The obvious masking of portions of a photographic image in support of specific security or criminal investigation requirements is authorized.

(4) The use of cropping, editing, or enlargement to selectively isolate, link, or display a portion of a photographic or video image is not considered alteration. However, cropping, editing, or image enlargement which has the effect of misrepresenting the facts or circumstances of the event or object as originally recorded constitutes a prohibited alteration.

(5) The digital conversion and compression of photographic and video imagery are authorized.

(6) Photographic and video post-production enhancement, including animation, digital simulation, graphics, and special effects, used for dramatic or narrative effect in education, recruiting, safety and training illustrations, publications, or productions is authorized under either of the following conditions:

(a) the enhancement does not misrepresent the subject of the original image, or;

(b) it is clearly and readily apparent from the context or from the content of the image or accompanying text that the enhanced image is not intended to be an accurate representation of any actual event.

b. Official Defense imagery includes all photographic and video images, regardless of the medium in which they are acquired, stored, or displayed, that are recorded or produced by persons acting for or on behalf of Department of Defense activities, functions, or missions.

My intent with the above policy is to ensure the absolute credibility of official DoD photographic and video imagery within and outside the Department of Defense.

This memorandum is effective immediately. A DoD Directive incorporating the substance of this memorandum shall be issued within 90 days.

Dated: July 21, 1995.

John Deutsch.

L.M. Bynum,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Public Health Service

42 CFR Part 57

RIN 0905-AE17

Grants for the Establishment of Departments of Family Medicine

AGENCY: Health Resources and Services Administration, HHS.

ACTION: Correction to final rule.

SUMMARY: This document contains a correction to a final rule that revised the existing regulations governing the Grants for the Establishment of Departments of Family Medicine program published in the **Federal Register** on May 30, 1995 (60 FR 28065). **EFFECTIVE DATE:** July 31, 1995.

FOR FURTHER INFORMATION CONTACT: Ms. Betty B. Hambleton at (301) 443-1590.

SUPPLEMENTARY INFORMATION:

Need for Correction

As published on May 30, 1995, the preamble discussion for § 57.1709 on page 28066, third column, indicated in paragraph (b) that the Department was removing "the parenthetical phrase at the end of the section text citing the OMB approval number regarding information collection requirements as no longer necessary". The parenthetical phrase to be removed read "(Approved by the Office of Management and Budget under control number 0915-0060)". When the final rule was published, the parenthetical phrase was not removed in the regulatory text on page 28067. This notice is correcting that editorial mistake.

Correction of Publication

Accordingly, the publication on May 30, 1995 of the final regulations, which were the subject of FR Doc. 95-13130, is corrected as follows:

§ 57.1709 [Corrected]

Item 6. On page 28067, in the third column, § 57.1709 is corrected to read as follows:

§ 57.1709 What other audit and inspection requirements apply to grantees?

Each entity which receives a grant under this subpart must meet the requirements of 45 CFR part 74 concerning audit and inspection.

Dated: July 20, 1995.

Neil Stillman,

Deputy Assistant Secretary for Information Resources Management.
