Advisory Committee for Energy-Related Epidemiologic Research; Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), the Centers for Disease Control and Prevention (CDC) announces the following committee meeting.

Name: Advisory Committee for Energy-Related Epidemiologic Research.

Times and Dates: 9 a.m.-5 p.m., August 23, 1995, 9 a.m.-12 noon, August 24, 1995.

Place: Sheraton Suites Hotel, 801 North Saint Asaph Street, Alexandria, Virginia 22314.

Status: Open to the public, limited only by the space available. The meeting room accommodates approximately 50 people.

Purpose: This committee is charged with providing advice and recommendations to the Secretary of Health and Human Services (HHS); the Assistant Secretary for Health; the Director, CDC; and the Administrator, Agency for Toxic Substances and Disease Registry, on the establishment of a research agenda and the conduct of a research program pertaining to energy-related analytic epidemiologic studies. The Committee will take into consideration information and proposals provided by the Department of Energy (DOE), the Advisory Committee for Environment Safety and Health which was established by DOE under the guidelines of a Memorandum of Understanding between HHS and DOE, and other agencies and organizations, regarding the direction HHS should take in establishing the research agenda and in the development of a research plan.

Matters To Be Discussed: The Committee will meet to discuss working group recommendations, environmental data and research methods, the research agenda, and public involvement activities. Presentations will be made by DOE on the Conference on Epidemiologic Data Resources and occupational surveillance plans and progress.

Agenda items are subject to change as priorities dictate.

Contact Person for More Information: Nadine Dickerson, Program Analyst, Radiation Studies Branch, Division of Environmental Hazards and Health Effects, National Center for Environmental Health, CDC, 4770 Buford Highway, NE, Mailstop F-35, Atlanta, Georgia 30341-3724, telephone 404/488-7040.

Dated: July 25, 1995.

Carolyn J. Russell,

Director, Management Analysis and Services Office, Centers for Disease Control and Prevention (CDC).

Workshop to Review the Evidence for an Association Between Exposure to Stachybotrys Arta and Diseases Among Infants

The National Center for Environmental Health (NCEH) of the Centers for Disease Control and Prevention (CDC) announces the following meeting.

Name: Workshop to Review the Evidence for an Association Between Exposure to Stachybotrys Atra and Diseases Among Infants.

Time and Date: 9 a.m.-4:30 p.m., August 25, 1995.

Place: CDC, 4770 Buford Highway, NE, Building 101, Room 1301, Chamblee, Georgia 30341-3724, telephone 404/488-7322.

Status: Open to the public, limited only by the space available. The room will accommodate approximately 50 people.

Purpose: In November 1994, CDC responded to a request from the Ohio Department of Health to assist in the investigation of a cluster of cases of pulmonary hemosiderosis among infants in Cleveland. In December 1994, CDC was asked to respond to a request from the Illinois Department of Health to investigate a similar cluster in Chicago. Preliminary data from both investigations are now available. This workshop is being held to solicit individual advice and recommendations from scientists and representatives of other Federal agencies, State and local governments, academia, and the public, regarding additional epidemiologic research needs in studying the association between exposure to Stachybotrys atra and diseases among infants. The results of the workshop will be used to aid in the development of a proposed research agenda.

Matters To Be Discussed: Topics will include the presentation of preliminary results from the epidemiologic investigations from the Cleveland area in November-December 1994 and the Chicago area in December 1994-January 1995, followed by open discussions of data and suggestions for additional analyses.

Agenda items are subject to change as priorities dictate.

Contact Person for More Information: James Rifenburg, Public Health Advisor, Air Pollution and Respiratory Health Branch, Division of Environmental Hazards and Health Effects, NCEH, CDC, 4770 Buford Highway, NE, Mailstop F-39, Chamblee, Georgia 30341-3724, telephone 404/488-7322, FAX 404/488-7335.

Dated: July 25, 1995.

Public Health Response to Nasopharyngeal Radium Irradiation Workshop

Yale University School of Medicine, the National Center for Environmental Health (NCEH) of the Centers for Disease Control and Prevention (CDC), the Department of Veterans Affairs, and the Connecticut Department of Health announce the following meeting.

Name: The Public Health Response to Nasopharyngeal Radium Irradiation Workshop.

Times and Dates: 8:30 a.m.-5:15 p.m., September 27, 1995, 8:30 a.m.-12:45 p.m., September 28, 1995.

Place: Quality Inn (Conference Center), 100 Pond Lily Avenue, New Haven, Connecticut 06525, telephone 203/387-6651.

Status: Open to the public, limited only by the space available. The meeting room accommodates approximately 250 people.

Purpose: The purpose of this workshop is to review information on the medical use of nasopharyngeal radium irradiation, a medical treatment used from approximately 1940 to 1960, to evaluate current knowledge of risks of potential adverse health effects, and determine what, if any, public health assessments are needed for persons and populations who received nasopharyngeal radium irradiation.

Agenda items are subject to change as priorities dictate.

Contact Persons for More Information: Jan Stolwijk, Ph.D., Department of Epidemiology and Public Health, Yale University School of Medicine, 60 College Street, PO Box 208034, New Haven, Connecticut 06520-8034, telephone 203/785-2880, FAX 203/785-6980, or Anne Mellinger, M.D., Radiation Studies Branch, Division of Environmental Hazards and Health Effects, NCEH, CDC, 4770 Buford Highway, NE, M/S F-35, Atlanta, Georgia 30341-3724, telephone 404/488-7040, FAX 404/488-7044, e-mail: akm0@cehdeh1.em.cdc.gov.

Dated: July 25, 1995.
