[Airspace Docket No. 95-ANM-11]

Amendment of Class E Airspace; Salt Lake City, Utah

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action amends the Salt Lake City, Utah, Class E airspace. This action is necessary to accommodate a new instrument approach procedure at Salt Lake City International Airport, Salt Lake City, Utah.

EFFECTIVE DATE: 0901 UTC, November 9, 1995.

FOR FURTHER INFORMATION CONTACT: James Riley, System Management Branch, ANM-530, Federal Aviation Administration, Docket No. 95-ANM-11, 1601 Lind Avenue S.W., Renton, Washington, 98055-4056; telephone number: (206) 227-2537.

SUPPLEMENTARY INFORMATION:

History

On May 9, 1995, the FAA proposed to amend part 71 of Federal Aviation Regulations (14 CFR part 71) to amend the Salt Lake City, Utah, Class E airspace area (60 FR 24595). This action is necessary to accommodate a new instrument approach procedure at Salt Lake City International Airport, Salt Lake City, Utah. The area will be depicted on aeronautical charts for pilot reference.

Interested parties were invited to participate in the rulemaking proceeding by submitting written comments on the proposal. No comments were received. The coordinates for this airspace docket are based on North American Datum 83. Class E airspace areas extended upward from 700 feet or more above the surface of the earth are published in Paragraph 6005 of FAA Order 7400.9B dated July 18, 1994, and effective September 16, 1994, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The Rule

This amendment to part 71 of Federal Aviation Regulations amends Class E airspace at Salt Lake City, Utah. The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulation action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

50 CFR Part 204

[Docket No. 950203036-5180-02; I.D. 070695A]

NOAA Information Collection Requirements; Update and Consolidation

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule; technical amendment.

SUMMARY: NMFS consolidates and updates Office of Management and Budget (OMB) control numbers for NOAA information collection requirements and makes minor corrections to the accompanying text. The intent is to update, simplify, and shorten the regulations, while still making this information available to the public.

EFFECTIVE DATE: August 2, 1995.

FOR FURTHER INFORMATION CONTACT: George H. Darcy, NMFS, 301/713-2344.

SUPPLEMENTARY INFORMATION: Part 902 of title 15 CFR and part 204 of title 50 CFR display control numbers assigned to NOAA and NMFS information collection requirements, respectively, by OMB, pursuant to the Paperwork Reduction Act. These parts fulfill the requirement that agencies display a current control number, assigned by the Director of OMB, for each agency information collection requirement.

This final rule, technical amendment, consolidates the list of OMB control numbers associated with NOAA information collection requirements contained in regulations appearing in CFR titles 15 and 50. Because NMFS is a component of NOAA, these parts logically can be combined to shorten the regulations and to ease use by the public. All of the collection-of-information requirements consolidated in 15 CFR 902.1(b) have previously been submitted to OMB for approval during

implementation of regulations appearing in the individual parts of titles 15 and 50; this final rule does not involve any new reporting or recordkeeping requirements. In addition, the list of OMB approval numbers is corrected and updated to reflect the currently valid OMB approvals, and the text of § 902.1(a) is updated to reflect the Paperwork Reduction Act of 1995.

Under NOAA Administrative Order 205-11, 7.01, dated December 17, 1990, the Under Secretary for Oceans and Atmosphere has delegated authority to sign material for publication in the **Federal Register** to the Assistant Administrator for Fisheries, NOAA.

Classification

Because this rule only consolidates existing information for purposes of public information, it is strictly administrative in nature; no useful purpose would be served by providing prior notice and opportunity for comment on this rule. Accordingly, under 5 U.S.C. 553(b)(B), it is unnecessary to provide such notice and opportunity for comment. Also, because this rule is only administrative in nature and is not a "substantive rule" under 5 U.S.C. 553(d), it will be immediately effective upon publication.

This rule is exempt from review under E.O. 12866.
