

information in support of material inspection, shipping, and receiving reports. It will be used to process inspections, receipt of materials, and payments to contractors.

Affected Public: Business or other for-profit; Not-for-profit Institutions.

Frequency: On occasion.

Respondent's Obligation: Required to obtain or retain benefits.

OMB Desk Officer: Mr. Peter N. Weiss. Written comments and recommendations on the proposed information collection should be sent to Mr. Weiss at the Office of Management and Budget, Desk Officer for DoD, Room 10236, New Executive Office Building, Washington, DC 20503.

DoD Clearance Officer: Mr. William Pearce.

Written requests for copies of the information collection proposal should be sent to Mr. Pearce, WHS/DIOR, 1215 Jefferson Davis Highway, Suite 1204, Arlington, VA 22202-4302.

Dated: July 28, 1995.

Patricia L. Toppings,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 5000-04-P

Public Information Collection Requirement Submitted to the Office of Management and Budget (OMB) for Review

ACTION: Notice.

The Department of Defense has submitted to OMB for clearance, the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Title: DoD FAR Supplement, Subpart 223.72, Safeguarding Sensitive Conventional Arms, Ammunition, and Explosives.

Type of Request: New collection.

Number of Respondents: 230.

Responses per Respondent: 1.

Annual Responses: 230.

Average Burden per Response: 15 minutes.

Annual Burden Hours: 58.

Needs and Uses: The information collected hereby, is required to notify the Federal Government of subcontracts involving arms, ammunition, and explosives. It will be used to monitor contractor compliance with the requirements of DoD 5100.76-M, "Physical Security of Sensitive Conventional Arms, Ammunition, and Explosives."

Affected Public: Business or other for-profit; Not-for-profit institutions.

Frequency: On occasion.

Respondent's Obligation: Required to obtain or retain benefits.

OMB Desk Officer: Mr. Peter N. Weiss.

Written comments and recommendations on the proposed information collection should be sent to Mr. Weiss at the Office of Management and Budget, Desk Officer for DoD, Room 10236, New Executive Office Building, Washington, DC 20503.

DoD Clearance Officer: Mr. William Pearce.

Written requests for copies of the information collection proposal should be sent to Mr. Pearce, WHS/DIOR, 1215 Jefferson Davis Highway, Suite 1204, Arlington, VA 22202-4302.

Dated: July 28, 1995.

Patricia L. Toppings,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 5000-04-P

DEPARTMENT OF DEFENSE

GENERAL SERVICES ADMINISTRATION

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[OMB Control No. 9000-0078]

Clearance Request for Make-or-Buy Program

AGENCIES: Department of Defense (DOD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

ACTION: Notice of request for an extension to an existing OMB clearance (9000-0078).

SUMMARY: Under the provisions of the Paperwork Reduction Act of 1980 (44 U.S.C. 3501), the Federal Acquisition Regulation (FAR) Secretariat has submitted to the Office of Management and Budget (OMB) a request to review and approve an extension of a currently approved information collection requirement concerning Make-or-Buy Program.

FOR FURTHER INFORMATION CONTACT: Beverly Fayson, Office of Federal Acquisition Policy, GSA (202) 501-4755.

SUPPLEMENTARY INFORMATION:

A. Purpose

Price, performance, and/or implementation of socio-economic policies may be affected by make-or-buy decisions under certain Government prime contracts. Accordingly, Subpart

15.7, Make-or-Buy Programs, of the FAR—

(i) Sets forth circumstances under which a Government contractor must submit for approval by the contracting officer a make-or-buy program, i.e., a written plan identifying major items to be produced or work efforts to be performed in the prime contractor's facilities and those to be subcontracted;

(ii) Provides guidance to contracting officers concerning the review and approval of the make-or-buy programs; and

(iii) Prescribes the contract clause at FAR 52.215-21, Changes or Additions to Make-or-Buy Programs, which specifies the circumstances under which the contractor is required to submit for the contracting officer's advance approval a notification and justification of any proposed change in the approved make-or-buy program.

The information is used to assure the lowest overall cost to the Government for required supplies and services.

B. Annual Reporting Burden

Public reporting burden for this collection of information is estimated to average 8 hours per termination, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to General Services Administration, FAR Secretariat, 18th & F Streets, NW, Room 4037, Washington, DC 20405.

The annual reporting burden is estimated as follows: Respondents, 200; responses per respondent, 3; total annual responses, 600; preparation hours per response, 8; and total response burden hours, 4,800.

Obtaining Copies of Proposals: Requester may obtain copies of OMB applications or justifications from the General Services Administration, FAR Secretariat (VRS), Room 4037, Washington, DC 20405, telephone (202) 501-4755. Please cite OMB Control No. 9000-0078, Make-or-Buy Program, in all correspondence.

Dated: July 24, 1995.

Beverly Fayson,

FAR Secretariat.

BILLING CODE 6820-EP-M

DEPARTMENT OF DEFENSE**Office of the Secretary****Defense Advisory Committee on Military Personnel Testing****ACTION:** Notice.

Pursuant to Public Law 92-463, notice is hereby given that a meeting of the Defense Advisory Committee on Military Personnel Testing is scheduled to be held from 8:30 a.m. to 4:30 p.m. on September 21, 1995 and from 8:30 a.m. to 4:30 p.m. on September 22, 1995. The meeting will be held at The Nonantum Inn, 95 Ocean Avenue, Kennebunkport, Maine 04046. The purpose of the meeting is to review planned changes and progress in developing paper-and-pencil and computerized enlistment tests, Department of Defense's Student Testing Program, and renorming of the tests. Persons desiring to make oral presentations or submit written statements for consideration at the Committee meeting must contact Dr. Jane M. Arabian, Assistant Director, Accession Policy, Office of the Assistant Secretary of Defense (Force Management Policy), Room 2B271, The Pentagon, Washington, DC 20301-4000, telephone (703) 697-9271, no later than September 1, 1995.

Dated: July 28, 1995.

Patricia L. Toppings,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 5000-04-M

Department of the Army**Corps of Engineers, Intent to Prepare a Supplemental Environmental Impact Statement (SEIS) for the Proposed Wyoming Valley Inflatable Dam in Luzerne County, Pennsylvania**

AGENCY: U.S. Army Corps of Engineers, DOD.

ACTION: Notice of intent.

SUMMARY: The Baltimore District U.S. Army Corps of Engineers is preparing a formulation/design report with an integrated Supplemental Environmental Impact Statement (SEIS) for the construction of an inflatable dam in the Wyoming Valley region of the Susquehanna River Basin. This study is being accomplished as part of the continuing project process. The National Environmental Policy Act (NEPA) document is intended to supplement previous NEPA work accomplished, a final EIS which was

done in September 1981 and a SEIS done in January 1995, for both the Phase I and Phase II General Design Memorandums (GDM). The dam is a component of the Wyoming Valley Levee Raising Project mitigation plan. The formulation/design study will review the recommended plans identified in the Wyoming Valley Inflatable Dam, Luzerne County, Pennsylvania Reconnaissance Report, dated April 1991, formulate additional plans as necessary, evaluate the associated impacts, and then provide a detailed analysis of the selected plan. The selected plan will be the alternative that fulfills Federal economic, engineering and environmental criteria and is preferred by both the Federal and non-Federal parties. The study was authorized under Section 102(w) of the Water Resources Development Act of 1992.

FOR FURTHER INFORMATION CONTACT:

Questions about the proposed action and SEIS can be addressed to Ms. Susan B. Hughes, Project Management, Baltimore District, U.S. Army Corps of Engineers, ATTN: CENAB-PP-C, P.O. Box 1715, Baltimore, Maryland 21203-1715.

SUPPLEMENTARY INFORMATION: 1. The study area is located in northeastern Pennsylvania. The proposed inflatable dam would be constructed in an area known as the Wyoming Valley in Luzerne County, which extends along the Susquehanna River from the Borough of Pittston southwest approximately 15 miles to Nanticoke City. The Wyoming Valley is heavily developed, primarily by urban residential, commercial, and industrial facilities. There are also several abandoned and active coal mining operations in the valley.

2. The study area was plagued with recurring floods from the Susquehanna River for many years until a series of Federally authorized flood protection measures were constructed in the 1930's, 1940's and 1950's. The existing flood damage reduction system is composed of four projects, which are located in the Boroughs of Kingston and Edwardsville; the Boroughs of Swoyersville and Forty Fort; the Borough of Plymouth; and the Township of Hanover and the City of Wilkes-Barre.

3. In June 1972, Tropical Storm Agnes, the largest flood of record, overtopped the existing flood protection system by four to five feet. In December of 1972, the Baltimore District completed a document titled "Wyoming Valley Flood Control, Susquehanna River, Pennsylvania" which

recommended that the existing flood protection system be modified to protect against an Agnes-level flood. In 1981, a more detailed Phase I General Design Memorandum (GDM)/Feasibility Report and Final Environmental Impact Statement (FEIS) were completed which recommended that the existing flood protection system be raised to protect against an Agnes-level flood. Section 401(a) of the Water Resources Development Act of 1986 (Public Law 99-662) authorized the construction of the project recommended in the 1981 Phase I GDM.

4. Section 102(w) of the Water Resources Development Act of 1992 (Public Law 102-580) modified the previous authorization as follows: "to direct the Secretary to complete the final phase II design memorandum for the project (including the results of a review of nonstructural mitigation plans for the purpose of ameliorating damages from induced flooding)". As such, the inflatable dam is being considered as a form of mitigation for the Wyoming Valley Levee Raising project.

5. The Phase II GDM for the Wyoming Valley Levee Raising project, which was made available for public review in November 1994, included the inflatable dam as a measure to mitigate against adverse intangible social and economic impacts of the improved levee system. A SEIS was completed for the Phase II GDM. The proposed mitigation plan was addressed within the GDM/SEIS. However, detailed investigations of the proposed inflatable dam were not.

6. The SEIS currently being prepared will build upon the previous environmental impact statements and address cumulative impacts related to the entire project. A range of alternatives will be analyzed and discussed. The formulation/design report will review the reconnaissance report and use it as the foundation for its analysis. Based on the reconnaissance report, preliminary formulation indicates that the dam would be located 220 feet upstream of the abandoned Delaware and Hudson railroad bridge crossing the Susquehanna River. The dam would consist of four inflatable rubber segments anchored to reinforce concrete piers, abutments and sill, spanning a total length of 850 feet across the Susquehanna River. Dam heights between 6.5 feet, 8 feet, and 10 feet will be investigated. The boating pool created by the 6.5-foot dam would extend approximately 4.4 miles upstream to Forty Fort and would provide about 365 acres of boating area (total surface area=410 acres). The deepest portion of the lake would be
