FEDERAL COMMUNICATIONS COMMISSION

FY 1995 Commercial Wireless Regulatory Fees

August 1, 1995.

The Federal Communications Commission issues this Public Notice in

order to provide information concerning the payment of regulatory fees in 1995. If you hold authorizations in any of the commercial wireless services you should carefully review this Public Notice.

Who Must Pay Regulatory Fees in 1995

Most licensees and other entities regulated by the Commission must pay regulatory fees in 1995. This Public Notice concerns only the following commercial wireless regulatees: cellular and public mobile (Part 22) licensees. Personal communications service (PCS) and commercial mobile radio service (CMRS) licensees other than those listed above are exempt from payment of regulatory fees in FY 1995. Governments and nonprofit (exempt under Section 501(c) of the Internal Revenue Code) entities are exempt from paying regulatory fees and should not submit payment, but may be asked to submit a current IRS Determination Letter documenting its nonprofit status, a certification of governmental authority, or certification from a governmental authority attesting to its exempt status.

Why the Commission Must Collect Regulatory Fees

The requirement to collect annual regulatory fees was contained in Public Law 103-66, "The Omnibus Budget Reconciliation Act of 1993. "These regulatory fees, which are likely to change each fiscal year, are used to offset costs associated with the Commission's enforcement, public service, international and policy and rulemaking activities. These fees are in addition to any application processing fees associated with obtaining a license or other authorization from the Commission.

When Fees Will Be Due

Fee payments must be *received* by the Commission by *September 20, 1995* in order to avoid a 25% late penalty.

Type of fee	Regulatory fee payment	Fee code

Public Mobile Radio-Two Way (Part 22)	0.15 per unit	CPMN
Public Mobile Radio-One Way Paging (Part 22)	0.02 per unit	CDWN

FCC Form 159

Regulatory fee payments *must* be accompanied by FCC Form 159 ("FCC Remittance Advice"). A copy of this form, with specific instructions, is attached to this Public Notice. Please see, "Special Instructions for Completing FCC Forms 159 & 159-C" for detailed information on how to correctly complete these Forms.

Payments may also be made by wire transfer or by electronic funds transfer (EFT). Instructions for wire transfer payment are provided below.

We encourage arrangements to consolidate a number of regulatory fee payments either by a single entity or by different entities into a single payment instrument. Consolidated fee payments may cover several different service categories. Multiple fee payments may be made with one check, money order, credit card or electronic payment. Payors who will be making a single payment for a significant number of entities and wish to submit automated data submissions in lieu of a large number of FCC Forms 159-C ("Advice Continuation Sheets") may do so. There is no limit to the number of payment items.

Wire Transfer Payment Instructions

A wire transfer is a transaction that you initiate via your bank. It authorizes your bank to wire funds from your account to our lockbox bank, the Mellon

Bank in Pittsburgh, PA. All payments made by wire transfer must be supported by a completed FCC Remittance Advice (FCC Form 159) and Advice Continuation Sheet (FCC Form 159-C), if required. The Form 159 must be faxed to Mellon Bank at (412) 236-5702 at least one hour before the wire transfer on the same business day. Indicate on the top of the FCC Form 159 "Wire Transfer—Regulatory Fee Payment." In the "Reserve Box" located at the upper left hand corner in "358835." Failure to submit the completed Form 159 will result in a delay in crediting your account. Due to Federal Reserve regulations, wire transfers received after 6:00 p.m. (EST) will be credited the next business day.

The following information should be provided to your bank in order to complete the wire transfer:

Compliance

Licensees are solely responsible for accurately accounting for all licenses and paying proper regulatory fees. Any omission or payment deficiency can result in a 25% monetary penalty, dismissal of pending actions, and/or revocation of any authorization. Additionally, the Commission intends to invoke its authority under the Debt Collection Act against any licensee failing to meet its regulatory fee payment obligations.

Note. The Commission has identified several entities which have not paid the required fee for FY 1994 and has begun taking appropriate steps to secure collection of these fees and penalties due. You are strongly urged to submit your payments on time and accurately in order to avoid a penalty.

Waivers, Reductions and Deferments of Regulatory Fees

The Commission will consider request for waivers, reductions or deferments of regulatory fees, *in extraordinary and compelling circumstances only*, upon a showing that such action overrides the public interest in reimbursing the Commission

for its regulatory costs. Timely submission of the appropriate regulatory fee must accompany request for waivers or reductions. This will ensure efficient collection in situations where a waiver or reduction is not warranted and will allow the requestor to avoid a 25% late-payment penalty if its request is denied. The regulatory fee would be refunded later if the request is granted. Only in exceptional or compelling instances (where payment of the regulatory fee along with the waiver or reduction request could result in the reduction of service to a community or other financial hardship to the licensee), will the Commission accept a petition to defer payment along with a waiver or reduction request. All requests for deferments must be received before *September 20, 1995*, in order to avoid the 25% late-payment penalty.

Additional Information

The Commission has prepared a number of informative Fee Filing Guides for information on *application* fees for wireless radio services, or for information on *application* and *regulatory* fees for mass media, international, cable television, engineering and technology, compliance and information, and wireless radio services.
