[Docket No. RP95-395-000]

Williams Natural Gas Company v. Kansas Natural Partnership, et al.; Notice of Complaint

July 28, 1995.

Take notice that on July 21, 1995, Williams Natural Gas Company (Williams) filed with the Commission a complaint pursuant to Rule 206(a) of the Commission's Rules of Practice and Procedure against the above-captioned natural gas pipeline entities, that are owned by the Bishop Group.¹ Williams is an interstate natural gas company that competes with the Bishop Group companies. KansOK Partnership is regulated as an intrastate pipeline in Oklahoma; Kansas Pipeline Partnership and Kansas Natural Partnership are regulated as intrastate pipelines in Kansas; and Riverside Pipeline

Company, L.P. is regulated as an interstate pipeline. Kansas Pipeline Operating Company operates these four pipelines.

Williams alleges that the four pipelines owned by the Bishop Group collectively constitute an interstate pipeline system, and should be subject to the Commission's jurisdiction under the Natural Gas Act. Williams requests that the Commission issue an order: (1) Declaring that the Bishop Group constitutes a single interstate pipeline system; (2) requiring respondents to promptly obtain all required Commission certificates and tariff approvals; (3) withdrawing any certificates that were issued to the Bishop Group on the assumption that its pipelines would continue to operate as bona fide intrastate systems; (4) requiring respondents to comply with all Commission regulations, including Order No. 636; (5) requiring the respondents to refrain from constructing new interstate facilities without Commission approval; (6) requiring respondents to refrain from imposing any direct bills or rate increases without Commission approval; and (7) taking such other action as the Commission deems appropriate.

Williams alleges that the Bishop Group plans to construct a pipeline, to be known as "Linchpin 2", which would connect its existing facilities with Panhandle Eastern Pipeline
