

action, the Office of Management and Budget has waived the review process required by Executive Order 12866.

This interim rule affects the interstate movement of regulated articles from the Camarillo area of Ventura County, CA. There are approximately 74 small entities that could be affected, including 12 fruit markets, 1 farmers market, 25 nurseries, 35 fruit sellers, and 1 packer. In addition, there are growers raising approximately 35,000 acres of avocados, lemons, oranges, tomatoes, and peppers.

These small entities comprise less than 1 percent of the total number of similar small entities operating in the State of California. In addition, most of these small entities sell regulated articles primarily for local intrastate, not interstate, movement, and the sale of these articles would not be affected by this interim regulation.

Therefore, termination of the quarantine in the Ventura County area should have a minimal economic effect on the few small entities operating there. We anticipate that the economic impact of lifting the quarantine, though positive, will be no more significant than was the minimal impact of its imposition.

Under these circumstances, the Administrator of the Animal and Plant Health Inspection Service has determined that this action will not have a significant economic impact on a substantial number of small entities.
