

Any person who wishes to make a formal presentation should submit a request to the Secretary of the Commission no later than September 5, 1995. The presentation is to be limited to the environmental issues associated with the NOPR, and is not to be used as a forum to address the merits of the NOPR. Each request should include the time anticipated for the presentation and any special equipment requirements. Every effort will be made to accommodate requests to make presentations, but, depending on the number of requests received, each presentation may have to be limited to 5 minutes. To provide a more productive conference, those with similar views are encouraged to coordinate their efforts and choose one spokesperson to make a statement on behalf of the group. Also, speakers are encouraged to prepare written "Executive Summaries" for presentation at the September 8, 1995 meeting. An official transcript will be made of the public meeting to accurately record all comments.

Please take notice that all written scoping comments and relevant studies or reports on the proposed EIS still need to be filed with the Commission on or before August 11, 1995, as directed in the NOI. In addition, commenters are asked to submit their written comments on a 3½-inch diskette formatted for MS-DOS based computers. In light of our ability to translate MS-DOS based materials, the text need only be submitted in the format and version that it was generated (*i.e.*, MS Word, WordPerfect, ASCII, etc.). It is not necessary to reformat word processor generated text to ASCII. For Macintosh users, it would be helpful to save the documents in Macintosh word processor format and then write them to files on a diskette formatted for MS-DOS machines.

Send all written comments, diskettes, and requests to speak at the meeting to:

- Office of the Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426; and
- Refer to Docket Nos. RM95-8-000 and RM94-7-001.

Also send a copy of the written scoping comments to:

- Leon Lowery, Office of Electric Power Regulation, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, Telephone: (202) 208-0919, Fax: (202) 208-0180.

All written comments will be available for public inspection or copying in the Commission's Public Reference and Files Maintenance

Branch, Room 3104, 941 North Capitol Street, N.E., Washington, D.C. 20426, or call (202) 208-1371. All comments filed on diskettes will be available on the Commission Issuance Posting System (CIPS). CIPS is an electronic bulletin board service which provides access to the text of formal documents issued by the Commission.
