

Texas Gas requests an effective date of September 1, 1995, for the proposed tariff sheets.

Texas Gas states that copies of the revised tariff sheets are being mailed to Texas Gas's affected jurisdictional customers, those appearing on the applicable service lists, and interested state commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with 18 CFR 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before August 9, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

Linwood A. Watson, Jr.,

Acting Secretary.

BILLING CODE 6717-01-M

[Docket No. GT95-11-001]

Williams Natural Gas Company; Notice of Refund Report

August 2, 1995.

Take notice that on July 28, 1995, Williams Natural Gas Company (WNG) tendered for filing a report of additional refunds of Kansas ad valorem taxes made to customers, pursuant to Commission Order on Court Remand in Docket Nos. GP83-11-002 and RI83-9-003. Colorado Interstate Gas Company, 65 FERC ¶ 61,292 (1993).

WNG states that a copy of its filing was served on all customers receiving a refund, all participants listed on the service lists maintained by the Commission in the docket referenced above, and interested state commissions.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Section 385.211 of the Commission's Rules and Regulations. All such protests should be filed on or before August 9, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make

protestants parties to the proceedings. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

Linwood A. Watson, Jr.,

Acting Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-5274-7]

Disclosure of Confidential Business Information Obtained Under the Comprehensive Environmental Response, Compensation and Liability Act to EPA Contractor Black and Veatch Waste Science (BVWS)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice request for comments.

SUMMARY: EPA hereby complies with the requirements of 40 CFR 2.301(h) and 40 CFR 2.310(h) for authorization to disclose to its contractor, BVWS, Kansas City, Missouri, cost recovery support documentation for the Des Moines TCE Superfund Site. This disclosure includes Confidential Business Information (CBI) which has been submitted to EPA Region VII, Superfund Division. BVWS's principal office is at 6601 College Blvd., Overland Park, Kansas 66211.

FOR FURTHER INFORMATION CONTACT: Glenn Curtis, Superfund Division, U.S. Environmental Protection Agency, 726 Minnesota Avenue, Kansas City, Kansas 66101, (913) 551-7726.

Notice of Required Determinations, Contract Provisions and Opportunity to Comment: The Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), as amended (commonly known as "Superfund"), requires the establishment of an administrative record upon which the President shall base the selection of a response action. CERCLA also requires the maintenance of many other records. EPA has entered into ARCS Contract No. 68-W8-0064 for management of those records. EPA Region VII has determined that disclosure of CBI to BVWS is necessary in order that the contractor may carry out the work requested under the above contract with EPA. The contract complies with all requirements of 40 CFR 2.301(h)(2)(ii) and 40 CFR 2.310(h). EPA Region VII will require that each BVWS employee working on cost

recovery work sign a written agreement that he or she:

(1) Shall use the information only for the purpose of carrying out the work required by the contract;

(2) Shall refrain from disclosing the information to anyone other than EPA without the prior written approval of each affected business or of an EPA regional office; and

(3) Shall return to EPA all copies of the information and any contracts or extracts therefrom (a) upon completion of the contract, (b) upon request of the EPA, or (c) whenever the information is no longer required by BVWS for performance of work requested under the contract. These non-disclosure statements shall be maintained on file with the EPA Region VII Project Officer for BVWS. BVWS employees will be provided technical direction from their respective EPA contract management staff.

EPA hereby advises affected parties that they have ten (10) working days to comment pursuant to 40 CFR 2.301(h)(2)(ii) and 40 CFR 2.310(h). Comments should be sent to: Glenn Curtis, U.S. Environmental Protection Agency, Region VII, 726 Minnesota Avenue, Kansas City, Kansas 66101.

Dated: July 26, 1995.

William Rice,

Acting Regional Administrator.

[FRL-5274-8]

Availability of Draft Department of Energy Petition to Grant the Waste Isolation Pilot Plant (WIPP) a Variance From the Land Disposal Restrictions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability.

SUMMARY: The Environmental Protection Agency announces the availability for public comment of a draft no-migration variance petition submitted to the Agency by the Department of Energy (DOE) for its Waste Isolation Pilot Plant (WIPP) on May 31, 1995. The WIPP is a geological repository intended for the disposal of transuranic mixed hazardous and radioactive wastes generated by DOE in the production and decommissioning of nuclear weapons. The hazardous portion of the waste is subject to the land disposal restrictions of the Resource Conservation and Recovery Act (RCRA), as codified at 40 CFR Part 268. DOE's no-migration petition is intended to show that the WIPP will comply with the land

disposal restrictions by demonstrating that hazardous constituents will not migrate out of the WIPP disposal unit for as long as the wastes remain hazardous (a regulatory period of up to 10,000 years).

DATES: Public comments on the draft no-migration petition should be submitted on or before October 10, 1995.

ADDRESSES: Copies of the draft petition are available to the public at the following address: U.S. Environmental Protection Agency, RCRA Docket (5305) 401 M Street SW., Washington, DC 20460. Comments on the petition also should be sent to this address. One original and two copies should be submitted and should be identified by the regulatory docket reference number F-95-WIPA-FFFFF. The docket is open from 9 a.m. to 4 p.m., Monday through Friday, excluding Federal holidays. Docket materials may be reviewed by appointment by calling (202) 260-9327. Up to 100 pages of material from the docket may be copied at no cost. Additional copies are \$0.15 per page.

Copies of the draft petition also are available to the public at RCRA dockets that EPA has opened in New Mexico. These dockets are in the same locations as the currently existing dockets for the EPA Office of Radiation and Indoor Air (ORIA). ORIA is responsible for regulating the radioactive portion of the WIPP waste through 40 CFR Part 191. Petition locations are: (1) EPA's docket in the Governmental Publications Department of the Zimmerman Library of the University of New Mexico located in Albuquerque, New Mexico (open from 8:00 a.m. to 9:00 p.m. on Monday through Thursday, 8:00 a.m. to 5:00 p.m. on Friday, 9:00 a.m. to 5:00 p.m. on Saturday, and 1:00 p.m. to 9:00 p.m. on Sunday); (2) EPA's docket in the Fogelson Library of the College of Santa Fe in Santa Fe, New Mexico, at 1600 St. Michaels Drive (open from 8:00 a.m. to 12:00 midnight on Monday through Thursday, 8:00 a.m. to 5:00 p.m. on Friday, 9:00 a.m. to 5:00 p.m. on Saturday, and 1:00 p.m. to 9:00 p.m. on Sunday); and (3) EPA's docket in the Municipal Library of Carlsbad, New Mexico, 101 South Halegueno (open from 10:00 a.m. to 9:00 p.m. on Monday through Thursday, 10:00 a.m. to 6:00 p.m. on Friday and Saturday, and 1:00 p.m. to 5:00 p.m. on Sunday). Up to 100 pages of material from the docket may be copied at no cost. Additional copies are \$0.15 per page.

FOR FURTHER INFORMATION CONTACT: For general information about the no-migration and RCRA permitting process, contact the RCRA/Superfund Hotline, U.S. Environmental Protection Agency,

401 M Street, SW, Washington, DC 20460, (800) 424-9346 (toll-free) or (703) 412-9810 in the Washington, DC metropolitan area. The TDD number for hearing-impaired callers is (800) 553-7672. For information on the specific aspects of the petition, and issues discussed in this notice, contact Reid Rosnick (703-308-8758) or Chris Rhyne (703-308-8658), Office of Solid Waste (5303W) U.S. Environmental Protection Agency, 401 M St., SW, Washington, DC 20460.

SUPPLEMENTARY INFORMATION: In accordance with the provisions of 40 CFR 268.6, EPA granted a conditional no-migration variance to DOE on November 14, 1990 (55 FR 47709). This variance allowed DOE to place hazardous waste subject to the land disposal restrictions of the Resource Conservation and Recovery Act (RCRA) in the WIPP for the limited purposes of below-ground testing and experimentation over a ten year period. In 1993, DOE cancelled the proposed test period, after a determination that the tests and experiments could be done faster and more cheaply above ground. As a result, the 1990 determination was made moot, and DOE was informed that a new petition for a long-term demonstration would need to be submitted and approved before any waste could be accepted at the facility. The draft petition made available today is the first step in that approval process.

EPA is aware that this draft petition is not complete, in that all of the required information for a long-term demonstration is not contained in the document. This petition covers only the disposal phase of the project (the first twenty five years of operation of the facility), and does not address the long-term post-closure performance of the repository. DOE has noted that it intends to submit the portion of the petition that addresses the long-term migration potential in June, 1996. EPA has provided guidance to DOE on the requirements for submitting a complete petition through the Agency's guidance document entitled "No-Migration Variance to the Hazardous Waste Land Disposal Prohibitions: A Guidance Manual for Petitioners," and by encouraging pre-submission discussions with DOE. The Agency will also provide comments on DOE's submitted draft petition to provide early guidance to DOE. By today's **Federal Register** notice, the EPA encourages the public to provide comments that will inform its review of DOE's draft petition.

EPA also emphasizes that after the June, 1996 submission, EPA will review the full petition and determine, through

a formal rulemaking, whether to issue the variance or deny the no-migration petition. Interested members of the public will have a full opportunity to comment on the petition and EPA's review as part of the rulemaking process.

Dated: July 26, 1995.

Elliott P. Laws,

Assistant Administrator for Solid Waste and Emergency Response.
