**DEPARTMENT OF DEFENSE**
**Office of the Secretary**
**Renewal of the Defense Policy Board  
Advisory Committee**

**ACTION:** Notice.

**SUMMARY:** The Defense Policy Board Advisory Committee (MHCAC) has been renewed, effective August 3, 1995, in consonance with the public interest, and in accordance with the provisions of Pub. L. 92-463, the "Federal Advisory Committee Act."

The Defense Policy Board Advisory Committee will continue to provide the Secretary of Defense and other senior officials in the Department of Defense with independent, informed advice and recommendations concerning matters of defense policy. The Board focuses on long-term issues central to strategic planning for the Department of Defense, and provides research and analysis of topical issues of particular significance to the Secretary.

The Committee will continue to be composed of about 20 members who are acclaimed leaders in national security affairs. Efforts will be made to ensure a balanced membership, considering the functions to be performed and the interest groups represented, and will include academicians, private consultants, corporation executive, and both current and former government officials.

For further information regarding the Defense Policy Board Advisory Committee, contact: LTC Clay Stewart, (703) 697-4557.

Dated: August 3, 1995.

### **Military Traffic Management Command Option To Extend Guaranteed Traffic**

**AGENCY:** Military Traffic Management Command, DOD.

**ACTION:** Notice (Request for carrier industry comments).

**SUMMARY:** This notice establishes the procedures the Government will follow to exercise its option to extend the term of a Guaranteed Traffic award.

1. The Government may extend the term of awarded Guaranteed Traffic (GT) by written notice to the carrier. Notice of this intent will be sent to the carrier(s) 60 days prior to the original expiration date. The preliminary notice does not commit the Government to an extension.

a. If the Government exercises this option, the extended GT shall be considered to allow up to three 1-year extensions. All extensions will be in increments up to one year, not to exceed a total of 3 years.

b. The total duration of the GT, including the exercise of any option under this item, shall not exceed 5 years.

2. Rates shall be subject to adjustment in accordance with the following price adjustment procedures:

a. Increases or decreases in tendered rates shall be automatically made by the MTMC in accordance with the Producer Price Index published by the U.S. Department of Labor. Factors considered will be the Producer Price Index for General Freight, Truckload (PPI-GFTL), and Less than Truckload (PPI-GFLT). Adjustments may be made for years 3, 4, and 5 of the GT award. No adjustments will be made when the percent of change is less than one percent.

b. For example, on a two-year GT award, the basic index will be that indicated for the month of the original effective date of the tender and at the end of the 21st month (3 months prior to expiration). Subsequent extension options will be based on the index for each of the succeeding 12 months. The net change will be developed by subtracting the latest index from the index in effect at the time of the original award or previous extension. The difference will be divided by the base index at the time of the award/previous extension for the increase authorized.

For example: October 1992=104.9

June 1994=110.1 (21 months)

Net Change=5.2

Price adjustment:

Net change/Base Index=5.2/104.9=4.9

This results in a 4.9% increase.

3. The Government will provide the carrier written notification of the price adjustment at least 45 days prior to the effective date thereof.

**FOR FURTHER INFORMATION CONTACT:**

Mr. Franklin Lamm, Military Traffic Management Command, ATTN: MTOP-T-ND, 5611 Columbia Pike, Falls Church, VA 22041-5050; or telephone (703) 681-6103.

**SUPPLEMENTARY INFORMATION:** Carrier comments or suggestions on these procedures will be considered if received at Headquarters, MTMC, MTOP-T-ND by September 7, 1995.

### **Corps of Engineers**

#### **Intent to Prepare a Draft Environmental Impact Statement/Draft Environmental Impact Report (DEIS/R) for the San Pedro Creek Section 205 Flood Control Project**

**AGENCY:** U.S. Army Corps of Engineers, DOD.

**ACTION:** Notice of intent.

**SUMMARY:** The San Francisco District, U.S. Army Corps of Engineers and its local sponsor, the City of Pacifica, are planning the construction of a flood control project along San Pedro Creek in San Mateo County, California. The project would provide a 100-year level of flood protection to homes and businesses in the floodplain of the lower portion of the San Pedro Creek drainage. This project would also restore wetlands and riparian habitat along this portion of San Pedro Creek that have been lost due to past development.

The Corps of Engineers is the lead agency for this project under the National Environmental Policy Act (NEPA), and the City of Pacifica is the lead agency under the California Environmental Quality Act (CEQA). The DEIS/R will enable the lead agencies to comply with the requirements of NEPA and CEQA.

**FOR FURTHER INFORMATION CONTACT:** Mr. Bill DeJager at (415) 744-3341, or at the Army Corps of Engineers, San Francisco District, 211 Main Street, Room 918, San Francisco, CA 94105.

**SUPPLEMENTARY INFORMATION:** The San Pedro Creek Flood Control Project

would be constructed under the authority of Section 205 of the Water Resources Act of 1948. An initial study of potential flood control alternatives along San Pedro Creek was completed in 1988. This study determined that there is a Federal interest in structural flood-control measures in the study area. A detailed project report has subsequently been initiated with the City of Pacifica, to support further Federal participation in the project.

As part of this study, the City of Pacifica has devised a flood control project for San Pedro Creek based on extensive public input. This project would involve construction of an underground bypass channel and an aboveground excavated floodway, both located on the southside of San Pedro Creek. The bypass channel would start at the Adobe Drive Bridge and would extend downstream approximately 2,300 feet to a point midway between the Adobe Drive Bridge and the Highway 1 Bridge. The bypass would be routed almost entirely under city streets, and would discharge into an excavated floodway. The excavated floodway would extend from the downstream end of the bypass west to State Highway 1. The portion of San Pedro Creek alongside the floodway would be rerouted and would meander through the floodway, which would be developed into a riparian forest. From Highway 1 downstream to the Pacific Ocean, the existing stream channel would be widened. In addition, an area north of the creek and west of Highway 1 would be excavated and would serve as a wetland and wildlife habitat.

Other alternatives to be considered in the DEIS/R will include: (1) no action; (2) channelization of the creek; and (3) construction of a floodwall. These alternatives have been considered in the past by both the Corps and the local sponsor.

The Corps of Engineers is requesting public input during the preparation of the DEIS/R for this project. All interested Federal, State, and local agencies, Indian tribes, private organizations, and individuals are invited to participate in the environmental scoping process established by Federal regulations.

A scoping meeting will be held in the City Council chambers, 2212 Beach Boulevard, Pacifica, California on September 7, 1995 at 7:30 p.m. The purpose of the meeting will be to determine the environmental issues of concern to the public that should be addressed by the DEIS/R. A public comment period for the proposal will open on August 16, 1995 and will close on September 15, 1995. The public will
