

enable employees to attempt to elude detection or otherwise frustrate any investigatory actions. The return and return information contained within this system constitute investigatory material compiled for law enforcement purposes under Title 26 of the United States Code.

Pursuant to the Privacy Act of 1974, the Department of the Treasury is publishing separately the Notice of Alteration of this Treasury/IRS system of records, to be maintained by the IRS.

Under 5 U.S.C. 552a(k)(2), the head of an agency may promulgate rules to exempt any system of records within the agency from certain provisions of the Privacy Act of 1974 if the system is investigatory material compiled for law enforcement purposes. The Internal Revenue Service has as its principal function enforcement of the tax laws of the United States. This enforcement activity contains investigatory material compiled for law enforcement purposes under Title 26 of the United States Code.

The exemption under 5 U.S.C. 552a(k)(2), relating to investigatory material compiled for law enforcement purposes, is hereby claimed for this system.

The Department of the Treasury is hereby giving notice of a proposed rule to exempt this system of records described above from certain provisions of the Privacy Act pursuant to 5 U.S.C. 552a(k)(2) and the authority of 31 CFR 1.23(c). The reason for exempting this system of records from this provision of 5 U.S.C. 552a is set forth in the rule itself.

As required by Executive Order 12291, it has been determined that this proposed rule is not a "major" rule and, therefore, does not require a Regulatory Impact Analysis.

Pursuant to the requirements of the Regulatory Flexibility Act, 5 U.S.C. 601-612, it is hereby certified that this rule will not have significant economic impact on a substantial number of small entities.

In accordance with the provisions of the Paperwork Reduction Act of 1980, the Department of the Treasury has determined that this proposed rule would not impose new recordkeeping, application, reporting, or other types of information collection requirements.

List of Subjects in 31 CFR Part 1

Privacy.

Part 1 of Title 31 of the Code of Federal Regulations is amended as follows:

1. The authority citation for part 1 continues to read as follows:

Authority: 5 U.S.C. 301 and 31 U.S.C. 321. Subpart A also issued under 5 U.S.C. 522 as amended. Subpart C also issued under 5 U.S.C. 552a.

§ 1.36 [Amended]

2. Section 1.36 of Subpart C is amended by adding the following text in numerical order under the heading THE INTERNAL REVENUE SERVICE:

* * * * *
 (b) * * *
 (1) * * *

Name of system	No.
* * * * *	*
Integrated Data Retrieval System (IDRS) Security Files	34.018
* * * * *	*

* * * * *
 Approved: July 20, 1995.

Alex Rodriguez,
Deputy Assistant Secretary (Administration).

National Park Service

36 CFR Part 13

RIN 1024-AC05

Glacier Bay National Park, Alaska: Vessel Management Plan Regulations

AGENCY: National Park Service, Interior.
ACTION: Proposed Rule; re-opening of public comment period.

SUMMARY: The proposed rule would revise National Park Service regulations, including vessel quotas, that were established to protect the endangered humpback whale and other resources Glacier Bay National Park and Preserve manages. The regulations follow an Endangered Species Act, Section 7, consultation with the National Marine Fisheries Service (NMFS), and are consistent with the 1993 Biological Opinion issued by that agency. The regulations are drafted to track the proposed action (Alternative Five) from the six-alternative Vessel Management Plan and Environmental Assessment prepared by the NPS.

The proposed regulations contemplate an increase in cruise ship use, to be offset by specific mitigation measures. The regulations would authorize a 72 percent seasonal increase in cruise ship traffic during the months of June, July and August. However, there would be no increase in the maximum number of

cruise ships permitted to use the bay on any given day (two).

Rather, the increased traffic will be absorbed, for the most part, by authorizing more cruise ship entries in early and late summer. The NPS also solicits comments on the possibility of modest increases in seasonal use by charter and private vessels.

The proposed regulations would extend and codify park compendium vessel regulations that were developed, under the authority of the existing regulations, for the protection of humpback whales, Steller sea lions, and other wildlife and resource values within the park. Additional measures are also proposed to mitigate natural resource impacts associated with the proposed increase in vessel traffic.

Finally, to provide park visitors a range of recreational opportunities and to maintain opportunities for the safe use of kayaks, the proposed regulations would close the upper Muir Inlet to motor vessels on a seasonal basis.

This rulemaking, the substance of which was printed as a proposed rule on June 5, 1995 (60 FR 29523), extends the comment period for another 15 days to allow additional review and comment by interested groups and persons.

DATES: Comments will be accepted until August 25, 1995.

ADDRESSES: Comments should be addressed to: Superintendent, Proposed Regulations Comment, Glacier Bay National Park and Preserve, P.O. Box 140, Gustavus, Alaska 99826

FOR FURTHER INFORMATION CONTACT: J. M. Brady, Superintendent, Glacier Bay National Park and Preserve, P.O. Box 140, Gustavus, Alaska 99826, Telephone: (907) 697-2230.

SUPPLEMENTARY INFORMATION:

Extended Comment Period: Glacier Bay National Park—Vessel Management Plan Regulations.

This document announces a 15-day re-opening of the comment period for the proposed Glacier Bay National Park—Vessel Management Plan Regulations, that was published in the **Federal Register** on June 5, 1995 (60 FR 29523). The initial comment period expired on August 4, 1995. Comments received during the initial comment period requested additional time to review the proposed regulations. Accordingly, the comment period for the proposed rule is hereby extended for an additional 15 days.

Dated: August 4, 1995.

George T. Frampton, Jr.,

Assistant Secretary for Fish and Wildlife and Parks.

[PA56-1-7086b; FRL-5253-1]

Approval and Promulgation of Air Quality Implementation Plans; Commonwealth of Pennsylvania: Reasonably Available Control Technology for Stroehmann Bakeries, Inc., Lycoming and Bradford Counties

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the Commonwealth of Pennsylvania for the purpose of establishing and requiring the use of reasonably available control technology (RACT) to control volatile organic compound (VOC) emissions from two Stroehmann Bakeries, Inc. (Stroehmann) facilities located in Sayre Borough, Bradford County and Old Lycoming Township, Lycoming County. In the Final Rules section of this **Federal Register**, EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial SIP revision and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule and in the Technical Support Document prepared for that rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time. **DATES:** Comments must be received in writing by September 11, 1995.

ADDRESSES: Written comments on this action should be addressed to Marcia L. Spink, Associate Director, Air Programs, Mailcode 3AT00, U.S. Environmental Protection Agency, Region III, 841 Chestnut Building, Philadelphia, Pennsylvania 19107. Copies of the

documents relevant to this action are available for public inspection during normal business hours at the Air, Radiation, and Toxics Division, U.S. Environmental Protection Agency, Region III, 841 Chestnut Building, Philadelphia, Pennsylvania 19107; and the Pennsylvania Department of Environmental Resources Bureau of Air Quality Control, P.O. Box 8468, 400 Market Street, Harrisburg, Pennsylvania 17105.

FOR FURTHER INFORMATION CONTACT: Kathleen Henry, (215) 597-0545.

SUPPLEMENTARY INFORMATION: See the information provided in the Direct Final action of the same title which is located in the Rules and Regulations Section of this **Federal Register**.

BILLING CODE 6560-50-P

40 CFR Part 258

[FRL-5275-3]

RIN 2050-AE24

Alternatives for Ground-Water Monitoring and Delay of General Compliance Date for Small Municipal Solid Waste Landfills Located in Either Dry or Remote Areas

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of proposed rulemaking and request for comment.

SUMMARY: On October 9, 1991, the Environmental Protection Agency (EPA) promulgated final solid waste disposal facility criteria (40 CFR Part 258), setting in place national minimum standards for municipal solid waste landfills (MSWLFs). In that rulemaking, the Agency provided an exemption from ground-water monitoring for small MSWLF units located in dry or remote locations. The Agency provided this relief as it sought to balance the protection of human health and the environment with the practicable capability of these small community landfill owners and operators.

In 1993, the U.S. Court of Appeals for the District of Columbia vacated this

ground-water monitoring exemption. The Agency today is proposing to provide to approved States and Tribes the flexibility to determine alternative ground-water monitoring requirements, on a site-specific basis, for small MSWLFs that are located in either dry or remote areas (hereafter referred to as "qualifying small MSWLFs"). Under this proposal, approved States and Tribes may consider site-specific alternatives to conventional ground-water monitoring that are relatively low in cost and are still capable of detecting contamination. Through the use of ground-water monitoring alternatives, the Agency estimates potential annual national cost savings of between \$5.9 million to \$22.2 million. The Agency is providing a 90-day comment period for this portion of today's proposal.

Today's rulemaking also solicits comment on a delay of the general compliance date of the MSWLF criteria for qualifying small MSWLFs. The Agency is providing a 30-day comment period for this separate portion of today's proposal.

DATES: The Agency is accepting public comments on the proposed rule changes related to the delay of the compliance date for small MSWLFs located in dry and remote areas in §§ 258.1(d)(3), 258.1(e)(4), 258.2, and 258.50(e) for a 30-day period beginning on August 10, 1995. The Agency also is accepting public comments on a separate proposed rule change allowing the use of alternative ground-water monitoring methods in § 258.50(a) for a 90-day period beginning on August 10, 1995.

ADDRESSES: The public should submit an original and two copies of their comments on this proposed rule to the Docket Clerk (5305), U. S. Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460. All written comments received by EPA regarding the delay of the compliance date will be placed in public docket number F-95-AGDP-FFFFF. Please place the docket number F-95-AGDP-FFFFF on the comments submitted to the Agency on this issue. Written comments received by EPA regarding the use of alternative ground-water monitoring methods will be placed in public docket number F-95-AGAP-FFFFF. Please place the docket number F-95-AGAP-FFFFF on the comments submitted to the Agency on this issue.

Background information collected in support of today's proposed rule may be found in public docket number F-95-AGAP-FFFFF. All dockets are available for viewing in the RCRA Information Center (RIC), located in Room M2616, U.S. EPA, 401 M Street SW.,
