Docket Number: 95-063. **Applicant:** Oklahoma State University, Purchasing Department, 208G Whitehurst, Stillwater, OK 74078. **Instrument:** Mass Spectrometer, Model VG Isochrom-EA. **Manufacturer:** Fisons Instruments, United Kingdom. **Intended Use:** The instrument will be used to analyze for the presence of the stable isotope ¹⁵N, which is used as a tracer for fertilizer N in crop production systems. Investigations will be conducted to establish critical levels associated with plant gaseous N loss in various winter wheat production systems and to determine which system offers the greatest opportunity for increasing fertilizer N use efficiency while decreasing potential nitrate N leaching losses. In addition, the instrument will be used for educational purposes in the course Soil-plant Relationships, Agronomy 5813. **Application Accepted by Commissioner of Customs:** July 18, 1995.

Southampton, United Kingdom. **Intended Use:** See notice at 60 FR 31144, June 13, 1995. **Advice Received From:** The National Institute of Standards and Technology, July 12, 1995.

Comments: None received. **Decision:** Approved. No instrument of equivalent scientific value to the foreign instrument, for such purposes as it is intended to be used, is being manufactured in the United States. **Reasons:** The foreign instrument provides an electron gun emission source, a metal-vapor atomic beam, scattered and ejected electron detectors, and a hemispherical electrostatic monochrometer for determining atomic metal-vapor autoionizing energy levels. The National Institute of Standards and Technology advises that (1) these capabilities are pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign instrument for the applicant's intended use.

We know of no other instrument or apparatus of equivalent scientific value to the foreign instrument which is being manufactured in the United States.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Transshipment Charges for Certain Cotton Textile Products Produced or Manufactured in Pakistan

August 4, 1995.

AGENCY: Committee for the Implementation of Textile Agreements (CITA).

ACTION: Issuing a directive to the Commissioner of Customs charging illegal transshipments to a 1995 limit.

EFFECTIVE DATE: August 11, 1995.

FOR FURTHER INFORMATION CONTACT: Anne Novak, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482-4212.

SUPPLEMENTARY INFORMATION:

Authority: Executive Order 11651 of March 3, 1972, as amended; section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854).

Based on investigations conducted by the Government of the United States, CITA has determined that cotton sheets

in Category 361 were transshipped in circumvention of the Uruguay Round Agreements Act and the Uruguay Round Agreement on Textiles and Clothing.

The United States Government requested consultations in writing with the Government of Pakistan on February 7, 1995. The U.S. Government and the Government of Pakistan met on March 28 and 29, 1995 and July 11 and 12, 1995, in Washington to discuss the charges. The U.S. Government provided the Government of Pakistan with sufficient evidence of transshipment during these meetings. The U.S. Government informed the Government of Pakistan of the charges to be made to the 1995 quota for Category 361. Accordingly, since a mutually satisfactory agreement was not reached, in the letter published below the Chairman of CITA directs the Commissioner of Customs to charge 691,082 numbers to the 1995 quota level for Category 361.

U.S. Customs continues to conduct other investigations of such transshipments of textiles produced in Pakistan and exported to the United States. The charges resulting from these investigations will be published in the **Federal Register**.

The U.S. Government is taking this action pursuant to the Uruguay Round Agreements Act and the Uruguay Round Agreement on Textiles and Clothing.

A description of the textile and apparel categories in terms of HTS numbers is available in the CORRELATION: Textile and Apparel Categories with the Harmonized Tariff Schedule of the United States (see **Federal Register** notice 59 FR 65531, published on December 20, 1994). Also see 60 FR 9014, published on February 16, 1995.
