

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities.

2. The action does not appear to have a severe economic impact on future contractors for the commodity.

3. The action will result in authorizing small entities to furnish the commodity to the Government.

4. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46-48c) in connection with the commodity proposed for deletion from the Procurement List.

Comments on this certification are invited. Commenters should identify the statement(s) underlying the certification on which they are providing additional information.

The following commodity has been proposed for deletion from the Procurement List:

Niagara Mohawk Power Corporation; Notice of Intent To File an Application for a New License

August 7, 1995

Take notice that the Niagara Mohawk Power Corporation, the existing licensee for the Stewarts Bridge Hydroelectric Project No. 2047, filed a timely notice of intent to file an application for a new license, pursuant to 18 CFR 16.6 of the Commission's Regulations. The original license for Project No. 2047 was issued effective July 1, 1950, and expires July 1, 2000.

The project is located on the Sacandaga River in Saratoga County, New York. The principal works of the Stewarts Bridge Project include an earth dam about 1,650 feet long and 112 feet high with a concrete gated spillway and penstock intake structure; a reservoir of about 475 acres at elevation 705 feet USGS datum; a steel penstock to a brick

powerhouse with one generator rated at 36,000 kW; an outdoor transformer, switching station and 400-foot-long transmission line; and appurtenant facilities.

Pursuant to 18 CFR 16.7, the licensee is required henceforth to make available certain information to the public. This information is available from the licensee at 300 Erie Boulevard West, Syracuse, New York 13202.

Pursuant to 18 CFR 16.8, 16.9 and 16.10, each application for a new license and any competing license applications must be filed with the Commission at least 24 months prior to the expiration of the existing license. All applications for license for this project must be filed by July 1, 1998.

Allen Ross; Notice of Scoping Pursuant to the National Environmental Policy Act of 1969, Notice Requesting Interventions and Protests, and Notice Not Ready for Environmental Analysis

August 7, 1995.

On July 31, 1995, the Federal Energy Regulatory Commission (Commission) issued a letter accepting the Allen Ross' application for the Book Mill Project, located on the Sawmill River in Franklin County, Massachusetts. The application is not ready for environmental analysis at this time. A public notice will be issued in the future indicating its readiness for environmental analysis and soliciting comments, recommendations, terms and conditions, or prescriptions on the application and the applicant's reply comments.

The purpose of this notice is to (1) invite interventions and protests; (2) advise all parties as to the proposed scope of the staff's environmental analysis, including cumulative effects, and to seek additional information pertinent to this analysis; and (3) advise all parties of their opportunity for comment.

Interventions and Protests

All filings must: (1) Bear in all capital letters the title "PROTEST," "MOTION TO INTERVENE," "NOTICE OF INTENT TO FILE COMPETING APPLICATION," or "COMPETING APPLICATION;" (2) set forth in the heading the name of the applicant and the project number of the application to which the filing responds; (3) furnish the name, address, and telephone number of the person protesting or intervening; and (4) otherwise comply with the requirements of 18 CFR 385.2001 through 385.2005. Agencies may obtain copies of the application directly from the applicant. Any of these documents must be filed by providing the original and the number of copies required by the Commission's regulations to: Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426.

An additional copy must be sent to: Director, Division of Project Review, Office of Hydropower Licensing, Federal Energy Regulatory Commission, Room 1027, at the above address. A copy of any protest or motion to intervene must be served upon each representative of the applicant specified in the particular application.
