

Statements by participants will not be subject to cross-examination by other participants without special approval by the presiding officer. The presiding officer is authorized to strike from the record statements which he or she deems irrelevant or repetitious and to impose reasonable limits on the duration of the statement of any witness.

If a hearing is held, the Agency will make a verbatim record of the proceedings. Interested persons may arrange with the reporter at the hearing to obtain a copy of the transcript at their own expense.

Regardless of whether a public hearing is held, EPA will keep the record open until November 17, 1995. The Administrator will then render her decision on CARB's request based on the record of the public hearing, if one is held, relevant written submissions, and other information which is deemed pertinent. All information will be available for public inspection at the EPA Air Docket.
