Antidumping Duty Order

On August 2, 1995, in accordance with section 735(d) of the Tariff Act of 1930 (the Act), the U.S. International Trade Commission (ITC) notified the Department of its final determination in this investigation. In its determination, the ITC found two like products: (1) Drill pipe; and (2) OCTG other than drill pipe (*i.e.*, casing and tubing). The ITC determined that imports of drill pipe from Japan threaten material injury to a U.S. industry. However, the ITC did not determine that but for the suspension of liquidation of entries of drill pipe from Japan, the domestic industry would have been materially injured, pursuant to section 735(b)(4)(B) of the Act.

When the ITC finds threat of material injury, and makes a negative "but for" finding, the "Special Rule" provision of section 736(b)(2) applies. Therefore, all unliquidated entries of drill pipe from Japan, entered or withdrawn from warehouse, for consumption on or after the date on which the ITC published its notice of final determination of threat of material injury in the **Federal Register**, are liable for the assessment of antidumping duties.

Pursuant to section 736(b)(2), the Department will direct the Customs Service to terminate the suspension of liquidation for entries of drill pipe imported from Japan entered, or withdrawn from warehouse, for consumption before the date on which the ITC published its notice of final determination of threat of material injury in the **Federal Register**, and to release any bond or other security, and to refund any cash deposit, posted to secure the payment of estimated antidumping duties with respect to entries of the merchandise entered or withdrawn from warehouse for consumption before that date.

Regarding OCTG other than drill pipe, the ITC determined that imports of such merchandise are materially injuring a U.S. industry. Therefore, in accordance with section 736(a) of the Act, the Department will direct the Customs Service to assess antidumping duties equal to the amount by which the foreign market value of the merchandise exceeds the United States price for all

entries of OCTG other than drill pipe from Japan. These antidumping duties will be assessed on all unliquidated entries of OCTG other than drill pipe from Japan entered, or withdrawn from warehouse, for consumption on or after February 2, 1995, the date on which the Department published its preliminary determination notice in the **Federal Register** (60 FR 6506).

On or after the date of publication of this notice in the **Federal Register**, the Customs Service must require, at the same time as importers would normally deposit estimated duties, the following cash deposits for the subject merchandise:

Manufacturer/producer/exporter	Weighted-Average Margin Percentage
Nippon Steel Corporation	44.20
Sumitomo Metal Industries, Ltd.	44.20
All Others	44.20

This notice constitutes the antidumping duty order with respect to OCTG from Japan, pursuant to section 736(a) of the Act. Interested parties may contact the Central Records Unit, Room B-099 of the Main Commerce Building, for copies of an updated list of antidumping duty orders currently in effect. This order is published in accordance with section 736(a) of the Act and 19 CFR 353.21.

Paul L. Joffe,
Deputy Assistant Secretary for Import Administration.
