Applicable Statute and Regulations

Unless otherwise indicated, all citations to the statute and to the Department's regulations are in

reference to the provisions as they existed on December 31, 1994.

Antidumping Duty Order

On August 2, 1995, in accordance with section 735(d) of the Tariff Act of 1930, as amended (the Act), the U.S. International Trade Commission (ITC) notified the Department of its final determination in this investigation. In its determination, the ITC found two like products: (1) Drill pipe; and (2) OCTG other than drill pipe (*i.e.*, casing and tubing). The ITC determined that imports of drill pipe from Argentina threaten material injury to a U.S. industry. Because there was no suspension of liquidation between the Department's preliminary and final determinations due to the Department's negative amended preliminary determination, the ITC did not determine, pursuant to section 735(b)(4)(B) of the Act, that, but for the suspension of liquidation of entries of drill pipe from Argentina, the domestic industry would have been materially injured.

When the ITC finds threat of material injury, and makes a negative "but for" finding, the "Special Rule" provision of section 736(b)(2) applies. Therefore, all unliquidated entries of drill pipe from Argentina, entered or withdrawn from warehouse, for consumption on or after the date on which the ITC published its notice of final determination of threat of material injury in the **Federal Register**, are subject to the assessment of antidumping duties.

Regarding OCTG other than drill pipe, the ITC determined that imports of such merchandise are materially injuring a U.S. industry. Therefore, all unliquidated entries of OCTG other than drill pipe from Argentina, entered or withdrawn from warehouse, are also subject to assessment of antidumping duties.

Therefore, the Department will direct the Customs Service to terminate the suspension of liquidation for entries of drill pipe imported from Argentina entered, or withdrawn from warehouse, for consumption before the date on which the ITC published its notice of final determination of threat of material injury in the **Federal Register**, and to release any bond or other security, and refund any cash deposit, posted to secure the payment of estimated antidumping duties with respect to these entries.

In accordance with section 736 of the Act, the Department will also direct the Customs Service to assess antidumping duties equal to the amount by which the foreign market value of the merchandise exceeds the United States price for all

entries of OCTG from Argentina. These antidumping duties will be assessed on all unliquidated entries of: (1) drill pipe from Argentina entered, or withdrawn from warehouse, for consumption on or after the date on which the ITC published its notice of final determination of threat of material injury in the **Federal Register**; and (2) OCTG other than drill pipe from Argentina entered, or withdrawn from warehouse, for consumption on or after June 28, 1995, the date on which the Department published its final determination notice in the **Federal Register** (60 FR 33539).

On or after the date of publication of this notice in the **Federal Register**, the Customs Service must require, at the same time as importers would normally deposit estimated duties, the following cash deposits for the subject merchandise:

Manufacturer/producer/exporter	Weighted-average margin percentage
Siderca S.A.I.C	1.36
All Others	1.36

This notice constitutes the antidumping duty order with respect to OCTG from Argentina, pursuant to section 736(a) of the Act. Interested parties may contact the Central Records Unit, Room B-099 of the Main Commerce Building, for copies of an updated list of antidumping duty orders currently in effect.

This order is published in accordance with section 736(a) of the Act and 19 CFR 353.21.

Dated: August 7, 1995.

Susan G. Esserman,
Assistant Secretary for Import Administration.
