BILLING CODE 6717-01-M

[Docket No. CP94-763-000]

Northern Natural Gas Co.; Notice of Availability of the Environmental Assessment for the Proposed Peoples/ L.S. Power-Cottage Grove Project

August 8, 1995.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) on the natural gas pipeline facilities proposed by Northern Natural Gas Company (Northern) in the above-referenced docket.

The EA was prepared to satisfy the requirements of the National Environmental Policy Act. The staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major Federal action significantly affecting the quality of the human environment.

The EA assesses the potential environmental effects of the construction and operation of Northern's proposed Peoples/L.S. Power-Cottage Grove Project, which includes the following facilities:

- about 1.42 miles of 30-inch-diameter pipeline to loop its existing 24-inch-diameter pipeline (MNM 86501) in Washington County, Minnesota;
- a new L.S. Power-Cottage Grove Town Border Station in Washington County, Minnesota; and
- a 1,250-horsepower electric-motor driven compressor at Northern's existing Farmington Compressor Station in Dakota County, Minnesota.

Northern indicates the proposed facilities would deliver an additional firm transportation capacity of 29,120 thousand cubic feet per day of natural gas to Peoples Natural Gas Company and L.S. Power-Cottage Grove Limited Partnership (L.S. Power-Cottage Grove) for the L.S. Power-Cottage Grove cogeneration Plant.

The EA has been placed in the public files of the FERC and is available for public inspection at:

Federal Energy Regulatory Commission,
Public Reference and Files Maintenance
Branch, 941 North Capitol Street NE.,
Room 3104, Washington, DC 20426 (202)
208-1371.

Copies of the EA have been mailed to Federal, state and local agencies, public interest groups, interested individuals,

newspapers, and parties to this proceeding.

A limited number of copies of the EA are available from:

Mr. Hugh Thomas, Environmental Project Manager, Environmental Review and Compliance Branch I, Office of Pipeline Regulation, Room 7312, 825 North Capitol Street NE., Washington, DC 20426, (202) 208-0980.

Any person wishing to comment on the EA may do so. Written comments must reference Docket No. CP94-763-000. Comments should be addressed to:

Office of the Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426.

Comments should be filed as soon as possible, but must be received no later than September 7, 1995, to ensure consideration prior to a Commission decision on this proposal. A copy of any comments should also be sent to Mr. Hugh Thomas, Environmental Project Manager, at the above address.

Comments will be considered by the Commission but will not serve to make the commentator a party to the proceeding. Any person seeking to become a party to the proceeding must file a motion to intervene pursuant to Rule 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.214).

The date for filing timely motions to intervene in this proceeding has passed. Therefore, parties now seeking to file late interventions must show good cause, as required by Section 385.214(b)(3), why this time limitation should be waived. Environmental issues have been reviewed as good cause for late intervention. You do not need intervenor status to have your comments considered.

Additional information about this project is available from Mr. Hugh Thomas, Environmental Review and Compliance Branch I, Office of Pipeline Regulation, at (202) 208-0980.
