SUPPLEMENTARY INFORMATION:

Background and Purpose

At approximately 7 a.m. on August 17, 1995, the Tennessee Valley Authority will commence power line construction operations extending across the mouth of McKellar Lake. The operation is expected to be completed within 15 days from the commencement date. The navigable channel will be blocked during the operation. A safety zone has been established on McKellar Lake from mile 0.0 to mile 0.5 in order to protect vessel traffic while power lines are strung across the mouth of McKellar Lake. The zone will be opened periodically to allow vessels to transit the area. The Captain of the Port, Memphis, Tennessee, will notify the maritime community of conditions affecting the area covered by this safety zone by Marine Safety Information Radio Broadcast on VHF Marine Band Radio, Channel 22 (157.1 MHz). Entry of vessels or persons into this zone is prohibited unless specifically authorized by the Captain of the Port.

In accordance with 5 U.S.C. 553, a notice of proposed rulemaking was not published for this regulation and good cause exists for making it effective in less than 30 days after **Federal Register** publication. Publication of a notice of proposed rulemaking and delay of effective date would be contrary to the public interest because immediate action is necessary. Specifically, immediate action is necessary to facilitate power line construction operations during the present low water conditions. Harm to the public or environment may result if vessel traffic is not controlled during the operations. As a result, the Coast Guard deems it to be in the public's best interest to issue a regulation immediately.

Regulatory Evaluation

This rule is not a significant regulatory action under section 3(f) of Executive Order 12866 and does not require an assessment of potential costs and benefits under section 6(a)(3) of that order. It has not been reviewed by the Office of Management and Budget under that order. It is not significant under the regulatory policies and procedures of the Department of Transportation (DOT) (44 FR 11040; February 26, 1979). The Coast Guard expects the economic impact of this proposal to be so minimal

that a full Regulatory Evaluation under paragraph 10e of the regulatory policies and procedures of DOT is unnecessary.

Collection of Information

This rule contains no information collection requirements under the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*).

Federalism

The Coast Guard has analyzed this rule under the principles and criteria contained in Executive Order 12612 and has determined that this rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

Environment

The Coast Guard considered the environmental impact of this rule and concluded that, under paragraph 2.B.2 of Commandant Instruction M16475.1B, this rule is categorically excluded from further environmental documentation.

Harbors, Marine safety, Navigation (water), Reporting and recordkeeping requirements, Security measures, Waterways.

For the reasons set out in the preamble, the Coast Guard amends 33 CFR part 165 as follows:

1. The authority citation for part 165 continues to read as follows:

2. A new temporary section 165.T02-202 is added to read as follows:

§ 165.T02-202 Safety Zone; McKellar Lake.

(a) *Location.* The following area is a Safety Zone: McKellar Lake mile 0.0 to mile 0.5.

(b) *Effective dates.* This section becomes effective at 7 a.m. on August 17, 1995, and terminates at 7 p.m. on August 31, 1995.

(c) *Regulations.* In accordance with the general regulations in § 165.23, entry into this zone is prohibited except as authorized by the Captain of the Port. The Captain of the Port, Memphis, Tennessee, will notify the maritime community of conditions affecting the area covered by this safety zone by Marine Safety Information Radio Broadcast on VHF Marine Band Radio, Channel 22 (157.1 MHz).

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 9

[FRL-5278-4]

OMB Approval Numbers Under the Paperwork Reduction Act

AGENCY: Environmental Protection Agency (EPA).

ACTION: Technical amendment.

SUMMARY: In compliance with the Paperwork Reduction Act, this document corrects the Office of Management and Budget (OMB) control numbers issued under the Paperwork Reduction Act (PRA) for Groundwater Monitoring Requirements.

EFFECTIVE DATE: August 17, 1995.

FOR FURTHER INFORMATION CONTACT: Liza Hearn, 703-308-7907.

SUPPLEMENTARY INFORMATION: EPA is today amending the table of currently approved information. Today's amendment is prompted by the discovery of an error in the Part 9 as it relates to the Groundwater Monitoring requirements. The affected regulation is codified at 40 CFR 264.97(j).

EPA will continue to present OMB control numbers in a consolidated table format to be codified in 40 CFR part 9 of the Agency's regulations, and in each volume of the Code of Federal Regulations (CFR) containing EPA regulations. The table lists the section numbers with reporting and recordkeeping requirements, and the current OMB control numbers. This display of the OMB control number(s) and its (their) subsequent codification in the CFR satisfies the requirements of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*) and OMB's implementing regulations at 5 CFR part 1320.

The Information Collection Request was previously subject to public notice and comment prior to OMB approval. As a result, EPA finds that there is "good cause" under section 553(b)(B) of the Administrative Procedure Act (5 U.S.C. 553(b)(B)) to amend this table without prior notice and comment. Due to the technical nature of the table, further notice and comment would be unnecessary. For the same reasons, EPA also finds that there is good cause under 5 U.S.C. 553(d)(3).
