

therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

[CA141–1–6899; FRL–5270–7]

Approval and Promulgation of State Implementation Plans; California—Ozone

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of proposed rulemaking.

SUMMARY: EPA proposes approval of certain provisions in the state implementation plan (SIP) revision submitted by the State of California. The California Air Resources Board (CARB) adopted these provisions on November 15, 1994, as part of "The 1994 California State Implementation Plan for Ozone." The portions of the SIP proposed for approval today are commitments by the CARB to adopt regulations for various mobile source and consumer product categories by particular dates to achieve specific emission reductions of volatile organic compounds (VOC) and oxides of nitrogen (NO_x) in order to attain the national ambient air quality standards (NAAQS) for ozone.

The effect of EPA's proposed approval of these commitments is to incorporate the commitments into the federally approved SIP. EPA proposes to approve the commitments under provisions of the Clean Air Act (CAA or "the Act") regarding EPA actions on SIP submittals and general rulemaking authority because these revisions strengthen the SIP.
