

voluntary Salmon Donation Program (SDP) being considered by the North Pacific Fishery Management Council (Council). This renewal authorizes the continuation of this EFP for 1 more year. During the extended effectiveness period of the EFP, NMFS will initiate review of proposed Amendments 26 and 29. If approved, these amendments would implement a permanent SDP for 1996 and beyond.

The procedures for renewing EFPs are contained in the regulations at § 672.6. NMFS received a request from NWFS to renew the EFP for an additional year on May 9, 1995. NMFS forwarded this request to the Alaska Fishery Science Center, which determined that this application constitutes a valid fishing experiment. NWFS informed the Council of its intent to renew the EFP for a year to allow for the continued collection of data regarding the feasibility of the SDP. After reviewing NWFS' request for a renewal at its June 1995 meeting, the Council recommended that the EFP be approved.

The Director, Alaska Region, NMFS (Regional Director) has reviewed the Council's recommendation and issued an EFP to NWFS and the participating vessels and shoreside processors. This EFP authorizes these vessels, shoreside processors, and NWFS to retain Pacific salmon caught as bycatch during following trawl fisheries: (1) The 1995 BSAI pollock non-roe season fishery; (2) the 1996 BSAI directed pollock roe season fishery; and (3) the 1996 BSAI directed Pacific cod fishery, for the purpose of providing salmon products to economically disadvantaged individuals via foodbanks.

Classification

The Regional Director determined that renewal of this EFP will not affect species listed as threatened or endangered, or areas that are critical habitat for these species under the Endangered Species Act in a way that was not already considered in previous formal and informal section 7 consultations.

This action is exempt from review under E.O. 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: August 7, 1995.

Richard W. Surdi,

Acting Director, Office of Fisheries Conservation and Management, National Marine Fisheries Service.
