Project Grant to the National Tuberculosis Controllers Association

SUMMARY: The Centers for Disease Control and Prevention (CDC) announces the availability of fiscal year (FY) 1995 grant funds for a sole source grant to the National Tuberculosis Controllers Association (NTCA). Approximately \$150,000 is available in FY 1995 to fund this grant. The award is expected to begin on or about September 30, 1995, for a 12-month budget period within a five year project period. The funding estimate is subject to change. Continuation awards within the project period will be made on the basis of satisfactory progress and the availability of funds.

The purpose of this grant is to assist NTCA in developing, establishing, and coordinating systems and procedures to enhance the role of State and local health department tuberculosis (TB) control officials (TB Controllers), TB Nurse Consultants and other key TB program staff, in directing efforts to control, prevent, and eventually eliminate TB in the United States.

The Public Health Service (PHS) is committed to achieving the health promotion and disease prevention objectives of "Healthy People 2000," a PHS-led national activity to reduce morbidity and mortality and improve the quality of life. This announcement is related to the priority areas of HIV Infection and Immunization and Infectious Diseases. (To order a copy of "Healthy People 2000," see the section "Where to Obtain Additional Information.")

Authority

This grant is authorized under Section 317E of the Public Health Service Act (42 U.S.C. 247b-6), as amended. Applicable program regulations are found in part 51b, subparts A, of Title 42, Code of Federal Regulations.

Smoke-Free Workplace

The PHS strongly encourages all grant recipients to provide a smoke-free workplace and to promote the non-use of all tobacco products, and Public Law 103-227, the Pro-Children Act of 1994, prohibits smoking in certain facilities that receive Federal funds in which education, library, day care, health care, and early childhood development services are provided to children.
