

In accepting the charge, the SAB agreed to establish a special subcommittee of the Executive Committee, with representatives of the relevant standing committees of the SAB, to review the draft document. EPEC's review of the draft document on September 7-8 will serve as input to the Executive Committee's Environmental Goals Subcommittee.

Additional Information: To obtain a meeting agenda, contact Ms. Constance Valentine, Science Advisory Board, 401 M Street, SW (1400F), Washington, DC 20460, telephone (202) 260-6552, FAX (202) 260-7118, or via the Internet at valentine.connie@epamail.epa.gov. To obtain a copy of the draft document, "Proposed Environmental Goals for America with Benchmarks for the Year 2005," please contact Judith Koontz, Office of Administration and Resources Management, US EPA, 401 M Street, SW., Mail Code 3102, Washington, DC 20460, telephone (202) 260-8608.

Anyone wishing to make an oral presentation to the Committee regarding any of the topics on the agenda must notify Stephanie Sanzone, Designated Federal Officer for EPEC, no later than September 1, 1995, at telephone (202) 260-6557, FAX (202) 260-7118, or via the INTERNET at sanzone.stephanie@epamail.epa.gov. The request should identify the name of the individual who will make the presentation and an outline of the issues to be addressed. Oral presentations will be limited to five minutes. Written comments (at least 30 copies) may be submitted to Ms. Sanzone up until the time of the meeting.

Dated: August 11, 1995.

Donald G. Barnes,

Staff Director, Science Advisory Board.

Toxics Release Inventory Phase 3; Chemical Use; Notice of Public Meeting

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA will hold a 2-day public meeting to receive public comments on whether to expand the reporting requirements of the Toxics Release Inventory (TRI) to include chemical use data.

DATES: The meeting will take place on September 19 and 20, 1995, at 9 a.m. at Waterside Towers, Conference Room, 907 6th St. SW., Washington, DC 20024.

FOR FURTHER INFORMATION CONTACT: The Toxic Substances Control Act Hotline, Environmental Assistance Division, Office of Pollution Prevention and Toxics, 7408, Environmental Protection Agency, 401 M St. SW., Washington, DC 20460, Telephone: (202) 554-1404, e-mail: TSCA-Hotline@epamail.epa.gov. Attention: Administrative Record No. AR 128.

SUPPLEMENTARY INFORMATION: On August 8, 1995, the President issued Executive Order 12969 (EO) which requires that companies providing supplies and services to the Federal Government shall be in compliance with the Emergency Planning and Community Right-to-Know Act of 1986 (EPCRA) and the Pollution Prevention Act of 1990 (PPA). According to the EO, these acts "established programs to protect public health and the environment by providing the public with important information on the toxic chemicals being released into the air, land and water in their communities by manufacturing facilities." In a memorandum to the Administrator of the U.S. Environmental Protection Agency and the Heads of Executive Departments and Agencies dated August 8, 1995, the President directed the Administrator to develop and implement "an expedited, open and transparent process for consideration of reporting under EPCRA on information on the use of toxic chemicals at facilities, including information on mass balance, materials accounting, or other chemical use data, pursuant to section 313(b)(1)(A) of EPCRA. . . . EPA shall report on the progress of this effort by October 1, 1995, with a goal of obtaining sufficient information to be able to make informed judgements concerning implementation of any appropriate program."

EPA began a review process last year and on September 2, 1994, the Agency made available to the public an issues paper entitled "Expansion of the Toxics Release Inventory (TRI) to gather chemical use information: TRI-Phase 3: Use Expansion." The paper was used to provide an overview of the issues which include input data such as the quantity of chemicals brought onsite, and out-put data such as the quantity consumed and the quantity sent off-site in products. EPA also sought to explore the issue of adding occupational demographics data elements to the TRI; the number of workers potentially exposed to a chemical, and whether or not occupational exposure monitoring has been performed. The issues paper served as the basis for discussion at a

public meeting held on September 28, 1994.

EPA has reviewed comments from the meeting, evaluated a variety of the issues mentioned and has produced an updated issues paper. The purpose of the second paper is to report back to stakeholders, to draw preliminary conclusions on some issues, to focus attention to important unresolved questions, and to provide a focus for discussion at the September 19-20, 1995 public meeting. Copies of this paper will be available Tuesday, September 5, 1995, from the address and telephone number listed under **FOR FURTHER INFORMATION CONTACT**. Oral statements will be scheduled on a first-come, first-served basis by calling the telephone number listed under **FOR FURTHER INFORMATION CONTACT**. EPA encourages meeting participants to provide written statements and to submit the statements in advance of the meeting. In order to schedule speakers and accommodate attendees, please contact EPA under **FOR FURTHER INFORMATION CONTACT** by September 12, 1995.

Public Meetings of the Storm Water Phase II Advisory Subcommittee and the Urban Wet Weather Flows Advisory Committee

AGENCY: Environmental Protection Agency.

ACTION: Notice.

SUMMARY: Notice is hereby given that the Environmental Protection Agency (EPA) is convening two separate public meetings: (1) The Storm Water Phase II Advisory Subcommittee meeting on September 11 and 12, 1995, and (2) the Urban Wet Weather Flows Advisory Committee (UWWF) meeting on September 20 and 21, 1995. These meetings are open to the public without need for advance registration. The Phase II Subcommittee is a subcommittee to the UWWF Advisory Committee. Phase II of the storm water program generally addresses storm water discharges from commercial, retail, light industrial, and institutional facilities, construction activities under five acres, and from
