DEPARTMENT OF LABOR**Bureau of Labor Statistics****Proposed Information Collection Request Submitted for Public Comment and Recommendations; Application for BLS Occupational Safety and Health Statistics Cooperative Agreement****ACTION:** Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995. This program helps to ensure that requested data can be provided in the desired format, reporting burden is minimized, reporting forms are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Bureau of Labor Statistics (BLS) is soliciting comments concerning the proposed extension of the "Application for BLS Occupational Safety and Health Statistics Cooperative Agreement." A copy of the proposed information collection request (ICR) can be obtained by contacting the individual listed below in the address section of this notice.

SUPPLEMENTARY INFORMATION:**I. Background**

The Secretary of Labor has delegated to BLS the authority to collect, compile and analyze statistical data on work-related injuries and illnesses. The Cooperative Agreement is designed to allow BLS to ensure conformance with program objectives. BLS has full authority over the financial operations of the statistical program. BLS requires financial reporting that will produce the information needed to monitor the financial activities of BLS Occupational Safety and Health Statistics grantees.

II. Current Actions

Continued collection of grantee financial information is necessary to maintain an effective program of collection, compilation, and analysis of occupational safety and health statistics, as authorized by the Occupational Safety and Health Act of 1970 (Pub. L. 91-596). The burden estimates are based on actual experience of grantees completing the forms.

Public comments on the accuracy of the burden estimates as well as suggestions for reducing the burden are encouraged. BLS plans to implement a system of electronic filing for these forms for 1997, which should reduce the burden of collection. Signatures certifying the authenticity of the information will continue to be required.

SUPPLEMENTARY INFORMATION:**I. Background**

This collection is a test of a new method of identifying and classifying occupations within an establishment. If successful, the new method could ultimately allow for joint collection of three separate statistical surveys of wage and benefit data; the Occupational Compensation Survey Program, the Employment Cost Index, and the Employee Benefits Survey. In addition to evaluating the results of the test for use in future surveys, BLS also will publish a bulletin containing the occupational earnings data collected.

II. Current Actions

The test will include establishments in the Albuquerque, New Mexico and Allentown, Pennsylvania metropolitan statistical areas, both in private industry and in State, Local or Tribal Government. It will be conducted in early 1996. Once each occupation has been selected and classified using the test methodology, earnings data for the occupation will be collected. A new data entry system using laptop computers also will be tested as part of the collection.
