BILLING CODE 3410-02-P

Forest Service

Inland Native Fish Strategy

ACTION: Notice of Availability of the Decision Notice on the Inland Native Fish Strategy Environmental Assessment and Finding of No Significant Impact.

SUMMARY: In the August 4, 1995, **Federal Register**, notice was given that the Regional Foresters for the Northern, Intermountain, and Pacific Northwest regions of the Forest Service have announced their decision on the Inland Native Fish Strategy. Based on public comment analysis and internal review, they have decided, with the support of the US Fish and Wildlife Service, to

select Alternative D as described in the Environmental Assessment for the Inland Native Fish Strategy.

In addition, the Regional Foresters have directed Inland Native Fish Strategy Team Leader David Wright to develop a strategy to apply the concepts and philosophy of Alternatives C and E on a limited test basis. Alternative D will be implemented for all of the areas outside the test watersheds. Application of Alternative D will provide the short-term reduction of risk we desire, while this test of Alternatives C and E will allow the Forest Service to develop the information needed to provide better long-term direction.

The Inland Native Fish Strategy covers approximately 25 million acres of National Forest System lands in eastern Washington and Oregon, Idaho, western Montana, and portions of Nevada. The Environmental Assessment for the strategy was distributed to the public in June for a 30-day review. A series of public hearings were held to allow ample opportunity for the public to share their concerns. All comments have been considered and incorporated into the decision.

Copies of the Decision Notice have been mailed to everyone on the Inland Native Fish Strategy mailing list. This decision notice reflects the final decision of the Forest Service. The decision may be appealed in accordance with the provisions identified in the Decision Notice. Legal ads have been published in designated newspapers announcing the availability of the document and the start of the appeal period. The appeal period will begin August 24 and end October 9, 1995.

FOR FURTHER INFORMATION CONTACT:

Questions about the Decision Notice, Finding of No Significant Impact, and Environmental Assessment should be directed to David Wright, Team Leader for the Inland Native Fish Strategy, USDA Forest Service, 3815 Schreiber Way, Coeur d'Alene, ID 83814. Phone: (208) 765-7223.

Dated: August 18, 1995.

David J. Wright,

Inland Native Fish Team Leader, USDA Forest Service.

BILLING CODE 3410-KD-P

Natural Resources Conservation Service

Black Creek Watershed, Holmes County, Mississippi

AGENCY: Natural Resources Conservation Service.

ACTION: Notice of Finding of No Significant Impact.

SUMMARY: Pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Regulations (40 CFR Part 1500); the Natural Resources Conservation Service Regulations (7 CFR Part 650); and the Natural Resources Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the floodwater retarding structure being added to Black Creek Watershed, Holmes County, Mississippi.

FOR FURTHER INFORMATION CONTACT: Homer L. Wilkes, State Conservationist, Natural Resources Conservation Service, Suite 1321, Dr. A. H. McCoy Federal Building, 100 West Capitol Street, Jackson, Mississippi 39269-1399, telephone (601) 965-5205.

SUPPLEMENTARY INFORMATION: The environmental assessment of this federally assisted action indicates that

the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Homer L. Wilkes, State Conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

The project proposals are to reduce flood damage to agricultural land, 30 houses and their outbuildings, streets, a county road and public utilities, and reduce damages to water quality and the fishery resources in Black Creek. This will be accomplished by the construction of a floodwater retarding structure.

The Notice of a Finding of No Significant Impact (FONSI) has been forwarded to the Environmental Protection Agency and to various Federal, State, and local agencies and interested parties.

A limited number of copies of the FONSI are available to fill single copy requests at the above address. Basic data developed during the environmental assessment are on file and may be reviewed by contacting Homer L. Wilkes.

No administrative action on implementation of the proposal will be taken until 30 days after the date of this publication in the **Federal Register**.

(This activity is listed in the Catalog of Federal Domestic Assistance under No. 10.904, Watershed Protection and Flood Prevention, and is subject to the provisions of Executive Order 12372, which requires intergovernmental consultation with State and local officials.)

Reginald M. Spears,

Acting State Conservationist.
