ACTION: Notice.

SUMMARY: This Notice identifies unutilized, underutilized, excess, and surplus Federal property reviewed by HUD for suitability for possible use to assist the homeless.

Department of Housing and Urban Development, 451 Seventh Street SW, Washington, DC 20410; telephone (202) 708-1226; TDD number for the hearing- and speech-impaired (202) 708-2565 (these telephone numbers are not toll-free), or call the toll-free Title V information line at 1-800-927-7588.

SUPPLEMENTARY INFORMATION:

In accordance with 56 FR 23789 (May 24, 1991) and section 501 of the Stewart B. McKinney Homeless Assistance Act (42 U.S.C. 11411), as amended, HUD is publishing this Notice to identify Federal buildings and other real property that HUD has reviewed for suitability for use to assist the homeless. The properties were reviewed using information provided to HUD by Federal landholding agencies regarding unutilized and underutilized buildings and real property controlled by such agencies or by GSA regarding its inventory of excess or surplus Federal property. This Notice is also published in order to comply with the December 12, 1988 Court Order in *National Coalition for the Homeless v. Veterans Administration*, No. 88-2503-OG (D.D.C.).

Properties reviewed are listed in this Notice according to the following categories: Suitable/available, suitable/unavailable, suitable/to be excess, and unsuitable. The properties listed in the three suitable categories have been reviewed by the landholding agencies, and each agency has transmitted to HUD: (1) Its intention to make the property available for use to assist the homeless, (2) its intention to declare the property excess to the agency's needs, or (3) a statement of the reasons that the property cannot be declared excess or made available for use as facilities to assist the homeless.

Properties listed as suitable/available will be available exclusively for homeless use for a period of 60 days from the date of this Notice. Homeless assistance providers interested in any such property should send a written expression of interest to HHS, addressed to Brian Rooney, Division of Health Facilities Planning, U.S. Public Health Service, HHS, room 17A-10, 5600 Fishers Lane, Rockville, MD 20857; (301) 443-2265. (This is not a toll-free number.) HHS will mail to the interested provider an application packet, which will include instructions for completing the application. In order to maximize the opportunity to utilize a suitable property, providers should submit their written expressions of interest as soon as possible. For complete details concerning the processing of applications, the reader is

encouraged to refer to the interim rule governing this program, 56 FR 23789 (May 24, 1991).

For properties listed as suitable/to be excess, that property may, if subsequently accepted as excess by GSA, be made available for use by the homeless in accordance with applicable law, subject to screening for other Federal use. At the appropriate time, HUD will publish the property in a Notice showing it as either suitable/available or suitable/unavailable.

For properties listed as suitable/unavailable, the landholding agency has decided that the property cannot be declared excess or made available for use to assist the homeless, and the property will not be available.

Properties listed as unsuitable will not be made available for any other purpose for 20 days from the date of this Notice. Homeless assistance providers interested in a review by HUD of the determination of unsuitability should call the toll free information line at 1-800-927-7588 for detailed instructions or write a letter to Mark Johnston at the address listed at the beginning of this Notice. Included in the request for review should be the property address (including zip code), the date of publication in the **Federal Register**, the landholding agency, and the property number.

Office of Lead-Based Paint Abatement and Poisoning Prevention

[Docket No. FR-3939-N-01]

Guidelines for the Evaluation and Control of Lead-Based Paint Hazards in Housing

AGENCY: Office of Lead-Based Paint Abatement and Poisoning Prevention, HUD.

ACTION: Notice of availability of new Guidelines.

SUMMARY: The "Guidelines for the Evaluation and Control of Lead-Based Paint Hazards in Housing" provide detailed, comprehensive, technical information on how to identify lead-based paint hazards in housing and how to control such hazards safely and efficiently. The goal of the document is to help property owners, private contractors, and Government agencies sharply reduce children's exposure to lead without unnecessarily increasing the cost of housing. This notice describes the content and availability of the Guidelines.

DATES: The Guidelines will be available August 25, 1995.

ADDRESSES: For copies of the Guidelines, contact HUD USER at P.O. Box 6091, Rockville, MD 20850. Additional information on purchasing the Guidelines, including cost and ordering by telephone, is provided under the heading "Supplementary Information" in this notice.

FOR FURTHER INFORMATION CONTACT: William Wisner, Planning and Standards Division, Office of Lead-Based Paint Abatement and Poisoning Prevention, Room B-133, Department of Housing and Urban Development, 451 Seventh Street, SW, Washington, DC 20410; telephone (202) 755-1805, extension 107; or 1-800-877-8339 (TDD). (Only the "800" TDD number is toll-free.)

SUPPLEMENTARY INFORMATION: The Guidelines for the Evaluation and Control of Lead-Based Paint Hazards in Housing (Guidelines) are issued pursuant to section 1017 of the Residential Lead-Based Paint Hazard Reduction Act of 1992, which is often referred to as Title X (pronounced "title ten"), because it was enacted as Title X of the Housing and Community

Development Act of 1992 (Pub. L. 102-550, 106 Stat. 3897; 42 U.S.C. 4851 et seq.). The Guidelines are based on the concepts, definitions, and requirements set forth by Congress in Title X. The Department prepared the Guidelines in close consultation with the Environmental Protection Agency, the Centers for Disease Control, the Occupational Safety and Health Administration, and several other Federal agencies.

General Description

Section 1017 requires the Secretary to issue guidelines for the conduct of federally supported work involving risk assessments, inspections, interim controls, and abatement of lead-based paint hazards. Therefore, the primary purpose of the document is to provide guidance to people involved in identifying and controlling lead-based paint hazards in housing that is associated with the Federal Government. The Guidelines may also be useful to individuals in housing that has no connection with the Federal Government, as well as day-care centers and public buildings that exhibit conditions similar to those in residential structures.

Evaluation and control of lead-based paint hazards is an evolving field. Recognizing that problems require answers, the Guidelines offer advice based on the experience and considered judgment of the authors and reviewers. Whenever possible, the Guidelines explain the rationale for recommendations and provide a technical description of the action to be taken. For cases in which research has demonstrated that certain techniques are appropriate, references are cited. For cases in which citations are not provided, the reader should assume that it is the best advice that HUD can provide at this time.

Contents of Guidelines

A short summary of steps is provided at the beginning of each technical chapter to alert the reader to especially critical points and action steps. In general, the material is presented in each chapter in order of the sequence in a typical lead project. Photographs and technical graphics are used throughout the document and Appendices are also included. The document contains 680 pages. It is unbound and pages are pre-punched for use in a three ring binder (not provided). The shrink-wrapped package also contains a multi-color front cover, back cover, and spine (for use in binders with clear plastic overlays on front, back and spine.)
