

defined as "concentrated" in 40 CFR 122 Appendix B are as follows:

1. New and existing operations which stable or confine and feed or maintain for a total of 45 days or more in any 12-month period more than the numbers of animals specified in any of the following categories:

- a. 1,000 slaughter or feeder cattle;
- b. 700 mature dairy cattle (whether milkers or dry cows);
- c. 2,500 swine weighing over 55 pounds each;
- d. 500 horses;
- e. 10,000 sheep or lambs;
- f. 55,000 turkeys;
- g. 100,000 laying hens or broilers when the facility has unlimited continuous low watering systems;
- h. 30,000 laying hens or broilers when facility has liquid manure handling system;
- i. 5,000 ducks; or
- j. 1,000 animal units.

2. New and existing operations which discharge pollutants into waters of the United States either through a man-made ditch, flushing system, or other similar man-made device, or directly into waters of the United States, and which stable or confine and feed or maintain for a total of 45 days or more in any 12-month period more than the numbers or types of animals in the following categories:

- a. 300 slaughter or feeder cattle;
- b. 200 mature dairy cattle (whether milkers or dry cows);
- c. 750 swine weighing over 55 pounds;
- d. 150 horses;
- e. 3,000 sheep or lambs;
- f. 16,000 turkeys;
- g. 30,000 laying hens or broilers when the facility has unlimited continuous flow watering systems;
- h. 9,000 laying hens or broilers when facility has a liquid manure handling system;
- i. 1,500 ducks; or
- j. 300 animal units (from a combination of slaughter steers and heifers, mature dairy cattle, swine over 55 pounds and sheep).

Provided, however, that no animal feeding operation is a CAFO as defined above if such animal feeding operation discharges only in the event of a 25-year, 24-hour storm event.

I. *Control Facility* means any system used for the retention of all wastes on the premises until their ultimate disposal. This includes the retention of manure, liquid waste, and runoff from the feedlot area.

J. *Director* means the Regional Administrator of EPA.

K. *Feedlot* means a concentrated, confined animal or poultry growing operation for meat, milk, or egg production, or stabling, in pens or houses wherein the animals or poultry are fed at the place of confinement and crop or forage growth or production is not sustained in the area of confinement.

L. *Ground Water* means any subsurface waters.

M. *Hydrologic Connection* means the flow between surface impoundments and surface water by means of a subsurface conveyance.

N. *Land Application* means the removal of wastewater and waste solids from a control facility and distribution to, or incorporation into the soil.

O. *Process Wastewater* means any process generated wastewater directly or indirectly

used in the operation of a feedlot (such as spillage or overflow from animal or poultry watering systems; washing, cleaning, or flushing pens, barns, manure pits, direct contact swimming, washing, or spray cooling of animals; and dust control) and any precipitation which comes into contact with any manure or litter, bedding, or any other raw material or intermediate or final material or product used in or resulting from the production of animals or poultry or direct products (e.g., milk, eggs).

P. *Severe Property Damage* means substantial physical damage to property, damage to the treatment facilities which causes them to become inoperable, or substantial and permanent loss of natural resources which can reasonably be expected to occur in the absence of a bypass. Severe property damage does not mean economic loss caused by delays in production.

Q. *The Act* means Federal Water Pollution Control Act as amended, also known as the Clean Water Act, found at 33 USC 1251 *et seq.*

R. *Toxic Pollutants* mean any pollutant listed as toxic under section 307(a)(1) of the Act.

S. *Waters of the United States*. See 40 CFR 122.2.

Appendix A

Animal Units Calculations

"Animal unit" is a term defined by the regulations and varies according to animal type; one animal is not always equal to one animal unit. Conversion to animal units is a procedure used to determine pollution equivalents among the different animal types; dairy cows produce more waste than sheep. This calculation is used on facilities with more than one animal type onsite.

The number of animal units is calculated as follows:

- number of slaughter and feeder cattle multiplied by 1.0, plus,
- number of mature dairy cattle multiplied by 1.4, plus,
- number of dairy heifers cattle multiplied by 1.0, plus,
- number of swine weighing over 55 pounds multiplied by 0.4, plus,
- number of sheep multiplied by 0.1, plus,
- number of horses multiplied by 2.0.

Example 1: Determine the number of animal units on a dairy operation which maintains 650 mature dairy cows and 300 dairy heifers.

$$[(\# \text{ mature cows})(1.4) + (\# \text{ heifers})(1.0)] = \text{animal units}$$

$$[(650 \times 1.4) + (300 \times 1.0)] = 1210 \text{ animal units.}$$

Such a facility exceeds the 1000 animal units as established in Part I.C.4. of this permit, thus this facility is a CAFO and is subject to NPDES requirements.

Example 2: Determine the number of animal units on a feeding operation which maintains 650 slaughter cattle, 100 horses, and 1000 sheep.

$$[(650 \times 1.0) + (100 \times 2) + (1000 \times 0.1)] = 950 \text{ animal units.}$$

This facility does not exceed the 1000 animal units required to be a CAFO in Part

I.C.4. of this permit. However, it can be classified as a CAFO under Part I.C.5. of this permit if pollutants are discharged through a man-made conveyance or if pollutants are discharged directly to waters of the U.S. If this situation occurs, discharges are subject to NPDES requirements.

Appendix B

Significant Contributor of Pollutants

Definition

"Significant Contributor of Pollutants" (SCP) is a designation of an animal feeding operation made by the Director on a case-by-case basis. The purpose of this designation is to regulate animal feeding operations that are not automatically classified as CAFOs in Part I.C. of the permit and have the potential of causing environmental harm.

Designation Procedure

—SCP determinations can only be conducted after an onsite inspection.

—The following factors are considered when making an SCP determination:

- a. The size of the animal feeding operation and the amount of wastes reaching waters of the United States,
- b. The location of the animal feeding operation relative to waters of the United States,
- c. The means of conveyance of animal wastes and process wastewater to waters of the United States,
- d. The slope, vegetation, rainfall, and other factors affecting the likelihood or frequency of discharge of animal wastes and process wastewater into waters of the United States, and
- e. Other relevant factors.

—An animal feeding operation is a CAFO upon notification by the Director.

Appendix C

Notice of Intent (Application) Information Requirements

The Application to be covered by this permit shall include the following:

1. Previous NPDES permit number if applicable,
2. Facility owner's name, address and telephone number,
3. Facility operator's name, address and telephone number,
4. Types of waste handling practices currently used for processing wastes (such as containment in a waste storage pond plus land application),
5. Name of receiving water(s) to which wastewaters are (or may be) discharged from the facility (receiving waters include canals, laterals, rivers, streams, etc.),
6. The type and number of animals confined, and
7. A sketch of the operation, including control facilities, diversion ditches, building structures, feeding areas, slope, direction of overland and surface water flow, and proximity to surface waters.

BILLING CODE 6560-50-P

FEDERAL COMMUNICATIONS COMMISSION**Public Information Collection
Approved by Office of Management
and Budget**

August 21, 1995.

The Federal Communications Commission (FCC) has received Office of Management and Budget (OMB) approval for the following public information collections pursuant to the Paperwork Reduction Act of 1980, Pub. L. 96-511. You are not required to respond to a collection of information unless it displays a currently valid control number. For further information contact Shoko B. Hair, Federal Communications Commission, (202) 418-1379.

Federal Communications Commission

OMB Control No.: 3060-0166.

Expiration Date: 08/31/98.

Title: Preservation of Records of Communication Common Carriers, Part 42.

Estimated Annual Burden: 136 total annual hours; 2 hours per response; 68 respondents.

Description: Part 42 prescribes the regulations governing the preservation of records of communications common carriers that are fully subject to the jurisdiction of the FCC. The requirements are necessary to ensure the availability of carrier records needed by Commission staff for regulatory purposes.

OMB Control No.: 3060-0515.

Expiration Date: 08/31/98.

Title: Miscellaneous Common Carrier and Record Carrier Annual Letter Filing Requirement—Section 43.21(d).

Estimated Annual Burden: 38 total annual hours; 1.35 hours per response; 28 respondents.

Description: Pursuant to 47 CFR Section 43.21(d) each miscellaneous common carrier with operating revenues of \$100 million for a calendar year shall file with the Common Carrier Bureau Chief a letter showing its operating revenues for that year and the value of its total communications plant at the end of that year. Each record carrier with operating revenues over \$75 million for a calendar year shall file a letter showing selected income statement and balance sheet items for that year with the Common Carrier Bureau Chief. These letters must be filed by March 31 of the following year.

OMB Control No.: 3060-0470.

Expiration Date: 08/31/98.

Title: Computer III Remand Proceeding: Bell Operating Company Safeguards and Tier 1 Local Exchange

Company Safeguards and Implementation of Further Cost—CC Docket No. 90-623.

Estimated Annual Burden: 27,000 total annual hours; 300 hours per response; 18 respondents.

Description: Pursuant to 47 CFR 64.901 carriers are required to separate their regulated costs from nonregulated cost using the attributable cost method of cost allocation. Carriers must follow the principles described in Section 64.901. Carriers subject to 47 CFR 64.901 are also subject to the provisions of 47 CFR Sections 32.23 and 32.27. See 47 CFR 64.902. 47 CFR Section 64.903 requires local exchange carriers with annual operating revenues of \$100 million or more to file cost allocation manuals. The manuals are used by Commission staff to detect improper cross-subsidization. A Memorandum Opinion and Order, adopted 6/23/93; released 7/01/93, issued by the Chief, Common Carrier Bureau adopted cost allocation uniformity requirements.

OMB Control No.: 3060-0391.

Expiration Date: 08/31/98.

Title: Monitoring Program for Impact of Federal-State Joint Board Decisions.

Estimated Annual Burden: 1376 total annual hours; 2.02 hours per response; 678 respondents.

Description: The Commission has monitoring program which requires the periodic reporting by telephone companies and the National Exchange Carrier Association. The information is used by the Commission, Joint Board, Congress and the general public to assess the impact of several Joint Board decisions.

Federal Communications Commission.

William F. Caton,

Acting Secretary.

BILLING CODE 6712-01-F

FEDERAL FINANCIAL INSTITUTIONS EXAMINATION COUNCIL**Appraisal Subcommittee; Information Collection Revision Submitted for OMB Review**

AGENCY: Appraisal Subcommittee, Federal Financial Institutions Examination Council.

ACTION: Notice of information collection revision submitted to OMB for review and approval under the Paperwork Reduction Act of 1980.

SUMMARY: In accordance with the Paperwork Reduction Act of 1980 (44 U.S.C. Chapter 35), the Appraisal Subcommittee of the Federal Financial

Institutions Examination Council ("ASC") has sent to the Office of Management and Budget ("OMB") the following revision of a currently approved collection of information.

DATES: Comments on this information collection must be received on or before September 27, 1995.

ADDRESSES: Send comments to Edwin W. Baker, Executive Director, Appraisal Subcommittee, 2100 Pennsylvania Avenue NW., Suite 200, Washington, DC 20037; and Milo Sunderhauf, Clearance Officer, Office of Management and Budget, New Executive Office Building, Room 10226, Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT:

Marc L. Weinberg, General Counsel, Appraisal Subcommittee, 2100 Pennsylvania Avenue, NW., Suite 200, Washington, DC 20037, from whom copies of the information collection and supporting documents are available.

Summary of Revision

Title: 12 CFR part 1102, subpart C; Rules pertaining to the privacy of individuals and systems of records maintained by the Appraisal Subcommittee.

Type of Review: Expedited submission—approval requested by September 29, 1995.

Description: The information will be used by the ASC and its staff in determining whether to grant to an individual access to records pertaining to that individual and whether to amend or correct ASC records pertaining to that individual under the Privacy Act of 1974 (5 U.S.C. § 552a).

Form Number: None.

OMB Number: 3139-0004.

Affected Public: Individuals and households.

Number of Respondents: 50 respondents.

Total Annual Responses: 50 responses.

Average Hours Per Response: .33 hours.

Total Annual Burden Hours: 16.67 hours.

By the Appraisal Subcommittee of the Federal Financial Institutions Examination Council.

Dated: August 22, 1995.

Edwin W. Baker,

Executive Director.
