Chrome-Plated Lug Nuts From Taiwan; Final Results of Antidumping Duty Administrative Review and Termination in Part

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of final results of antidumping duty administrative review and termination in part.

SUMMARY: On December 19, 1994, the Department of Commerce (the Department) published the preliminary results of administrative review of the antidumping duty order on chrome-plated lug nuts from Taiwan. The review covers seven firms and the period September 1, 1992, through August 31, 1993. Based on our analysis of the comments received, we determine the dumping margins have not changed from those presented in the preliminary results.

EFFECTIVE DATE: August 29, 1995.

FOR FURTHER INFORMATION CONTACT: Todd Peterson or Thomas Futtner, Office of Antidumping Compliance, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20230; telephone (202) 482-4195 or 482-3814, respectively.

Applicable Statute and Regulations

The Department is conducting this review in accordance with section 751(a) of the Tariff Act of 1930, as amended (Act). Unless otherwise indicated, all citations to the statute and to the Department's regulations are in reference to the provisions as they existed on December 31, 1994.

Background

On December 19, 1994, the Department published the preliminary results (59 FR 65317) of its administrative review of the antidumping duty order on chrome plated lug nuts from Taiwan (September 20, 1991, 56 FR 47737). The Department has now completed this administrative review in accordance with section 751 of the Act.

Scope of the Review

The merchandise covered by this review is one-piece and two-piece chrome-plated lug nuts, finished or unfinished, which are more than $1\frac{1}{16}$ inches (17.45 millimeters) in height and which have a hexagonal (hex) size of at least $\frac{3}{4}$ inches (19.05 millimeters) but not over one inch (25.4 millimeters), plus or minus $\frac{1}{16}$ of an inch (1.59 mm). The term "unfinished" refers to unplated and/or unassembled chrome-plated lug nuts. The subject merchandise is used for securing wheels to cars, vans, trucks, utility vehicles, and trailers. Zinc-plated lug nuts, finished or unfinished, and stainless-steel capped lug nuts are not in the scope of this review. Chrome-plated lock nuts are also not in the scope of this review.

During the period of review, chrome-plated lug nuts were provided for under subheading 7318.16.00.00 of the Harmonized Tariff Schedule (HTS). Although the HTS subheading is provided for convenience and Customs purposes, our written description of the scope of this review is dispositive. This review covers seven firms; Gourmet Equipment (Taiwan) Corporation (Gourmet), Buxton International Corporation (Buxton), Chu Fong Metallic Industrial Works Co, Ltd, Transcend International, Kuang Hong Industrial Works, San Chien Industrial Works, Ltd, and Everspring Corporation, and the period September 1, 1993, through August 31, 1994.

Analysis of Comments Received

We invited interested parties to comment on the preliminary results. We received timely comments from one respondent, Buxton, and rebuttal comments from the petitioner, Consolidated International Automotive.

Comment

Respondent believes that the Department's use of overall best information available (BIA) to determine Buxton's preliminary margin was unsupported by the facts and not in accordance with the Department's past practice.

Buxton believes that its disclosure of several "minor pieces of data" not traceable to its audited financial statements is "normal business practice" and should not be seen as a deficiency. Buxton points to the Department's use of Sweaters Wholly or in Chief Weight of Man-Made Fiber from Taiwan; Final Results of Changed Circumstances Antidumping Duty Administrative Review, 58 FR 32644 (June 11, 1993) to justify its claim that
