#### SUPPLEMENTARY INFORMATION:

##### Background

Restoring an endangered or threatened animal or plant to the point where it is again a secure, self-sustaining member of its ecosystem is a primary goal of the U.S. Fish and Wildlife Service's endangered species program. To help guide the recovery effort, the Service is working to prepare recovery plans for most of the listed species native to the United States. Recovery plans describe actions considered necessary for conservation of the species, establish them, and estimate time and cost for implementing the recovery measures needed.

The Endangered Species Act of 1973 (Act), as amended (16 U.S.C. 1531 *et seq.*) requires the development of recovery plans for listed species unless such a plan would not promote the conservation of a particular species. Section 4(f) of the Act, as amended in 1988, requires that public notice and an opportunity for public review and comment be provided during recovery plan development. The Service and

other Federal agencies will also take these comments into account in the course of implementing approved recovery plans.

This Technical/Agency Draft is for the yellow-shouldered blackbird, which is endemic to the island of Puerto Rico. This species is endemic to Puerto Rico and Mona Island. In the past, this species was considered abundant and widespread in Puerto Rico. At present, the species is restricted to a few localities in southwestern, southern and eastern Puerto Rico, and to Mona and Monito Islands. A maximum of 500 individuals have been reported from southwestern Puerto Rico. Approximately 400 individuals are known from Mona Island, 20 individuals have been sighted in Salinas, and one individual was sighted in Roosevelt Roads Naval Station. Nesting yellow-shouldered blackbirds use a variety of habitats: mud flats and salinas, mangrove forests and cays, coastal upland dry forest, palm trees, suburban areas, artificial structures and coastal cliffs. The species is threatened by shiny-cowbird parasitism, habitat destruction and modification, nest predation, parasitism and diseases.

#### Public Comments Solicited

The Service solicits written comments on the recovery plan described. All comments received by the date specified above will be considered prior to approval of the plan.

**Authority:** The authority for this action is Section 4(f) of the Endangered Species Act, 16 U.S.C. 1533(f).

Dated: August 18, 1995.

## DEPARTMENT OF JUSTICE

### Information Collections Under Review

The Office of Management and Budget (OMB) has been sent the following collection(s) of information proposals for review under the provisions of the Paperwork Reduction Act (44 USC Chapter 35) and the Paperwork Reduction Reauthorization Act since the last list was published. Entries are grouped into submission categories, with each entry containing the following information:

- (1) the title of the form/collection;
- (2) the agency form number, if any, and the applicable component of the Department sponsoring the collection;
- (3) who will be asked or required to respond, as well as a brief abstract;
- (4) an estimate of the total number of respondents and the amount of time estimated for an average respondent to respond;
- (5) an estimate of the total public burden (in hours) associated with the collection; and,
- (6) an indication as to whether Section 3504(h) of Public Law 96-511 applies.

Comments and/or suggestions regarding the item(s) contained in this notice, especially regarding the estimated public burden and associated response time, should be directed to the OMB reviewer, Mr. Jeff Hill, on (202) 395-7340 AND to the Department of Justice's Clearance Officer, Mr. Robert B. Briggs, on (202) 514-4319. If you anticipate commenting on a form/

collection, but find that time to prepare such comments will prevent you from prompt submission, you should notify the OMB reviewer AND the Department of Justice Clearance Officer of your intent as soon as possible. Written comments regarding the burden estimate or any other aspect of the collection may be submitted to Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503, AND to Mr. Robert B. Briggs, Department of Justice Clearance Officer, Systems Policy Staff/ Information Resources Management/ Justice Management Division, Suite 850, WCTR, Washington, DC 20530.

### *Extension of a Currently Approved Collection*

(1) Application for Employment—Federal Bureau of Investigation.

(2) Form FD-140. Federal Bureau of Investigation, United States Department of Justice.

(3) Primary: Individuals or households. Other: None. In March, 1995, the Office of Management and Budget (OMB) approved a revised Standard Form 85, "Questionnaire for National Security Positions," pursuant to the Paperwork Reduction Act, as the exclusive form to be used by all federal agencies for investigations, preliminary to granting an individual access to classified national security information. Further, the scope of the investigation conforms to the scope of the questions on the new standard form (i.e., a seven year scope). The presumption is that the information collected on the new form is sufficient for agency purposes. However, if agencies need to collect additional information or use an alternate form, OMB's approval will be required. At the present time, all FBI employees occupy special sensitive positions and are required to possess a "Top Secret" security clearance. All applicants (for employment) complete an FBI application form (FD-140), rather than a Standard Form 85. The FD-140 serves the dual purpose of addressing suitability as well as security issues/concerns and calls for an investigative scope beyond the seven-year scope of the revised Standard Form 86.

(4) 50,000 annual respondents 2.0 hours per response.

(5) 100,000 annual burden hours.

(6) Not applicable under section 3504(h) of Public Law 96-511.

Public comment on this item is encouraged.
