**SunTrust Banks, Inc.; Notice of Application to Engage de novo in Permissible Nonbanking Activities**

The company listed in this notice has filed an application under § 225.23(a)(1) of the Board's Regulation Y (12 CFR 225.23(a)(1)) for the Board's approval under section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.21(a) of Regulation Y (12 CFR 225.21(a)) to commence or to engage *de novo*, either directly or through a subsidiary, in a nonbanking activity that is listed in § 225.25 of Regulation Y as closely related to banking and permissible for bank holding companies. Unless otherwise noted, such activities will be conducted throughout the United States.

The application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

Comments regarding the application must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than September 12, 1995.

## Centers for Disease Control and Prevention

[Announcement 605]

### Grants for Injury Control Research Centers Notice of Availability Of Funds for Fiscal Year 1996

#### Introduction

The Centers for Disease Control and Prevention (CDC) announces that grant applications are being accepted for Injury Control Research Centers (ICRC's). The Public Health Service (PHS) is committed to achieving the health promotion and disease prevention objectives of "Healthy

People 2000," a PHS-led national activity to reduce morbidity and mortality and improve the quality of life. This announcement is related to the priority areas of Violent and Abusive Behavior and Unintentional Injuries. For ordering a copy of "Healthy People 2000," see the Section **WHERE TO OBTAIN ADDITIONAL INFORMATION.**

#### Authority

This program is authorized under Sections 301 and 391-394A of the Public Health Service Act (42 U.S.C. 241 and 280b-280b-3). Program regulations are set forth in 42 CFR, Part 52.

#### Smoke-Free Workplace

PHS strongly encourages all grant recipients to provide a smoke-free workplace and to promote the nonuse of all tobacco products, and Public Law 103-227, the Pro-children Act of 1994, prohibits smoking in certain facilities that receive Federal funds in which education, library, day care, health care, and early childhood development services are provided to children.

#### Eligible Applicants

Eligible applicants include all nonprofit and for-profit organizations. Thus, universities, colleges, research institutions, hospitals, other public and private organizations, State and local health departments, and small, minority and/or women-owned businesses are eligible for these grants. Applicants from non-academic institutions should provide evidence of a collaborative relationship with an academic institution. Current recipients of CDC injury control research center grants and injury control research program project grants are eligible to apply for continued support.

#### Availability of Funds

Approximately \$2,250,000 is expected to be available in fiscal year (FY) 1996 to fund approximately three new or re-competing center awards. Should additional funds become available, priority will be given to funding currently approved/unfunded work at existing ICRCs. New awards can be made for a project period not to exceed three years, and re-competing continuation awards can be made for a project period not to exceed five years. The amount of funding available may vary and is subject to change. Beginning award dates for each submission are shown in the "Receipt and Review Schedule" section of this announcement. Continuation awards within the project period will be made on the basis of satisfactory progress and the availability of funds.

New center grant awards will not exceed \$500,000 per year (*total of direct and indirect costs*) with a project period not to exceed three years. Depending on availability of funds, re-competing center awards may range from \$750,000 to \$1,500,000 per year (*total of direct and indirect costs*) with a project period not to exceed five years. The range of support provided is dependent upon the degree of comprehensiveness of the center in addressing the *phases of injury control (i.e., Prevention, Acute Care, and Rehabilitation)* as determined by the Injury Research Grants Review Committee (IRGRC).

Incremental levels within this range for successfully re-competing ICRC's will be determined as follows:

Base funding (included in figures below) Up to \$750,000

One phase ICRC (addresses one of the three phases of injury control) Up to \$1,000,000

Two phase ICRC (addresses two of the three phases of injury control) Up to \$1,250,000

Comprehensive ICRC (addresses all three phases of injury control) Up to \$1,500,000

Subject to program needs and the availability of funds, supplemental awards to expand/enhance existing projects, to add a new phase(s) to an existing ICRC grant, or to add biomechanics project(s) that support phases may be made for up to \$250,000 per year.

#### Purpose

The purposes of this program are:

A. To support injury prevention and control research on priority issues as delineated in: *Healthy People 2000; Injury Control in the 1990's: A National Plan for Action; Injury in America; Injury Prevention: Meeting the Challenge;* and *Cost of Injury: A Report to the Congress*. Information on these reports may be obtained from the individuals listed in the section **WHERE TO OBTAIN ADDITIONAL INFORMATION;**

B. To support ICRC's which represent CDC's largest national extramural investment in injury control research and training, intervention development, and evaluation;

C. To integrate collectively, in the context of a national program, the disciplines of engineering, epidemiology, medicine, biostatistics, public health, law and criminal justice, and behavioral and social sciences in order to prevent and control injuries more effectively;

D. To identify and evaluate current and new interventions for the prevention and control of injuries;
