

not dispositive of whether the transaction is in fact a prohibited transaction; and

(3) The availability of these exemptions is subject to the express condition that the material facts and representations contained in each application are true and complete and accurately describe all material terms of the transaction which is the subject of the exemption. In the case of continuing exemption transactions, if any of the material facts or representations described in the application change after the exemption is granted, the exemption will cease to apply as of the date of such change. In the event of any such change, application for a new exemption may be made to the Department.

Signed at Washington, D.C., this 24th day of August, 1995.

Ivan Strasfeld,

*Director of Exemption Determinations,
Pension and Welfare Benefits Administration,
U.S. Department of Labor.*

BILLING CODE 7555-01-M

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-321 and 50-366]

Georgia Power Co., et al.; Partial Withdrawal of Application for Amendments to Facility Operating Licenses

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of Georgia Power Company, et al. (the licensee), to withdraw a proposed revision to the local power range monitor (LPRM) calibration frequency which was included in its February 25, 1994, application for proposed amendments to Facility Operating License Nos. DRP-57 and NPR-5 for the Hatch Nuclear Plant, Unit Nos. 1 and 2, located in Appling County, Georgia.

The Commission had previously issued a Notice of Consideration of Issuance of Amendments published in the **Federal Register** on August 18, 1995 (59 FR 42607).

The amendments, which were issued March 3, 1995, replaced the previous Technical Specifications and associated Bases with a set based on the new Boiling Water Reactor (BWR) Owners Group Standard Technical Specifications, NUREG-1433, "Standard Technical Specifications General Electric Plants, BWR/4." However, the increase of the LPRM calibration frequency could not be approved without further justification because it was outside the scope of the conversion to NUREG-1433.

By letter dated August 7, 1995, the licensee requested that the LPRM revision be withdrawn, and stated that it would pursue the change as a separate issue.

For further details with respect to this action, see (1) the application for amendments dated February 25, 1995, as supplemented by letters dated July 8, August 8 and 31, September 23, October 19, and November 1, 1994, and January 19, 1995 (two letters), (2) Amendments 195 and 135 to Facility Operating Licenses DPR-57 and NPF-5 dated

March 3, 1995, and (3) the licensee's letter dated August 7, 1995, which withdrew the proposed revision to the LPRM calibration frequency. The above documents are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, and at the local public document room located at the Appling County Public Library, 301 City Hall Drive, Baxley, Georgia.

Dated at Rockville, Md., this 22nd day of August, 1995.

For the Nuclear Regulatory Commission.

Kahtan N. Jabbour,

Project Manager, Project Directorate II-2, Division of Reactor Projects-I/II, Office of Nuclear Reactor Regulation.
