

statutory and regulatory requirements established by RCRA. Accordingly, Georgia is granted final authorization to operate its hazardous waste program as revised.

Compliance With Executive Order 12866

The Office of Management and Budget has exempted this rule from the requirements of Section 6 of Executive Order 12866.

Certification Under the Regulatory Flexibility Act

Pursuant to the provisions of 5 U.S.C. 605(b), I hereby certify that this authorization will not have a significant economic impact on a substantial number of small entities. This authorization effectively suspends the applicability of certain Federal regulations in favor of Georgia's program, thereby eliminating duplicative requirements for handlers of hazardous waste in the State. It does not impose any new burdens on small entities. This rule, therefore, does not require a regulatory flexibility analysis.

[FRL-5286-2]

Mississippi; Final Authorization of Revisions to State Hazardous Waste Management Program

AGENCY: Environmental Protection Agency.

ACTION: Immediate final rule.

SUMMARY: Mississippi has applied for final authorization of revisions to its hazardous waste program under the Resource Conservation and Recovery Act (RCRA). Mississippi's revisions consist of provisions contained in RCRA Cluster III. These requirements are listed

in Section B of this notice. The Environmental Protection Agency (EPA) has reviewed Mississippi's application and has made a decision, subject to public review and comment, that Mississippi's hazardous waste program revisions satisfy all of the requirements necessary to qualify for final authorization. Thus, EPA intends to approve Mississippi's hazardous waste program revisions. Mississippi's application for program revisions is available for public review and comment.

DATES: Final authorization for Mississippi's program revisions shall be effective October 30, 1995 unless EPA publishes a prior **Federal Register** action withdrawing this immediate final rule. All comments on Mississippi's program revision application must be received by the close of business, September 29, 1995.

ADDRESSES: Copies of Mississippi's program revision application are available during 8:00am to 4:30pm at the following addresses for inspection and copying: Mississippi Department of Environmental Quality, 2380 Highway 80 West, P.O. Box 10385, Jackson, Mississippi 39209; (601) 961-5062; U.S. EPA, Region 4, Library, 345 Courtland Street, NE, Atlanta, Georgia 30365; (404) 347-4216. Written comments should be sent to Al Hanke at the address listed below.

FOR FURTHER INFORMATION CONTACT: Al Hanke, Chief, State Programs Section, Waste Programs Branch, Waste Management Division, U.S. Environmental Protection Agency, 345 Courtland Street, NE, Atlanta, Georgia 30365; (404) 347-2234 vmx 2018.

SUPPLEMENTARY INFORMATION:

A. Background

States with final authorization under Section 3006(b) of the Resource Conservation and Recovery Act ("RCRA" or "the Act"), 42 U.S.C. 6926(b), have a continuing obligation to maintain a hazardous waste program that is equivalent to, consistent with, and no less stringent than the Federal hazardous waste program. In addition, as an interim measure, the Hazardous and Solid Waste Amendments of 1984 (Public Law 98-616, November 8, 1984, hereinafter "HSWA") allows States to revise their programs to become substantially equivalent instead of equivalent to RCRA requirements promulgated under HSWA authority. States exercising the latter option receive "interim authorization" for the HSWA requirements under Section 3006(g) of RCRA, 42 U.S.C. 6926(g), and later apply for final authorization for the

HSWA requirements. Revisions to State hazardous waste programs are necessary when Federal or State statutory or regulatory authority is modified or when certain other changes occur. Most commonly, State program revisions are necessitated by changes to EPA's regulations in 40 CFR Parts 260-268 and 124 and 270.

B. Mississippi

Mississippi initially received final authorization for its base RCRA program effective on June 27, 1984. Mississippi received authorization for revisions to its program on October 17, 1988, October 9, 1990, May 28, 1991, August 27, 1991, July 10, 1992, June 7, 1993, December 20, 1993, May 17, 1994, and July 31, 1995. On August 10, 1994, Mississippi submitted a program revision application for additional program approvals. Today, Mississippi is seeking approval of its program revisions in accordance with 40 CFR 271.21(b)(3).

EPA has reviewed Mississippi's application and has made an immediate final decision that Mississippi's hazardous waste program revisions satisfy all of the requirements necessary to qualify for final authorization. Consequently, EPA intends to grant final authorization for the additional program modifications to Mississippi. The public may submit written comments on EPA's immediate final decision up until September 29, 1995.

Copies of Mississippi's application for these program revisions are available for inspection and copying at the locations indicated in the **ADDRESSES** section of this notice. Approval of Mississippi's program revisions shall become effective October 30, 1995, unless an adverse comment pertaining to the State's revisions discussed in this notice is received by the end of the comment period.

If an adverse comment is received EPA will publish either (1) a withdrawal of the immediate final decision or (2) a notice containing a response to comments which either affirms that the immediate final decision takes effect or reverses the decision.

EPA shall administer any RCRA hazardous waste permits, or portions of permits that contain conditions based upon the Federal program provisions for which the State is applying for authorization and which were issued by EPA prior to the effective date of this authorization. EPA will suspend issuance of any further permits under the provisions for which the State is being authorized on the effective date of this authorization.

Mississippi is today seeking authority requirements promulgated on July 1, to administer the following Federal 1992-June 30, 1993, for RCRA III.

Federal requirement	FR reference	FR promulgation date
Checklist 107: Oil Filter Exclusion	57 FR 29220	7/1/92
Checklist 108: Toxicity Characteristic Revision; Technical Correction	57 FR 30657	7/10/92
Checklist 109: Land Disposal Restrictions for Newly Listed Wastes and Hazardous Debris	57 FR 37194	8/18/92
Checklist 110: Coke By-Products Listing	57 FR 37284	8/18/92
Checklist 112: Recycled Used Oil Management Standards	57 FR 41566	9/10/92
Checklist 113: Consolidated Liability Requirements	53 FR 33938	9/1/88
	56 FR 30200	7/1/91
	57 FR 42832	9/16/92
Checklist 115: Reportable Quantity Adjustment, Chlorinated Toluene Production Wastes	57 FR 47376	10/15/92
Checklist 118: Liquids in Landfills	57 FR 54452	11/18/92
Checklist 119: Toxicity Characteristic Revision; Correction	57 FR 55114	11/24/92
	58 FR 6854	2/2/93
Checklist 120: Wood Preserving; Technical Amendment	57 FR 61492	12/24/92
Checklist 122: Recycled Used Oil Management Standards; Technical Amendments	58 FR 26420	5/3/93
Checklist 124: Land Disposal Restrictions for Ignitable and Corrosive Characteristic Wastes	58 FR 29860	5/24/93

Mississippi's application for these program revisions meet all of the statutory and regulatory requirements established by RCRA. Accordingly, Mississippi is granted final authorization to operate its hazardous waste program as revised.

Mississippi now has responsibility for permitting treatment, storage, and disposal facilities within its borders and carrying out other aspects of the RCRA program, subject to the limitations of its program revision application and previously approved authorities. Mississippi also has primary enforcement responsibilities, although EPA retains the right to conduct inspections under Section 3007 of RCRA and to take enforcement actions under Section 3008, 3013, and 7003 of RCRA.

Compliance With Executive Order 12866

The Office of Management and Budget has exempted this rule from the requirements of Section 6 of Executive Order 12866.

Certification Under the Regulatory Flexibility Act

Pursuant to the provisions of 5 U.S.C. 605(b), I hereby certify that this authorization will not have a significant economic impact on a substantial number of small entities. This

authorization effectively suspends the applicability of certain Federal regulations in favor of Mississippi's program, thereby eliminating duplicative requirements for handlers of hazardous waste in the State. It does not impose any new burdens on small entities. This rule, therefore, does not require a regulatory flexibility analysis.

Significant New Uses of Certain Chemical Substances

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is promulgating significant new use rules (SNURs) under section 5(a)(2) of the Toxic Substances Control Act (TSCA) for certain chemical substances which were the subject of premanufacture notices (PMNs) and subject to TSCA section 5(e) consent orders issued by EPA. Today's action requires persons who intend to manufacture, import, or process these substances for a significant new use to notify EPA at least 90 days before commencing the manufacturing or processing of the substance for a use designated by this SNUR as a significant new use. The required notice will provide EPA with the opportunity to evaluate the intended use, and if necessary, to prohibit or limit that activity before it occurs. EPA is promulgating this SNUR using direct final procedures.

DATES: The effective date of this rule is October 30, 1995. This rule shall be
