Agency Information Collection Activities Under OMB Review

AGENCY: Environmental Protection

Agency (EPA). **ACTION:** Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 et seq.), this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collection and its expected cost and burden; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before September 27, 1995.

FOR FURTHER INFORMATION OR A COPY CALL: Sandy Farmer at EPA, (202) 260–2740, and refer to EPA ICR No. 0270.34.

SUPPLEMENTARY INFORMATION: Title: Public Water Supply System Supervision Program, Public Notification and Education Requirements (OMB Control No. 2040–0090; EPA ICR No. 0270.34). This is an amendment to a previously-approved collection. (These requirements were included in rules promulgated by EPA in 1987 and 1991, but were not included in ICRs developed at those times. Due

to enactment of the Paperwork Reduction Act of 1995, the requirements are now being submitted for OMB review. EPA is not proposing any modification of the requirements at this time.)

Abstract: The Safe Drinking Water Act requires that the public be made aware of potential contaminants in their water systems. A public water system is required to notify its consumers when the system has exceeded regulatory action levels, has received variances or exemptions, or has failed to comply with schedules pursuant to variances. Systems notify their consumers by means of mailed notices (often included with a water bill), newspaper announcements, posted notices, and in some circumstances electronic media (radio and television). Public water systems that exceed action levels for lead must provide educational materials to consumers about lead in drinking water. The educational materials include water bill announcements, newspaper announcements, and brochures distributed by mail and made available at local health agencies, schools and other public entities. The general public notification provisions and lead public education requirements are included in the National Primary Drinking Water Regulations, 40 CFR Parts 141-143.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 6.6 hours per response. This estimate includes the time needed to review regulations and guidance; prepare notification statements and brochures, distributing

and/or posting the notices, and training personnel on notification procedures.

Respondents/Affected Entities: Public water systems.

Estimated No. of Respondents: 61,930.

Estimated Total Annual Burden on Respondents: 408,535 hours.

Frequency of Collection: On occasion. Send comments regarding the burden estimate, or any other aspect of the information collection, including suggestions for reducing the burden, to the following addresses. Please refer to EPA ICR No. 0270.34 and OMB Control No. 2040–0090 in any correspondence. Ms. Sandy Farmer, U.S. Environmental

Protection Agency, OPPE Regulatory Information Division (2136), 401 M Street, SW, Washington, DC 20460.

Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

Dated: August 29, 1995.

Richard Westlund,

Acting Director, Regulatory Information Division
