SUPPLEMENTARY INFORMATION: The Agency has issued Reregistration Eligibility Decision (RED) documents for the pesticide chemical cases listed above. Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended in 1988, EPA is conducting a reregistration program to reevaluate

older pesticides, those initially registered prior to November 1, 1984, to make sure they meet current scientific and regulatory standards. If necessary, modifications to use patterns and application methods may be required to reduce risks to appropriate levels. All registrants of products containing one or more of the above listed active ingredients have been sent the appropriate RED documents and must respond to labeling requirements and product specific data requirements (if applicable) within 8 months of receipt.

Products containing other active ingredients will not be reregistered until those other active ingredients are determined to be eligible for reregistration.

The reregistration program is being conducted under Congressionally - mandated time frames, and EPA recognizes both the need to make timely reregistration decisions and to involve the public. Therefore, EPA is issuing these REDs as final documents with a 60-day comment period. Although the 60-day public comment period does not

affect the registrant's response due date, it is intended to provide an opportunity for public input and a mechanism for initiating any necessary amendments to the RED. All comments will be carefully considered by the Agency. If any comment significantly affects a RED, EPA will amend the RED by publishing the amendment in the **Federal Register**.

Electronic copies of the REDs and RED fact sheets can be downloaded from the Pesticide Special Review and Reregistration Information System at 703-308-7224, and also can be reached on the Internet via fedworld.gov and EPA's gopher server, gopher.epa.gov.

Electronic comments can be sent directly to EPA at:
opp-docket@epamail.epa.gov

Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption.

The official record for this notice, as well as the public version, as described above will be kept in paper form. Accordingly, EPA will transfer all comments received electronically into printed, paper form as they are received and will place the paper copies in the official record which will also include all comments submitted directly in writing. The official record is the paper record maintained at the address in "ADDRESSES" at the beginning of this document.

FOR FURTHER INFORMATION CONTACT: By mail: Wilhelmena Livingston, Special Review Branch, Special Review and Reregistration Division (7508W), Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location and telephone number: Special Review Branch, 3rd floor, 2800 Crystal Drive, Arlington, VA. (703) 308-8025; e-mail: livingston.wilhelmena@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: This Notice announces the receipt of a request from Zeneca Ag Products to cancel its registration of VAPAM-B Foaming Fumigant.

I. Background

Pursuant to section 6(b) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), the Administrator may seek cancellation of a product if a pesticide or its labeling or other material required to be submitted for registration does not comply with the provisions of this act. The Agency issued a letter to Zeneca Ag Products (Zeneca) on March 15, 1995, notifying the registrant that a Confidential Statement of Formula (CSF) was not on file with the Agency for VAPAM-B Foaming Fumigant, a product that contains metam-sodium. The letter indicated that an up-to-date CSF or a request for voluntary cancellation must be received by the Agency within 30 days of receipt of the March 15, 1995 letter.

II. Request for Voluntary Cancellation

On March 28, 1995, Zeneca Ag Products submitted a letter to EPA requesting voluntary cancellation of the registration for VAPAM-B Foaming Fumigant (EPA registration number 10182-185), pursuant to FIFRA section

6(f)(1). Zeneca indicated in the letter that the subject product has not been manufactured or distributed in many years, therefore, Zeneca requests voluntary cancellation of the registration for VAPAM-B Foaming Fumigant. EPA intends to approve the proposed voluntary cancellation unless Zeneca withdraws or amends its request before the end of the comment period.

III. Procedures for Withdrawal of Request

If Zeneca chooses to withdraw its request for cancellation, it must submit such withdrawal in writing to Wilhelmena Livingston, Special Review Branch, Special Review and Reregistration Division (7508W), Environmental Protection Agency, 401 M St., S.W., Washington, DC 20460, postmarked on or before October 6, 1995. This written withdrawal of the request for cancellation must include a current CSF for the product, and a commitment to pay any reregistration or registration maintenance fees due, as well as to fulfill any applicable unsatisfied data requirements.

IV. Provisions for Existing Stocks

Under the authority of FIFRA section 6(a)(1), EPA will establish certain limitations on the distribution and use of exiting stocks of VAPAM-B Foaming Fumigant subject to any final cancellation notice. EPA defines the term "existing stock" to mean any quantity of VAPAM-B Foaming Fumigant in the United States on the effective date of the cancellation of a registration granted by the Agency. Such existing stocks include VAPAM-B Foaming Fumigant that have been formulated, packaged, and labeled and are being held for shipment or release or have been shipped or released into commerce.

Consistent with the Agency's established policy for determinations concerning existing stocks (56 FR 29362), the Agency will permit Zeneca to sell and distribute existing stocks of this product for up to 1 year after the effective date of this cancellation. Any sale or distribution of the product by Zeneca after that 1 year period will be a violation of federal law. Any existing stocks remaining in the possession of all other persons after 1 year may continue to be sold, distributed, and used until such existing stocks are exhausted.

V. Comments

Persons interested in commenting on the proposed cancellation are invited to submit their written comments on or before October 6, 1995 to the address given above.
