

Availability of Environmental Assessments

Pursuant to 42 U.S.C. 4332, the Commission has prepared and made available environmental assessments for the proceedings listed below. Dates environmental assessments are available are listed below for each individual proceeding.

To obtain copies of these environmental assessments contact Ms. Tawanna Glover-Sanders, Interstate Commerce Commission, Section of Environmental Analysis, Room 3219, Washington, DC 20423, (202) 927-6203.

Comments on the following assessment are due 15 days after the date of availability:

AB-12 (Sub-No. 151X), Southern Pacific Transportation Co.—Abandonment Exemption—in Ventura County, CA. EA available 8/25/95.

AB-417 (Sub-No. 1X), Central New York Railway Corporation - Abandonment of its line of railroad in Oneida, Herkimer and Otsego Counties, New York. EA available 8/25/95.

AB-3 (Sub-No. 126X), Missouri Pacific Railroad Company—Abandonment Exemption—in Caddo Parish, Louisiana (Good Roads Lead). EA available 9/1/95.

Comments on the following assessment are due 30 days after the date of availability: None.

Vernon A. Williams,

Secretary.

DEPARTMENT OF JUSTICE

Immigration and Naturalization Service

[INS No. 1733-95]

Special Filing Instructions for ABC Class Members; Correction

AGENCY: Immigration and Naturalization Service, Justice.

ACTION: Notice; correction of form number.

SUMMARY: On Friday, July 7, 1995, the Immigration and Naturalization Service (the Service) published a notice at 60 FR 35424-35430, entitled "Special Filing Instructions for ABC Class Members." In that notice the Service provided special instructions for class members eligible for asylum benefits under the settlement agreement reached in *American Baptist Churches v. Thornburgh*, 760 F. Supp. 796 (N.D. Cal. 1991). That notice document 95-16771, erroneously referenced the Form I-855, ABC Change of Address Form.

Accordingly, on page 35424, under "Supplementary Information:" the entry for "Form I-855" where it is listed in the second, third and fourth paragraphs, should have read "Form M-426."

Dated: August 31, 1995.

Doris Meissner,

Commissioner, Immigration and Naturalization Service.

BILLING CODE 4410-10-M

National Institute of Corrections

Announcement of Programs, Services, and Training

The National Institute of Corrections (NIC), U.S. Department of Justice, has published its Annual Program Plan—Fiscal Year 1996. The document describes the technical assistance, programs, and services to be available to the corrections field during the next fiscal year, which begins on October 1, 1995, and ends September 30, 1996.

A separate document, the NIC Schedule of Training Services for Fiscal Year 1996, describes the training programs and services to be provided by NIC for state and local corrections practitioners.

Both documents contain relevant application forms and may be obtained by contacting the National Institute of Corrections, 320 First Street, NW, Washington, D.C. 20534 (telephone: 202-307-3106 x144, fax 202-307-3361), or the NIC Longmont, Colorado, offices at 1960 Industrial Circle, Suite A, Longmont, Colorado, 80501 (telephone 303-682-0382, fax 303-682-0469). Both documents are also available on Internet. Connect to the Department of Justice gopher server, gopher.usdoj.gov. From the menu, select the National Institute of Corrections, then select the desired document. Application forms are not included in the Internet version of the Annual Program Plan.

Larry B. Solomon,

Acting Director.

BILLING CODE 4410-36-M

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (95-085)]

Notice of Prospective Patent License

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of Prospective Patent License.

SUMMARY: NASA hereby gives notice that ACO, Inc., a corporation of the State of Oklahoma, has requested an exclusive license to practice the invention described and claimed in U.S. Patent No. 5,171,822, entitled "LOW TOXICITY HIGH TEMPERATURE PMR POLYIMIDE." This patent is assigned to the United States of America as represented by the Administrator of the National Aeronautics and Space Administration. Written objections to the prospective grant of a license should be sent to Mr. George F. Helfrich, Patent Counsel, NASA Langley Research Center.

DATES: Responses to this Notice must be received by November 6, 1995.

FOR FURTHER INFORMATION CONTACT: Mr. George F. Helfrich, Patent Counsel, NASA Langley Research Center, Mail Code 212, Hampton, VA 23681-0001; telephone (804) 864-3521.

Dated: August 30, 1995.

Edward A. Frankle,

General Counsel.

BILLING CODE 7510-01-M

NUCLEAR REGULATORY COMMISSION

Seeks Qualified Candidates for Advisory Committee on Reactor Safeguards

AGENCY: U.S. Nuclear Regulatory Commission.

ACTION: Request for résumés.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is looking for qualified candidates for possible appointment to its Advisory Committee on Reactor Safeguards (ACRS). There are three openings expected on the Committee in 1996. One or two openings may be filled by reappointment of incumbents.

ADDRESSES: Submit résumés to: Ms. Jude Himmleberg, Office of Personnel, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

FOR APPLICATION MATERIALS, CALL: 1-800-952-9678. Please refer to Announcement Number 95-1000.

SUPPLEMENTARY INFORMATION: The ACRS was established by Congress to provide the Commission with independent expert advice on matters related to regulatory policy and the safety of existing and proposed nuclear power plants. The Committee work currently emphasizes safety issues associated with the operation of more than 100

nuclear units in the United States and technical and policy issues related to evolutionary and passive standard plant designs.

The ACRS membership includes individuals from national laboratories, academic and research institutions, industry, and consulting engineering firms who possess specific technical expertise along with a broad perspective in addressing safety concerns.

The members of the ACRS are selected from a variety of engineering and scientific disciplines such as nuclear power plant operations, nuclear engineering, mechanical engineering, electrical engineering, chemical engineering, metallurgical engineering, structural engineering, materials science, and instrumentation and process control systems. At this time, candidates are being sought with specific expertise in the areas of nuclear power plant operations and instrumentation and process control systems.

Criteria used to evaluate candidates include education and experience, demonstrated skills in nuclear safety matters, and the ability to apply one's skills to solve problems. Additionally, the Commission considers the need for specific expertise in relationship to current and future tasks, availability of candidates to serve, and possible conflicts of interest. Consistent with the requirements of the Federal Advisory Committee Act, the Commission seeks candidates with varying views so that the membership on the Committee will be fairly balanced terms of the point of views represented and the functions to be performed by the Committee.

Because conflict of interest regulations restrict the participation of members actively involved in the regulated aspects of the nuclear industry, the degree and nature of any such involvement will be considered. Each qualified candidate's financial interests must be reconciled with applicable Federal and NRC rules and regulations prior to final appointment to the Committee. This may result in the candidate being required to divest himself or herself of securities issued by nuclear industry entities, or discontinue or limit involvement in NRC or industry-funded research contracts or grants, based on a determination of possible conflict of interest.

Copies of résumé describing the educational and professional background of the candidate, including any special accomplishments, professional references, current address, and telephone number should be provided. All qualified candidates will receive full consideration. Appointment

will be made without regard to such factors as race, color, religion, national origin, sex, age, or disabilities.

Candidates must be citizens of the United States and be able to devote approximately 50–100 days per year to Committee business. Applications will be accepted until November 24, 1995.

Dated: August 31, 1995.

Andrew L. Bates,

Advisory Committee Management Officer.

BILLING CODE 7590–01–M

[Docket No. 70–820]

Release of United Nuclear Corporation, Wood River Junction Site For Unrestricted Use and Removal From the Site Decommissioning Management Plan—Finding of No Significant Impact and Opportunity for a Hearing

The U.S. Nuclear Regulatory Commission has prepared an environmental assessment (EA) related to the release of the United Nuclear Corporation (UNC) Wood River Junction Site and the termination of Special Nuclear Materials License No. SNM–777, Docket No. 70–820.

On the basis of this EA, the NRC has concluded that the environmental impacts that could be caused by the proposed action would not be significant and do not warrant the preparation of an environmental impact statement. Accordingly, it has been determined that a Finding of No Significant Impact is appropriate.

The UNC site was listed in the NRC's Site Decommissioning Management Plan, but has now been removed.

Results of the radiological surveys and analyses performed indicate that, after remedial actions, residual radioactive material in building surfaces and in soils at the site is less than the criteria found in the NRC's "Guidelines for Decontamination of Facilities and Equipment Prior to Release for Unrestricted Use or Termination of Licenses for Byproduct, Source, or Special Nuclear Material," August 1967. However, non-radiological onsite groundwater contamination will be monitored on a continuing basis by the State of Rhode Island Department of Environmental Management and UNC. NRC concludes that further remedial action is not required, and that the site is suitable for unrestricted use with regard to any radiological hazards regulated by NRC under the authority of the Atomic Energy Act of 1954, as amended.

As noted in the Action Plan (57 FR 13389), this is the final action of the NRC on the UNC site. NRC will not require any additional decommissioning in response to future NRC criteria or standards, except in the event that additional contamination, or non-compliance with the decommissioning plans approved by NRC is found, indicating a significant threat to public health and safety. Non-compliance would occur if the licensee had not complied with an approved decommissioning plan, or had provided false information.

The NRC hereby provides notice of an opportunity for a hearing on the termination of the license under the provisions of 10 CFR Part 2, Subpart L, "Informal Hearing Procedures for Adjudications in Materials and Operator Licensing Proceedings." Pursuant to § 2.1205(a), any person whose interest may be affected by this proceeding may file a request for a hearing in accordance with § 2.1205(c). A request for a hearing must be filed within thirty (30) days of the date of publication of this **Federal Register** notice.

In addition to meeting other applicable requirements of 10 CFR Part 2 of the NRC's regulations, a request for a hearing filed by a person other than an applicant must describe in detail:

- (1) The interest of the requestor in the proceeding;
- (2) How that interest may be affected by the results of the proceeding, including the reasons why the requestor should be permitted a hearing, with particular reference to the factors set out in § 2.1205(g);
- (3) The requestor's areas of concern about the licensing activity that is the subject matter of the proceeding; and
- (4) The circumstances establishing that the request for a hearing is timely in accordance with § 2.1205(c).

In accordance with 10 CFR § 2.1205(e), each request for a hearing must also be served, by delivering it personally or by mail, to:

- (1) The licensee, United Nuclear Corporation, Inc., 67 Sandy Desert Road, Uncasville, CT 06382; and
- (2) The NRC staff, by delivery to the Executive Director for Operations, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852 or by mail addressed to the Executive Director for Operations, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

Any hearing that is requested and granted will be held in accordance with the NRC's "Informal Hearing Procedures for Adjudications in Material Licensing Proceedings" in 10 CFR Part 2, Subpart L.
