 Rule 1305 Part 70 Operating Permits—Enforcement (Adopted 11/09/93)

Administrative Requirements

A. Regulatory Flexibility Act

As was stated in the final OCS regulation, the OCS rule does not apply to any small entities, and the structure of the rule averts direct impacts and mitigates indirect impacts on small entities. This consistency update merely incorporates onshore Part 70 permit requirements into the OCS rule to maintain consistency with onshore regulations as required by section 328 of the Act and does not alter the structure of the OCS rule. Because this action does not create any new requirements, it does not have a significant impact on a substantial number of small entities.

B. Executive Order 12866

The Office of Management and Budget (OMB) has exempted this regulatory action from Executive Order 12866 review.

C. Unfunded Mandates

Under Sections 202, 203, and 205 of the Unfunded Mandates Reform Act of 1995 ("Unfunded Mandates Act"), signed into law on March 22, 1995, EPA must undertake various actions in association with proposed or final rules include a Federal mandate that may result in estimated costs of \$100 million or more to the private sector or to State, local, or tribal governments in the aggregate.

EPA has determined that the final action promulgated today does not include a Federal mandate that may result in estimated costs of \$100 million or more to either State, local or tribal governments in the aggregate, or to the private sector. This Federal action approves pre-existing requirements under State or local law, and imposes no new Federal requirements. Accordingly, no additional costs to the State, local, or tribal governments, or to the private sector, result from the action.

Clean Air Act Promulgation of Reclassification of PM10 Nonattainment Areas—Connecticut; Approval of 1-Year Extension of Attainment Date for New Haven**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Proposed rule.

SUMMARY: EPA is proposing full approval of Connecticut's request for a 1-year extension of the attainment date for the New Haven PM10 nonattainment area. This action is based on monitored air quality data for the national ambient air quality standard for PM10 during the years 1992-94. This action is being taken under the Clean Air Act. In the Final Rules Section of this **Federal Register**, EPA is approving the Connecticut's extension request as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to that direct final rule, no further activity is contemplated in relation to this proposed rule. If EPA does receive adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this proposal. Any parties interested in commenting on this proposal should do so at this time.

DATES: Comments must be received on or before October 11, 1995.**ADDRESSES:** Comments may be mailed to Susan Studlien, Acting Director, Air, Pesticides and Toxics Management Division, EPA-New England, JFK Federal Bldg (AAA), Boston, MA 02203-2211. [Docket No. 950822211-5211-01; I.D. 080395A]

RIN 0648-AD80**North Pacific Fisheries Research Plan****AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.**ACTION:** Proposed rule; public hearing by teleconference.

SUMMARY: NMFS issues a proposed rule to implement Amendment 1 to the North Pacific Fisheries Research Plan (Research Plan). Regulations implementing this amendment would delay full implementation of the Research Plan until 1997 and establish 1996 observer coverage requirements for the Research Plan fisheries. This delay is necessary to provide the North Pacific Fishery Management Council (Council) additional time to address certain issues presented by implementation of the Research Plan. To remain consistent with the Council's intent, observer coverage requirements in regulations that implement Amendment 35 to the Fishery Management Plan (FMP) for the Groundfish Fishery of the Bering Sea and Aleutian Islands Area are proposed to be extended through 1996.

DATES: Comments on this proposed rule must be received by November 6, 1995. A public hearing on the proposed rule will be held by teleconference on Monday, September 18, 1995, at 1 p.m., Alaska local time.**ADDRESSES:** Comments on this proposed rule may be sent to Ronald J. Berg, Chief, Fisheries Management Division, Alaska Region, NMFS, 709 West 9th Street, Juneau, AK 99801, or P.O. Box 21668, Juneau, AK 99802-1668, Attn: Lori J. Gravel. Regulations implementing the Research Plan became effective October 6, 1994 (59 FR 46126, September 6, 1994). A regulatory amendment was published in the **Federal Register** on January 9, 1995 (60 FR 2344), that clarified 1995 observer coverage requirements and revised the definition of certain terms set out under § 677.2. Two additional rules have been published in the **Federal Register** that make other minor substantive changes to the regulations implementing the Research Plan. A final rule published on July 5, 1995 (60 FR 34904), and required vessels and shoreside processors to facilitate transmission of observer data. Finally, a proposed rule published on August 16, 1995 (60 FR 42470) revised 1995 observer coverage requirements for crab catcher vessels and exempted certain crab catcher vessels required to obtain observer coverage from paying 1995 Research Plan fees.

The Research Plan adopted by the Council at its December 1993 meeting established a two-phase implementation strategy for the Research Plan. The first phase is occurring in 1995 and serves to collect start-up funding for full implementation of the Research Plan. During 1995, NMFS is assessing and collecting Research Plan fees. Participants in the Research Plan fisheries are continuing independently to obtain required observer coverage
