Designation of Areas for Air Quality Planning Purposes; Wisconsin

AGENCY: Environmental Protection Agency (USEPA).

ACTION: Proposed rule.

SUMMARY: In this action USEPA proposes to remove all total suspended particulate (TSP) area designations in the State of Wisconsin. This action was prompted by the Wisconsin Department of Natural Resources' (WDNR) request to redesignate all areas in the State from TSP nonattainment to attainment. In the final rules section of this **Federal Register**, USEPA is approving the State's request as a direct final rule without prior proposal, because the Agency views this as a noncontroversial revision amendment and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this proposed rule. If USEPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The USEPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time.
