

Commission release a database that compiles the individual LEC submissions. The Common Carrier Bureau (Bureau), working with the Federal-State Joint Board staff, has compiled the individual LEC responses containing information not claimed to be confidential into a database. In response to the foregoing requests, the Bureau intends to release this database of non-confidential information. While we hope this database will help commenters analyze those proposals in the July 13, 1995, Notice of Proposed Rulemaking and Notice of Inquiry that lend themselves to quantitative analysis, we remind you that comments need not be, and our consideration will not be, limited to the data contained in that database.

Great care has been taken to assure that the information in the database to be released does not contain data fields subject to confidentiality claims. Notwithstanding these efforts, and to protect against the possibility that some information claimed to be confidential has inadvertently been included in the database, the Bureau is taking the following measures.

First, analysis of the claims of confidentiality indicates that most of the confidentiality claims were made in a limited number of specific data fields. To accommodate these claims, we shall exclude the following fields (in File 1/filename "DATAREQ", and File 3/filename "ZIPCODES", respectively) from the forthcoming database:

1. Distribution of billings by dollar amounts (File 1, Fields 69-94 and 137-156).
2. Number of subscriber lines billed for specific interexchange carriers (File 1, Fields 123-130).
3. Information relating to cable TV, cellular and other services (File 1, Fields 335-373).
4. Identity of wire center common language location identifier, the number of subscriber lines served by each wire center, the post office zip code at the location of the wire center, and the zip codes served by specific wire centers (File 3, cols. A-D).

You need not respond to this letter to have data you submitted in the fields listed above withheld from the database. Withholding this information from the database is intended to accommodate most carriers' concerns about proprietary information and does not constitute a ruling on the requests for proprietary treatment.

Second, if you have requested that the Commission accord other specific information confidential treatment, you may at this time file a statement identifying those other fields in your response to the data request for which you claimed confidential treatment, and a statement that you continue to assert such claims. If such statements are timely received, the fields of information will be excluded from the database to be released. Failure to provide such statements on or before September 25, 1995, will be deemed to constitute waiver of objection to release of the LEC's information designated confidential solely to the extent that such confidential information has been included in the database to be released. Requests that information not previously designated confidential or proprietary now be so designated, will not be considered.

Statements seeking continued confidential treatment of data must be received by the Commission not later than September 25, 1995. To ensure that we receive your response without delay, we have assigned a special mail box for replies to this letter. Therefore, to be considered, your response must be addressed to:

I have determined that the damage in
