

2. The Foundation issued a permit (95-013) to Ron Naveen on September 7, 1994. The issued permit allows for the entry into Sites of Special Scientific Interest to catalogue the physical and biological characteristics of more than 60 locations visited in the Antarctic Peninsula. Cataloguing efforts include the inventory, marking, or photographing sites or to demarcate discrete groups, colonies, or plots of penguins, flying seabirds, or terrestrial plants.

The permit holder requests to modify the permit to allow for the collection of culmen measurements from penguin chicks in January/February. These measurements will help to more precisely determine the age of chicks and assist in determining productivity at the site. Culmen measurements will be taken at small creches on an opportunistic basis.

LOCATION: Various visitor sites in the Antarctic Peninsula Region, including a possible stop over at the research site at Admiralty Bay (SSSI #8).

DATES: October 15, 1995–March 1, 1996.

Permit Office, Office of Polar Programs.
