Bureau of the Census

[Docket No. 950911228-5228-01]

The American Community Survey

AGENCY: Bureau of the Census,
Commerce.

ACTION: Notice of consideration.

SUMMARY: Notice is hereby given that the Bureau of the Census is considering a proposal to conduct The American Community Survey under the authority of Title 13, United States Code, Sections

182 and 225. On the basis of information and recommendations received by the Bureau of the Census, the data have significant application to the needs of other government agencies and the public. The survey will provide data for small areas and small subpopulations that are necessary to evaluate a continuous measurement system to collect, on a continual basis, data that have traditionally been collected only once every ten years in the decennial census. These data are not publicly available from nongovernment or other governmental sources.

DATES: Any suggestions or recommendations concerning the proposed survey should be submitted in writing by October 18, 1995.

ADDRESSES: Director, Bureau of the Census, Washington, DC 20233.

FOR FURTHER INFORMATION CONTACT:

Lawrence S. McGinn, Chief, Continuous Measurement Office, U.S. Census Bureau, on (301) 763-8327.

SUPPLEMENTARY INFORMATION: The Census Bureau is authorized to conduct surveys necessary to furnish current data on subjects covered by the major census authorized by Title 13, United States Code. The data from this survey will determine the feasibility of a continuous measurement system that provides socioeconomic data on a continual basis throughout the decade for small areas and small subpopulations. Currently, the decennial census is the only source of data available for small area levels and, therefore, these data are collected only once every ten years. A continuous measurement system also would provide a mechanism for identifying
