Whereas, the Board's regulations (15 CFR Part 400) provide for the establishment of special-purpose subzones when existing zone facilities cannot serve the specific use involved;

[Docket 51-95]

Foreign-Trade Zone 167—Green Bay, WI Application for Subzone Status Robin Manufacturing U.S.A., Inc., Plant (Internal-Combustion Engines) Hudson, WI

An application has been submitted to the Foreign-Trade Zones Board (the Board) by Brown County, Wisconsin, grantee of FTZ 167, requesting special-purpose subzone status for the small internal-combustion engine manufacturing plant of Robin Manufacturing U.S.A., Inc. (RMI) (a joint venture between Polaris Industries, Inc. (Minneapolis, MN), and Fuji Heavy Industries (Japan)), located in Hudson, Wisconsin. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the

regulations of the Board (15 CFR part 400). It was formally filed on September 5, 1995.

The RMI plant (2 acres/56,000 sq.ft.) is located at 1201 Industrial Road in Hudson (St. Croix County), Wisconsin, some 15 miles east of Minneapolis—St. Paul, Minnesota. The facility (19 employees) is used to produce spark-ignition internal combustion engines (up to 500 cc in size) for recreational vehicles such as golf carts and all-terrain vehicles (up to 100,000 units per year). The company also plans to manufacture industrial engines (up to 1,000 cc) for farm, lawn, and garden equipment (HTS# 8407.32.20, 8407.33.30). Currently all of the engines' components are sourced abroad including: crankcases, cylinder heads, manifolds, balancer shafts, connecting rods, pistons, rocker arms, intake/exhaust valves, bearings and housings, flywheels, pulleys, gaskets, magnetos, fasteners, housings, fuel pumps, electrical components, and spark plugs (1995 duty rate range: 0.2—9.3%). The application indicates that 50 percent of all parts (by value) will be purchased from U.S. suppliers within three years after approval of subzone status.

Zone procedures would exempt RMI from Customs duty payments on the foreign components used in export production. On its domestic sales, RMI would be able to choose the lower duty rates that apply to finished engines (duty free, 2.5%) for the foreign components noted above. The application indicates that the savings from zone procedures would help improve the plant's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment on the application is invited from interested parties. Submissions (original and three copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is November 17, 1995. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period to December 4, 1995.

A copy of the application and the accompanying exhibits will be available for public inspection at each of the following locations:
